# 1987-88 Research Conferences

The Division of Research Programs announces thirty-eight research conferences that are being or have been supported by the National Endowment for the Humanities in 1987-88. These conferences are designed to advance scholarly research in the humanities. Those interested in additional information should call or write the conference project directors. For all conferences, project directors can provide conference materials, papers, and information about results of the meeting. In most cases observers are also welcome. Please note that many but not all of the conferences are open to further application for subsidized participation. Proceedings of conferences that have already taken place can be obtained from the project directors.
