# MLNUTES OF THE FORTY-FIRST MEETING OF THE <br> NATIONAL COUNCIL ON THE HUMANITIES 

## AUGUST 11-13, 1976

SEATTIE CENTER
SEATTIE, WASHINGTON

Members oresent

Fonald S. Berman, Chairman
Caroline Ahmanson
Nancy Davies
Concha Ortiz y Pino de Kleven
Luis Alberto Ferre'
John Hope Franklin
Hanna. H. Gray
Jay G. Hall
Jeffrey Hart
William A. Hewitt
Robert Hollander, Jr.

Sidney Hook
Richard W. Lyman
Truman G. Madsen
Fobert A. Nisbet
Eugene S. Pulliam
Blanchetta Rockefeller
Joe B. Rushing
Richard R. St. Jchns
Frank E. Vandiver
John W. Wolfe

Members absent
Ted Ashley
Martin Kilson
Irving Kristol
Sheidon H. Solow
Durward Belmont Varmer

## CONTENTS

Agenda
Item Page
I. Committee Meetings -- Fublic Programs and Education Programs ..... 41:5
II. Meeting of State-based Comnittee Chairmen with Public Programs Comittee ..... 41:5
Education Committee Meeting (continued) ..... 41:5
III. Meeting of State-based Committee Chairmen with Public Programs Comittee ..... 41:5
Comititee Meetings ..... $41: 5$
IV. Action on Regional and State-based Aoplications ..... $41: 5 \& 6$
V. First Presentation of FY 1978 Budget Request ..... $41: 7$
VI. Announcement of Regional and State Awards ..... $41: 8$
State-based Reception ..... $41: 8$
VII. Committee Meetings - Budget Discussion ..... $41: 8 \quad \& 16$
VIII. Minutes ..... $41: 8$
Reports
A. Introduction of New Council Members ..... 41:5
B. Summary of Recent Eusiness ..... 41:8
C. Introduction of New Staff ..... 41:9
D. Appropriation Request for FY 1977 ..... 41:10
E. Reauthorization ..... 41:10
F. Chairman's Grants ..... 41:10
G. Applicaiion Report ..... 41:10
H. Gifts and Matching Report ..... 41:10

Agenda
Item Page
VIII. Reports (continued)
I. Report - American Issues Forum ..... $41: 11$
J. Selected Project Evaluation ..... 41:13
K. Dates of Future Council Meetings ..... 41:13
-- Conflicts of Interest Resolution ..... $41: 14$
L. Request for Ratification of Actions of 40 th Meeting ..... $41: 15$
IX. Committee Reports and Council Action on Applications
A. Fellowships Program ..... $41: 16$
B. Planning and Analysis ..... $41: 20$
C. Research Program ..... 41:21
D. Education Programs ..... 41:23
E. Public Programs ..... $41: 24$
Appendix A: Public Programs Division: Action on Regional and State-based Applications ..... $41: 26$
Appendix B: Fellowships Division: Centers for Advanced Study Applications Recommended for Approval and Dis- approval ..... $41: 35$
Appendix C: Fellowships Division: Fellowships in Residence for College Teachers - Seminars Recommended for Approval ..... 41:36
Appendix D: Fellowships Division: Fellowships for the Pro- fessions Recommended for Approval and Disapproval ..... $41: 39$
Appendiy E: Fellowships Division: Summer Seminars Recom- mended for Approval ..... $41: 40$
Appendix F: Office of Planning and Analysis: Ceneral Froject Applications Recommended for Approval ..... $41: 45$
Appendix G: Office of Planning and Analysis: Ceneral Project Application Recommended for Disapproval ..... $41: 46$
Item Page
Appendix H: Office of Planning and Analysis: Youthgrants Recommended for Approval ..... 41:47
Appendix I: Office of Planning and Analysis: Youthgrants Recommenced for Disapproval ..... 41:52
Appendix J: Division of Research Grants: Applicaiions Recommended for Approval ..... 41:55
Appendix K: Division of Research Crants: Applications Recommended for Disapproval and Deferral ..... 41:67
Appendix I: Education Division: Applications Recommended for Approval ..... 41:70
Appendix M: Education Division: Applications Recommended for Disapproval and Deferral ..... 41:76
Appendix N: Public Programs Division: Applications Recom- mended for Approval ..... $41: 82$
Appendix O: Public Programs Division: Applications Recom- mended for Disapproval ..... 41:95

## COMMITTEE MEETINGS

(Agenda Items I. \& II.)
Separate meetings were held by the Committee on Public Programs, and the Committee on Education Programs. At noon the Committee on Public Programs met with the Chairmen of the Humanities Committees for the various States while the Education Programs Committee continued in its session examining applications for support.

Thursday, August 12, 1976
COMMITTEE MEETINGS
(Agenda Item III.)
The Committee on Public Programs continued its meeting with the Chairmen of the Humanities Comittees in the various States. Separate meetings were held by the Comittee on Education Programs, the Committee on Fellowships Programs, the Committee on Planning, and the Committee on Research Grants.

## ACTICN ON REGIONAL AND STATE-BASED APPIICATIONS

## (Agenda Item IV.)

The Council met in plenary session and was called to order by the Chairman at $3: 35$, a quorum being present.

## INTRODUCTION OF NEW COUNCIL MEMBERS

(Agenda Item VIII. A.)
The Chairman introduced the eight new Council members who were present:

```
Nancy Davies
John Hope Franklin
Jay G. Hall
Richard W. Iymen
Concha Ortiz y Pino de Kleven
Eugene S. Pulliam
Joe B. Rushing
John W. Wolfe
```

He welcomed them on behalf of the continuing members of the Council and on behalf of the staff. Mr. Varner had sent regret that he would be unable to attend this meeting because of an emergency of a personal nature.

## ACTION ON REGIONAI AND STATE-BASED APPIICATIONS (Continued)

(Agenda Item IV.)

## Public Programs

The Council recommended that the applications listed on pages 41:2630 of Appendix A with conditions specified on pages 41:31-34 be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## State-Based Committee Administrative Procedures

The Council recommended that up to $\$ 20,000$ be provided to each state-based committee for the exclusive purpose of contracting with a qualified organization to undertake analysis and make recommendations regarding committee administrative procedures, fiscal and office management, membership procedures, implementation of new legislative requirements, and other management matters determined mutually by the committee and the Endowment, with the condition that each contract is subject to Endowment approval.

## Division of Education Programs

## Develooment Grants

Mr. Hewitt made a motion for approval of $\mathrm{H}-25383$ (Oregon State University, Corvallis -- $\$ 684,000$ OR \& $\$ 200,000 \mathrm{C} \& \mathrm{M})$, and Mr. Ascher described the Development grants. The Chairman mentioned that the Council had discussed these grants at the May meeting and that it is planned to carry that discussion further. It is intended to reexamine the present policy at an imminent future meeting. Approval of $\mathrm{H}-25383$ was voted unanimously. The Council also recommended the following applications for approval:

| H-25728 | California State University, Fresno <br>  <br> $\$ 49,378$ OR (Pilot Grant) |
| :--- | :--- |
| H-25821 | University of San Francisco, Califormia <br>  <br> $\$ 47,348$ OR (Pilot Grant) |
| H-26415 | University of the Pacific, California |
|  | $\$ 4,000$ OR (Consultants Grant) |
| H-26596 | University of Alaska, Alaska |
|  | $\$ 4,000$ OR (Consultants Grant) |
| H-25550 | University Of Hawaii, Hawaii |
|  | $\$ 36,531$ OR (Projects Grant) |

The Council recommended that all sia applications be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Research Grants

The Council recommended that the following applications be approved for grants or contracts from definite appropriations:

> H-25569 - Krauss, Michael E., University of Alaska; Alaska Native Ianguage Center Library Catalog -up to $\$ 20,373$
> H-25542 - Berner, Richard C., University of Washington; Compilation of Comprehensive Guide to the Manuscript Collection -- $\$ 35,508$

Mr. Franklin asked that the title of $\mathrm{H}-25542$ be amended to identify the contents of the manuscript collection. The Chairman stated that this would be done.

## Office of Planning and Analysis

The Council recommended that the following application be approved for a grant or contract from definite appropriations:

H-26634 - Edward John Schonleber, Frederick Burk Foundation for Education; To develop an experimental project to implement Ccurses by Newspaper in community institutions -- $\$ 229,868$

This application was approved subject to two conditions:
I) an evaluation design for the project is to be developed by the applicant and approved by the staff, and
2) any funding beyond the Fall 1977 Course by Newspaper is contingent upon an agreement by some newspaper in the San Francisco area to carry the Spring 1977 Course by Newspaper.

## FIRST PRESENTATION OF FY 1978 BUDGET REOUEST

## (Agenda Item V.)

Confidential budget material was presented to the Council at this ooint and discussion ensued. The discussion is not included in these minutes because budget decisions are confidential.

## PRESS CONFERENCE AND STATE-BASED RECEPTION

(Agenda Item VI.)
The Chairman held a conference with members of the press at the Olympic Hotel during which the awards made on regional and statebased applications were announced. In the evening a reception was held for members of the Council and the Chairmen of the State-Based Humanities Committees at the Olympic Hotel. Remarks were made by the following: Ronald Berman, Chairman, National Endowment for the Humanities; James Dolliver, Supreme Court Justice, State of Washington; David Iittlefield, Professor of English at Middlebury College; John Terrey, Chairman, Washington Committee for the Humanities; and John Sherborg, It. Governor of the State of Washington.

Friday, August 13, 1976
COMMITTEE MEETINGS TO DISCUSS BUDGET
(Agenda Item VII.)

The day's work was started by the various committees of the Council meeting to discuss the Endowment's budget submission.

## OPEN SESSION OF THE FULL COUNCIL

(Agenda Item VIII.)
Minutes - The members present approved the minutes of the Fortieth Meeting held on May 13-14, 1976.

## B. Summary of Recent Business

The Chairman reported that there had been little public criticism of the Endownent in the media and that there had been a great deal of coverage both of the reauthorization legislation pending in Congress and of his renomination by the President which is pending before the Senate for their advice and consent. After the appointment of the nine new members of the Council, there is still one vacancy on the National Council on the Fumanities.

Parts II and, III of Mr . Franklin's Jefferson Lecture were delivered in Chicago and San Francisco and were received as favorably as the first part delivered in Washington, D.C.

In June the Newberry Iibrary published, with Endowment support, its Atlas of the American Revolution. This is the first major historical atlas produced in the United States and a copy will be presented to President Ford.

Representatives of the Education Division will be attending a conference in Santa Cruz, Califormia from August 15-22, to encourage discussion of education in the humanities. Thirteen Western States and in addition Samoa and Micronesia will be represented at the conference.

The American Bar Association has presented its Silver Gavel Award for "The Peach Cang," a television program in the series "Our Story" which received Endowment support. The television series "The Adams Chronicles" will be presented in a number of foreign countries and will be re-shown in the United States this fall.

The Youth Debates have now been completed and seemed a useful way to celebrate the Bicentennial. There were 140,000 participants. Of this number 48 winners came to Washington, D. C., in the spring for the final national program.

The Course by Newspaper is now in its fourth year. The subject or the series this fall will be oceans--their role in world history and economy. It is hoped that about 400 newspapers will carry the course and that it will reach an audience of twenty million people. Any Council member whose local newspaper does not carry the Course by Newspaper was asked to communicate with Mr. James Kraft in the Office of Planning and Analysis.

## C. Introduction of Nev Staff

Mr. Kingston introduced Joan Barrows, who recently joined the staff as Assistant Public Information Officer. Shortly after she began her duties with the Endowment, Mr. deChaby was taken seriously ill during a business visit to Chicago and she was forced to take over as Acting Public Information Officer. Cn behalf of Mr. deChaby and the staff the Deputy Chairman thanked Mr. John Hope Franklin and Mr. Lawrence Towner of the Newberry Library who helped Mr. deChaby by summoning an ambulance and arranging for a physician, two services which his hotel had refused to perform.

The Deputy Chairman reported that as indicated at the 40 th Meeting, Abraham Ascher was now serving as Director of the Division of Education Programs and Simone Reagor was retiring as Director of the Division of Research Crants after the present meeting. Harold Cannon will now serve as Director of the Division of Research Grants.

Miss Reagor thanked both the Council and the Endowment staff for all their kindness and help during her six years of service with the Division of Research Grants. The Chairman said that both the Council and staff would miss her.
D. Approoriation Request for Fiscal Year 1977

Mr. Kingston reminded the Council that the President in his budget message had requested $\$ 79,500,000$ in outright funds and $\$ 7,500,000$ in Treasury funds to match gifts as an appropriation for the Endowment for Fiscal Year 1977. The Congress passed legislation appropriating $\$ 77,500,000$ in outright funds and $\$ 7,000,000$ in matching funds, which was signed by the President on Juiy 3lst. This appropriation is contingent upon the passage of a bill pending in Congress to reauthorize the Endownent for a four-year period.

## E. Reauthorization

Mr. Kingston reviewed for the Council H.R. 12838 and S. 3440, the House and Senate versions of legislation reauthorizing appropriations for the National Foundation on the Arts and the Humanities for Fiscal Years 1977-1980. A conference was necessary and members of the Conference Committee were appointed by both Houses of Congress to resolve the differences in the legislation. The Committee had met six times up to the date of the meeting and had not yet agreed on a final version of the legislation. The next meeting of the Committee was scheduled for August 25th. Mrs. de Kleven asked why the Museum Services Institute is to be placed in the Department of Health, Education and Welfare instead of in the National Foundation on the Arts and the Humanities. Mr. Kingston said that this seemed to be a better location for the Institute because the Museum Services program will probably be one which distributes money by formula for basic and continuing institutional support, whereas the two Endowments do most of their business by awarding morey in response to competitive grant applications.

## F.. Chairman's Crants

Miss Brady reported on the Chairman's Grants awarded between April 17 through July 13, 1976.

G:. Apolication Report
Mr. Tashdinian discussed the final report of applications submitted to the Endowment during Fiscal Year 1976.
H. Gifts and Matching Report

Mr. Tashdinian discussed the table on gifts to NEH revised 8/10/76, which was handed out at the meeting, and two other tables furnished in the original agenda book. At the time of the Council meeting there was almost one and a half million dollars of matching authority available through the end of the transition quarter, September 30, 1976.

## I. Revort - American Issues Forum

The Endowment's major Bicentennial effort, the American Issues Forum, was completed in May. It was a one-time program with modest expectations. A Calendar of monthly and reekly topics was developed for discussion during the nine months from Septemm ber, l975 to May, 1976. It evolved into a diffuse nationwide, experimental program. The total effort cost $\$ 13,400,000$ of which $\$ 7,000,000$ was given by the Endowment. Thus it was the largest single program effort (outside of the State-based program) of the Indowment.

Staff have completed a field study with 200 field interviews to determine what happened, why it happened, and what might have happened, but did not. It is hoped also to develop useful models and alternatives as guides for the future business of the Endowment.

The study, although not yet fully analyzed, permits some tentative observa亡ions:

Calencar of Todics - The lateness of the Calendar diminished its usefuiness, but it was valuable as a framework. Too ambitious and complex, the built-in flexibility did, however, lead most project directors to adapt the issues to their concerms.

Promotion - The Endowment tried a number of different methods of promotion including direct mailing and a national Ad Council campaign. This eclectic approach, though useful to learn from, was perceived by the public as a somewhat uncoordinated effort. The real success of the Form locally came when someone in a state or community identified with the Forum, wanted it to work, and was willing to do the job.

Participation - Organizations became involved because they wanted to participate in a national program; because they welcomed an intellectual counter-balance to an overly commercialized celebration; or out of self interest to reach new constituencies or contribute their perspeciives.

National Organizaiions - Timing was a problem as many had already formulated their Bicentennial plans. Some national organizations are more useful than others in such national humanities programs.

Private Sector - Private support was a major disappointment in this program. Some reasons include: a plethora of Bictennial proposals; the economy; the potential controversial nature of issues discussions; and the need for a more organized, directed approach by the Endowment.

Media - Commercial television was a major disappointment. Timing was a factor: all three commercial networks had their Bicentennial plans in the works two years before the Endowment brought the Forum to their attention. The Course by Newspaper was the most effective media program. National Public Radio's project was reasonably successful, although a radio program which lasted three hours was too long.

State Humanities Conmittees - Forty-one state programs had at least one funded Forum program. In some sivates important projects were funded and promoted the Forum statewide -- not without difficulties which the study is attempting to document.

Urban Humanities Programs - Preliminary results show public humanities programs in complex urban areas need time, clarity and definition, staff effort, people committed to the humanities, and a mechanism to keep such programs above partisan politics and social action.

Community Proiects - 875 took place ( 687 were not funded by the Endowment). These were the mosi heartening aspect of the Forum. Case studies are being developed to determine why they happened, whether the project concerned "humanities activities," effective formats, unusual audiences, most attrattive locations, useful promotional techniques, and models for public humanities programs.

In summary, the field study indicates:
(1) at least one and a half years lead time is necessary;
(2) program content should be more focused and in a shorter time span; (3) national television is critical; (4) there should be more selectivity in soliciting national organizations; (5) "down-the-line" coordination is essential;
(6) private sector support is essential; (7) promotion and coordination should be more systematic and coherent; and (8) it should be an agency-wide commitment -- if it is worth doing, then it is worth doing with the full range of program resources.

## J. Selected Proiect Evaluation

There was no discussion of this matter.

## K. Dates of Future Council Meetings

The Council recommended the following meeting dates in 1977:
February 24-25, 1977
May 12-13, 1977
August 18-19, 1977
November 3-4, 1977 (The Chairman suggested that this meeting might take place in New Orleans and be the only out-of-Washington meeting in 1977.)

The next meeting of the Council will take place November 4-5, 1976.

## CONFLICTS OF TNTEREST RESOLUTION

(No Agenda Item)
The following resolution which is similar to a resolution adopted at the first meeting of the Council in March 1966 and readopted several times therearter and which is identical with the resolution adopted in 1974 was presented to the Council for its consideration:
"The National Foundation on the Arts and the Humanities Act of 1965 provides in Section $8(\mathrm{~b})$ that the National Council on the Fumanities shall, in addition to the Chairman, be composed of members 'selected on the basis of distinguished service and scholarship or creativity and in a manner which will provide a comprehensive representation of the views of scholars and professional practitioners in the humanities and of the public throughout the United States.

The interests of the humanities require a maximum contribution from the leaders in each field. Therefore Council members should not disqualify themselves from participation in projects supported by the National Endowment for the Humanities merely because of Council membership.

However, Council members should be alert to avoid any action which could possibly be interpreted as a use of Council membership to further their own interests or those of an institution with which they are affiliated.

The application of these two basic principles may be illustrated as follows:
(1) A Council Member should not submit an application for the Findowment's funds on behalf of himself or an institution which employs him, or with which he is affiliated. A Council Member should not be designated in an application as a principal investigator, nor as serving in a similar role.
(2) A Council Member may take part in projects undertaken with support from the Endowment but should not personally receive any remuneration out of Endowment funds for his services to a project.
(3) If a Council Member is a participant in any way, a proposal should clearly indicate the nature of his participation in the project, but (as noted above) a person other than the Council Member should be in charge of the humanities aspects of the project and should be designated as the principal investigator or as having a similar role.
(4) A Council Member should not participate in any way in support of an application for the Endowment's funds on behalf of an institution which employs him or with which he is affiliated, or in support of an application for a project in which he will participate. All negotiations in support of such applications should be carried on by persons who are not Council Members.
(5) A Council Member should leave the room if any discussion arises regarding a project in which that Member has a conflict of interest or the appearance of a conflict of interest. If no discussion ensues and the motion or discussion of a given project is pro forma, that Member may remain in the room.

The considerations and procedures set forth above also govern, where applicable, relations between the Council and former Council Members for one year following termination of their services on the Council."

On a motion duly made and seconded, the resolution was unanimously adopted.

Mr. Hook and Mrs. Gray, in response to an inquiry from Nr. Nisbet said that they had an unwritten rule not to write recommendations in support of particular applications submitted to the Endowment. It is their opinion that Council members, however, are always free to make comments directly to various committees and to answer questions directed to them about applications on which they are knowledgeable. The Chairman stated that the Council appeared to be agreed on this practice.

## L. Ratification of Actions of LOth Meeting

The Ceneral Counsel then asked the Council to reconsider ali matters passed upon at the 40 th Meeting and set forth in the minutes which had already been approved as correct. No quorum was present at the 4Oth "Meeting" of the Council and in such cases it can be useful in legal matters to have the actions ratified at a subsequent meeting at which a quorum of the members is present. The Council then on motion duly made and seconded ratified and adopted as its own all resolutions passed at the 40 th meeting.

COMMITTEE BUDGET REPORTS
(Agenda Item VII. (Continued))

Each committee reported to the Council the result of its discussions of the budget to be submitted to the Office of Management and Budget in September and each committee reported any recommendations it had. These recommendations must not be publicly disclosed until the President presents the total Federal budget to Congress next January. At the close of the discussion Mrs. Ahmanson mentioned that the Endowment could use more funds for the humanities and could do much good with such funds. The Chairman asked that this be included in the minutes.

COMMITTEE REPORTS AND COUNCIL ACTION ON APPLICATIONS
(Agenda Item IX.)

## A. Fellowships Program

Action on ADolications - Centers for Advanced Study
Applications Recommended for Approval
The Council recommended that the applications listed on page 41: 35 of Appendix B be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

Application Recommended for Disaporoval
The Council recommended for disapproval the application listed on page 41:35 of Appendix B.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-26305$ | Mrs. Gray |
| :--- | :--- |
| $\mathrm{H}-26589$ | Mr. Hook |

Action on Apolications - Fellowshios in Residence for College Teachers

The Council recommended approval of the applications listed on pages 4l:36-38 of Appendix $C$ for grants or contracts from definite appropriations.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-26643$ | Mr. Nisbet |
| :--- | :--- |
| $\mathrm{H}-26708$ | Mr. Nisbet |
| $\mathrm{H}-26766$ | Mrs. Gray |

## Action on ADDlications - Fellowshios for the Professions

Apolications Recommended for Aporoval
The Council recommended approval of the applications listed on page 4l:39 of Appendix D for grants or contracts from definite appropriations.

## Apolication Recommended for Disapproval

The Council recomended for disapproval the application listed on page 41:39 of Appendix D.

The Council members named below took no part in the discussion or vote on the following applications:

H-26761 Mrs. Ahmanson, Mr. Madsen
H-26770 Mr. Hook, Mr. Iyman

## Action on Apolicatiors - Summer Seminars for 1977 and 1978

The Council recommended approval of the applications listed on pages 41:40-44 of Appendix E for grants or contracts from derinite appropriations.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-26775$ | Mrs. Gray |
| :--- | :--- |
| $\mathrm{H}-26776$ | Mrs. Gray |
| $\mathrm{H}-26781$ | Mr. Hook, Mr. Iyman |
| $\mathrm{H}-26784$ | Dr. Berman |
| $\mathrm{H}-26790$ | Mr. Hollander |
| $\mathrm{H}-26795$ | Mr. Hook |
| $\mathrm{H}-26797$ | Mr. Franklin |
| $\mathrm{H}-26800$ | Mr. Hook |
| $\mathrm{H}-26810$ | Mr. Hollander |

| H-26813 | Mr. Vandiver |
| :--- | :--- |
| H-26816 | Mrs. Gray |
| H-26820 | Mr. Hook |
| H-26836 | Mrs. Ahmanson, Mr. Madsen |
| H-26838 | Mr. Franklin |
| H-26929 | Mr. Hart |
| H-26931 | Mr. Hollander |

Mr. Nisbet asked if all the applications for Summer Seminar grants were unsolicited or does the Endowment encourage certain people to apply for such grants. Mr. Hook replied that normally the Endowment tries to distribute information on the program as widely as possible and that panels then evaluate the applications which result. But occasionally a director will be asked to give another seminar after he has given a successful one. Mr. Nisbet suggested that it might be good for the Fellowships Division to take the initiative in encouraging people who have never given such seminars but might be good at it. Mr. Blessing said that the staff would appreciate Council members bringing to the staff's attention good candidates who could be invited to apply to become directors of Sumner Seminars.

Independent Fellowshios - Mr. Hook replied to a recommendation from the Research committee that the Independent Fellowships Program should be expanded. He feels that no one who is first rate should be rejected and knows of no candidate who was first rate who has been rejected except for a few who submitted inferior programs of study. Panelists evaluate applicants on a scale of $A$ to D. The Endowment tries to fund all applications which seem by panel consensus to merit an A rating.

Mr. Hook feels that awards should be made only on the basis of excellence. It is true that suppori is given to scientists by the Governinent on a wider basis, but scientists work in teams and secondrate ones are important. That is not true in humanistic disciplines such as history, for example. Mr. Hook would question expansion of the number of Independent Fellowshio awards, but suggested that any member who knew of an excellent candidate who failed to achieve an award bring the matter specifically to his attention.

Mr. Madsen asked if an award to a second-rater might not make him a first-rater.

Mr. Hook suggested that this might be true of graduate students but thai most applicants for these fellowships are quite mature. He stated that he did not know of any applicant who became smarter after age 40 because the Endowment gave him money.

Mr. Madsen stated that he believed that it is possible to bring those who haven't yet arrived along. He thinks that there may be a basic oolicy division among the Council members on this matter and that the Endowment policy to date has perhaps been too elitist.

Mr. Hook felt that one must be elitist in affairs of the mind, but not in politics.

Mr. Nisbet said that he was sympathetic to Mr. Madsen's position, but that it might make Endowment fellowships unattractive to firstrate minds if they were given to second-rate minds.

Mr. Hollander said that he felt two issues were presented in this discussion. He didn't believe Mr. Madsen wanted the Endowment to make bad grants but thought he was concerned about promising scholars who have not yet produced much. The Endowment should perhaps take a risk sometimes in awarding Independent Fellowships.

The Chairman pointed out that a majority of the funds of the Fellowships Division -- funds for Residential Fellowships, Summer Stipends, and Seminars -- help scholars who would not be likely to Obtain Independent Fellowships.

Mrs. Gray stated that, however the Fellowships Division plans its programs, Independent Fellowships should be the basic program of the Division. We must look at the definition of excellence. It does not seem that the Fellowships Division has been overly rigid in its definition of excellence.

Mrs. Gray has been surprised that elimination of the Younger Humanist Program did not result in a great increase in applications for Independent Fellowships. She questions whether there is not a different population which applies for Independent Fellowships. It appears that fewer people under forty apply for Independent Fellowships than was the case when there was a program for younger scholars. She suggested that the Endownent might profitably consider two courses of action:
a) Encouraging young scholars who fear that younger people cannot fulfill the qualifications for Independent Fellowships to apply for such fellowships so that they can find out if they are indeed qualified, and
b) Creating a willingness within the Endowment, should the number of applications for Independent Fellowships increase, to shift sufficient funds to this program to permit support of all excellent applicatinns.

Mr. Hook indicated the way in which Council judgment is currently applied. A panel of historians recommended rejection of an application on the ground that a book on which the applicant was working was unduly journalistic in quality. The Council did not follow the panel's recommendation, and the Chairman awarded the fellowship. Before the year was out, the fellow had been admitted to the American Academy of Arts and Sciences, an organization to which no member of the panel belonged.
B. Office of Planning and Analysis

Computerization of Endowment records - Nr. Tashdinian informed the Council that computerization of Endowment grant records is in sight. At the November meeting examples will be given of the kinds of information which this will make availaiole.

Action on General Proiect Applications
Apolications Recommended for Aporoval
The Council recommended that the applications listed on page 41:45 of Appendix $\bar{F}$ be approved for grants or contracts from definite appropriations.

## Apolication Recommended for Disaboroval

The Council recommended for disapproval the application listed on page 41:46 of Appendix $G$.

## Action on Youtherant Applications

Applications Recommended for Aporoval
The Council recommended that the applications listed on pages 41:47-51 of Appendix $H$ be approved for grants or contracts from definite appropriations.

## ADOLications Recommended for Disaboroval

The Council recomended for disapproval the applications listed on pages 41:52-54 of Appendix I.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-25913$ | Mrs. Ahmanson, Mr. Madsen |
| :--- | :--- |
| $\mathrm{H}-25960$ | Mr. Nisbet |

## C. Division of Research Grants

Action on Apolications

## Aoolications Recommended for Aporoval

The Council recommended that the applications listed on pages 41:55-66 of Appendix $J$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Aoolications Recommended for Disaprroval and Deferral

The Council recommended for disapproval and deferral those applications listed on pages 41:67-69 of Appendix K.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-23731$ | Mr. Nisbet |
| :--- | :--- |
| $\mathrm{H}-24827$ | Mr. Hook, Mr. Lyman |
| $\mathrm{H}-25135$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-25540$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-25547$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-25555$ | Mr. Hollander |
| $\mathrm{H}-25585$ | Mr. Hook |
| $\mathrm{H}-25687$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-25746$ | Mr. Franklin |
| $\mathrm{H}-25888$ | Mrs. Ahmanson, Mr. Madsen |

There was discussion of application $\mathrm{F}-26916$, Alderson, William T., American Association for State and Local History "Books: U.S. Jurisdictions Outside the States", \$82,442 in outright funding, page 41:55. This is a new proposal to compliment the Bicentennial State Histories. There will be two volumes on Puerto Rico -- one in Spanish and one in English. Covernor Ferre' expressed satisfaction that Puerto Rico will now be covered by a history in this series as the fifty States were.

There was also discussion of application H-26672 on page 41:58 for the support of national services of the research libraries of the New Yor? Public Library, a $\$ 3,000,000$ challenge grant to be matched by $\$ 6,000,000$ of gifts. This application is not for institutional support but for such things as guides and catalogues. Discussion of this application led to a consensus that the New York Public Library is a special institution, a national institution. This grant will not be a precedent for other libraries because of this library's unique character. Mrs. Gray asked about the current situation of the New York Public Library and Miss Reagor reported that they had a deficit of $\$ 2,000,000$ per year which was taken out of general Endowment capital. Mrs. Child reported that the amount of money available to the Library for acquisitions is constant so that the volume of purchases this year is less than previous years. This grant will be for the national services of the Library. Miss Reagor reported that about fifteen percent of the services provided by the New Yory Public Library go outside the State and this grant would support about two-thirds of the cost of these out-of-State services. Nrs. Rockefeller asked if there had been any discussion of raising funds outside New York City. Mrs. Child reported that there had been. Sixty percent of the mail requests to the Library are from outside the State. It is felt that the Library should send back requests for funds with answers to these requests. Miss Reagor said that it will be a requirement of this challenge grant that these gints be new money. She reported that since 1972 when the Encowment first began to support the Library no other Library has come in to say that they deserve support because they are similar to the New York Public Library. Nrs. Rockefeller stated that she thought this was a marvelous grant. There has been a great deal of worry among New Yorkers about the financing of the Library.

## Support of State Agencies

Mr. Franklin questioned the recommendation on page 41:63 by the Research Committee for funding application H-24894 for "Revision and Updating of 'Guide to Private Manuscript Collection in the North Carolina State Archives'". Since this is an on-going State program, generously funded, he asked why they came to the Endowment. Miss Reagor said that this application was recommended for funding even though it does not comply with two policies generally applied by the Division of Research Grants -- policies against the support of revisions of existing work and against suppori of State programs. Mrs. Child informed the Council that the North Carolina Archives have had a number of difficulties recentiy: the State has frozen their level of funding. and they have suffered a series of thefts oecause they do not have sufficient control over their older collections. Mr. Franklin pointed out that some States have never prepared guides to their archival collections and that a grant based on this application might serve as a precedent to encourage such States to apply for Endowment support. Miss Reagor stated that the Division was currently considering just such an application irom Nevada.

The Chairman stated that this was a policy matter which must be considered and that he felt that a comprehensive policy was needed, covering support of applications from State govermment units.

Staff - Mr. Hart Dointed out that apolications suimitited to the Eesearch Crants Division tend now to be longer range and more complicated than they used to be. Also there are increasing demands for assistance to grantees by NEi staiff members. The commitiee felt that serious attention must be given to siaffing problems in the Division.

Percentage of Fellowsinio Apolications Suooorted - Mr. Hart said he would Iike to emphasize that the Research committee agreed that the ratio of successful fellowshio apolications to the total number of applications (one to nine) is a low ratio. He kows personally of specific apolications which were rejected for lack of funce, and he is aware that good bocks mhich mould have been published if support had been availebie were never writien or published.

Simone Reagor - ir. Hari said that for himself, the staff and for memoers of the Council working mith and kowing Simone Reagor this is an unhapy occasion because it is the lasi Council meeting at which she will be oresent as Director of the Division of Research Grants. She is one of tine finest humar beings he has know. She is planning to do writing on her own and he is sure that we will be hearing about that. Vr. Cannon added that ifiss Reagor is regarded With affection and respect by the staff. He was grateful to her For her kindness and indoctrination during the changeover in the directorship of the Division. Supplying the void created by her absence will not ce an easy task.
D. Division of Education Frogrems

Mr. Hollander echoed the regreis expressed by Nr. Hant at Simone's departure. The Education comitiee regrets that they will no longer have Earold Camon to kick them eround. It has always been a pieasure morking with him. The Eaucation comittee is fortunete in having Mrs. Davies and Mr. Rushing as members. Ne particularly manted to call the Council's aitention io an excellent evaluation report prepared by John Mason and Ariene Krimgola's offeice on a grant to the University of California, inving, for the Ancient Greex Medical

Writers Segment of the Thesaums Linguae Graecae. The new members of the Education committee will receive a complete file of the earlier evaluations prepared by Arlene Kringold and her office. Nr. Hollander invited all new members and continuing members of the Council to give their advice on projects which they see in their agenda books from the Division of Education Programs. Mr. Ascher would be oleased to receive any such comments. Mir. Hook gave a similar invitation to all new and continuing members to give their advice on projects in the Fellowshios Division.

## Action on ADolications - - National Board of Consultants -Institutes -- Proiects -- Program -- Pilot

Apolications Recommended for Aporoval
The Council recommended that the apolications listed on pages 41:70-75 of Appendix L be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairmar, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

ADolications Recommended for Disaooroval and Deferral
The Council recommended for disapproval and deferral those applications listed on pages 41:76-81 of Appendix M.

The Council members named below took no part in the discussion or vote on the following applications:

| EH-23319-75-703 | Mrs. Ahmanson, Mr. Madsen |
| :--- | :--- |
| $\mathrm{H}-25549$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-25638$ | Mr. Nisbet |
| $\mathrm{H}-25641$ | Mr. Hook |
| $\mathrm{H}-25713$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-25729$ | Mr. Hook, Mr. Lyman |
| $\mathrm{H}-26617$ | Mrs. Ahmanson, Mr. Madsen |
| $\mathrm{H}-26741$ | Mr. Vandiver |

## 玉. Division of Public Programs

Mr. Madsen reported that the committee lamented the loss of Simone Reagor, an indispensible woman who built bridges, not walls with the Fublic Division. Mr. Iyman and Mrs. Rockefeller have proven tremendousiy helpfui on the Public committee.

## Action on ADolications

## Apolications Recommended for Approval

The Council recommended that the applications listed on pages 41:82-89 of Appendix $N$ with conditions specified on pages 4I: 90-94 be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Apolications Recommended for Disaporoval

The Council recommended for disapproval those applications listed on pages 41:95-98 of Appendix 0.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-26118$ | Mrs. Gray |
| :--- | :--- |
| $\mathrm{H}-26120$ | Mr. Madsen |
| $\mathrm{H}-26163$ | Mrs. Ahmanson |
| $\mathrm{H}-26428$ | Mrs. Rockefeller |

Association of State-Based Humanities Comittees - Mr. Madsen informed the Council that the State-Based Committee Chairmen at their meeting had approved in principle a national association which was designed to improve communications among the State committees and to enable them to exchange news items of interest in more than one State. Discussion of the advisability of such a national association had been extended, and after misgivings had been expressed and assuaged, the State-Based Comittee Chairmen had approved the concept by a vote of 44-3 and selected a planning committee to report back to them in January.

Mrs. Ahmanson suggested that each Council member get acquainted with the State-Based Committee in his State and attend the meetings of the Committee if possible.

The meeting adjourned at $3: 30$.

The Council recommended that the following conditions apply to approved individual applications
as follows:
II-26194 (California Council on the Humanities in Public Policy).

H-26069 (Iowa Board for Public Programs in the llumanities)
that the Iowa Board submit within 90 days of receipt of this award a comprehensive plan

$$
\begin{aligned}
& \text { a) that the Council reach and maintain a level of at least } 20 \text { members by January } 1,1977 \text {; } \\
& \text { b) that the National Council acknowledges and compliments the careful planning undertaken } \\
& \text { by the California Council in creating four proposed program categories, but requests that } \\
& \text { the Californfa Council revise the first of these categories to assure that projects funded } \\
& \text { under it meet fully all guidelines of the State-Based Program and report to the Endowment } \\
& \text { on the revision within } 90 \text { days of recefpt of this award; and that the Council provide the } \\
& \text { Endowent at the same time with projected percentages of program funds to be awarded in } \\
& \text { each of the four categories; c) that the California Council submit, within } 120 \text { days of } \\
& \text { receipt of this award, a comprehensive plan to generate proposals from small towns and rural } \\
& \text { communities throughout the state. }
\end{aligned}
$$ for evaluation of program procedures and substance.

a) that the Kentucky Council include in its membership two institutional administrators, on the presidential or vice presidential level, from the state's major universities; b) that the Kentucky Council, within 90 days after receiving this award, submit a detailed plan, citing particular objectives, for attracting a larger number of scholars from the traditional humanities disciplines into its program activities.

## H-26063 <br> (The Kentucky Ilumanities Council, Inc.)

(Louisiana Committee for the Humanitics)

> a) that the Public Committee for the Humanities in Pennsylvania bring its membership
> into balance and that it give special consideration to minority representation on
> the Committec; b) that the Committee submit, within 90 days, a more detailed evaluation plan with special attention to ensuring that the humanities are central to every funded project.
H-26072 (Tennessee Committee for the llumanities)
that the Committee submit within 90 days of the receipt of this award a plan to increase
the representation of traditional humanities disciplines in funded projects.

## H-26070 (Wisconsin Ilumanities Committec)

that the Committee submit a report by March 31 , 1977 describing the success of its
current plans to increase the number of proposals from non-academic groups and organizations.
SO-24618-76-393 (New Hampshire Council for the Humanities)
H-26070 (Wisconsin llumanities Committec)
that the Committee submit a report by March 31,1977 describing the success of its
current plans to increase the number of proposals from non-academic groups and organiza-
tions.
H-26070 (Wisconsin llumanities Committec)
that the Committee submit a report by March 31,1977 describing the success of its
current plans to increase the number of proposals from non-academic groups and organiza-
tions.
that the New Hampshirc Council evaluate carefully its program development activity and provide the Endowmont staff with a detailed explanation of the resulta of these program development efforts by January 1, 1977.

S0-23713-76-15 (Maryland Committee for the llumanities and Public Policy)
that release of the $\$ 100,000$ to supplement program funds will occur upon documentation by the Maryland Committee that it has brought its membership into balance; the Conmittee is asked to consider particularly the addition of scholars from the humanities faculty of the University of Maryland, College Park.
that the Washington Comnission bxing its membership into balance within 90 days of the receipt of this supplemental award.
So-24373-76-93 (Washington Commission for the llumanities, Inc.)
H-26557 (Seattle Project Task Force of the Washington Humanities Commission)
that (a) a revised budget based on the one year grant period and detailing
program-related expenses is to be submitted for Endowment approval; and (b)
that no funds are to be expended on demonstration or media activities without
Endowment approval.
H-26162 (Ilistoric Seattle preservation and Development nuthority)
that a maritime historian be involved in developing the plan for the inter-
pretive use of the ferry.
H-26161 (Kamiakin Research Institute)
that the consultant scholars be specifically identified and that their vitae
be forwarded to the Endowment prior to release of grant funds.

Thursday, November 4, 1976
COMMITTEE MEETINGS
(Agenda Item I.)
Separate meetings were held by the Committee on Education Programs, the Committee on Fellowships Programs, the Committee on Planning, the Committee on Public Programs and the Committee on Research Crants.

## 1978 JEFFERSON IECTURE - DISCUSSTON OF NOMINEES

(Agenda Item II.)
The Chairman was pleased to place on the record the fact that the 1977 Jefferson Lecturer, Saul Bellow, had been awarded the Nobel Prize for literature. The public announcement of his Jefferson lectureship was to be made during the month of November in Chicago.

He was also pleased to announce that Mrs. Rockefeller's son, John D. Rockefeller IV, had been elected Governor of the State of West Virginia on November 2nd.

Mr. Tashdinian then reviewed the procedures which the Council has used in selecting candidates for the Jefferson Lecturer from among the candidates nominated. Any member who was present at the Thursday meeting of the Council but expected to be absent on Friday was invited to leave an absentee ballot with the Secretary. The nominees were presented in three lists. The first list contained the names of the ten principal candidates which the staff believed to be the strongest. The second list contained about forty names of persons who are considered suitable although less strong. Extensive information on the names of all persons in list one and list two were available to Council members in the Office of Planning and Analysis. The remaining nominees were placed on list three.

Certain names were, by motion of the Council, taken from one of the other lists and placed in group one. Nominations were then closed.
After the Council considered and discussed which names to move from groups two and ihree to group one, Mr. Tashdinian remarked that the staff was always anxious to hear from members on ways to improve the information provided to the Council to aid their selection of the lecturer. Mr. Hart said that the list seemed capricious to him. He asked why Solzhenitsyn is on list number three. Mr. Hook suggested that it probably was because he lectures in Russian. Mr. Tashdinian stated that last year Council members were specifically asked to identify those persons on the group three list for whom research should be done this year; only one or two nominees were so identified, and Solzhenitsyn was not among them. The staff will do full research for next year on any name in group three at the request of a member of the Council.

Mr. Tashdinian explained that the nominations are made by a large group of individuals and organizations and stated that suggestions from Council members for new nominators would be welcomed. In response to a question as to whether it would be desirable to have the Solzhenitsyn name researched, the Council agreed that this would be desirable.

Mrs. Gray suggested that there might be a committee of the Council formed to examine the list. She felt that it would be helpful to have this sort of examination and the discussion of the list that such a committee could provide. Mr. Tashdinian stated that this idea was discussed last year and not adopted after staff study and consultation with the recently retiring Council members, since all the members should be discussing the candidates in the full Council meeting. Mr. Solow agreed with his statement. Mrs. Ahmanson suggested that either the full Council or a committee formed as Mrs. Gray suggested might profitably discuss the question of the nationality of the Jefferson Lecturer, that is, are foreigners eligible and can the lecture be given in a language other than English.

Mr. Varner thought that there was merit in Mrs. Gray's idea and that a committee of three or five members could talk with the staff and help the Council. The Chairman felt that the Council tends to accept committee recommendations and that this cuts down discussion. This would be highly undesirable for the Jefferson Lecture as it is the responsibility of the Council as a whole.

Mr. Lyman stated that he thought that there had been discussion of the staff's list in this Council meeting and that in fact the Council had added five names to group one. He sensed, though, that there was much dissatisfaction with the placing of Solzhenitsyn in group three. Mr. Solow opposed the idea of having a Council committee to make up the three groupings but felt that perhaps the staff should make a list and group the names and then present the list to a committee of the Council members. This idea would not be workable at this meeting but perhaps would be helpful next year. Both Mr. Lyman and Mrs. Gray agreed with Mr. Solow's suggestion.

Mr. Tashdinian said that he would like to send Council members the results of the staff study resulting from last year's discussion on this point.

Mr. Vandiver sensed creeping dissatisfaction with the process of selecting the Jefferson Lecturer. Perhaps it would be desirable to have a committee but the committee perhaps first should consider the whole process of selection before going into selection of the candidates for a particular year. He stated that he did not like the current process but did not quite know why. He suggested that a mixed committee composed of staff members and members of the Council is needed and he said that he would volunteer to serve on this committee.

Before any final action is taken, Mr. Tashdinian will send out a paper summarizing consideration of this matter earlier this year and eliciting Council members' ideas.

At 3:00 the plenary session of the Council adjoumed and the committee meetings reconvened.

Friday, November 5, 1976

## MINUTES OF PREVIOUS MEETING

(Agenda Item III.)
The Council approved the minutes of the forty-first meeting held on August 11-13, 1976.

## REPORTS

(Agenda Item IV.)

## A. New Staff Fositions

The Chairman announced that Richard Ekman would be serving as Deputy Director, Division of Education Programs, and William Russell will be serving as Assistant Director for Elementary and Secondary Education.

## Summary of Recent Business

There has been much interest in the Humanities Institutes Program. Applications in the fields of foreign languages and of writing are particularly welcome. The Museum and Historical Organizations Program of Public Programs Division is sponsoring a number of exhibitions:
"Looking at Films" at the Museum of Modern Art, New York City
"Daniel Chester French" at the Metropolitan Museum of Art, New York City, later to be shown in Detroit, Boston and Washington, D.C.
"Sacred Circles", an exhibition of American Indian Antiquities, will be shown at the Nelson Gallery in Kansas City in the spring with Endowment support. It is currently on exhibition in Iondon with support from other sources.

An exhibition by the Chicago Historical Society is to be held in that city with Endowment support.
"The Treasures of Tutankhamun" is opening at the National Gallery in Washington with Endowment support. After Washington it will be exhibited in the following cities:

> Chicago
> New Orleans
> Los Angeles
> Seattle
> New York City

One of the Chairman's grants reported on at this meeting was to Professor Freedman at the University of Michigan to support American lectures and conferences on determining the nature of the discoveries at Ebla. The discoveries at Tell Mardikh, Syria appear to be as important as the Dead Sea Scrolls and are expected to bring to light much information on life at the time of Abraham and the patriarchs This Chairman's grant is expected to bring to the Endowment a number of proposals from scholars for the development and exploitation of this material.

The Fellowships Division displayed a number of books published with support from Endowment Fellowships, a list of which is attached to these minutes as Appendix 0 .

The Division also presented recordings of l8th-Century Italian Operas made by students at a summer seminar at the University of Virginia. Large numbers of scholars are attending summer seminars and this field of Endowment support appears to be filling an important need.

One and a half years ago the Office of Planning and Analysis, through the Science-Values program, made a grant to Case Westerr Reserve University for a project on Aging and the roll of the aged in our society. As a result of grant activities the American Gerontological Society has now established a committee on the humanities. The humanities are also now included as one of the disciplines eligible for support by the National Institute on Aging. The Chairman said that he was planning a talk on "Death with Dignity" to the Society for Health and Human Values in San Francisco in the week following the Council meeting.

## B. Chairman's Grants

Miss Brady reported on the Chairman's grants awarded between July 14, 1976 through October l, 1976.

## A. Introduction of New Staff (Cont'd)

The following new staff members were introduced:
David Benseler, Program Officer, Division of Research Grants Cordelia Candelaria, Program Officer, Division of Research Grants
Constance Clement, Program Specialist, Public Programs Division Harold Moss, Program Officer, Education Division Joseph Neville, Program Specialist, Fellowships Division Gerald Tyson, Program Specialist, Research Grants Division Jim Vore, Program Officer, Public Programs Division Dorothy Wartenberg, Program Specialist, Fellowships Division
C. Application Report

Mr . Tashdinian discussed the report of applications submitted to the Endowment during the transition quarter (July l-September 30, 1976).
D. Summary of Awards for Fiscal Year 1976

Mr. Tashdinian presented the paper "Summary of Grants and Awards: Fiscal Year 1976".

## E. Gifts and Matching Report

Mr. Tashdinian presented two reports covering Fiscal Year 1976 and the transition quarter (July l, 1975 - September 30, 1976): Summary of FY 1976 Matching Offers and Gifts -- As of September 30, 1976 and Comparison of FY 1975 and FY 1976 Matching Offers and Gifts. During this period $\$ 8,000,000$ was authorized to match gifts and almost all of it was used for this purpose. \$372,558 was returned to the Treasury.

## F. Reauthorization

Mr. Tashdinian discussed the amendments to the National Foundation on the Arts and the Humanities Act briefly described in the General Counsel's memorandum to the Council, dated November 4, 1976. He noted that consideration of the reauthorization had begun two years before at the 34 th meeting of the Council in October, 1974, when Mir. Stephen Wexler, Counsel to the Senate Special Subcommittee on Arts and Humanities, attended a Council meeting and said that the Senate hoped to start early on reauthorization for the National Foundation on the Arts and the Humanities and that no substantive change was envisioned. The final bill, which was a compromise worked out after
a number of conference meetings between representatives of the Senate and the House, was approved by President Ford on October 8 th and became law. The new Act is a very complicated piece of legislation. Mr. Tashdinian touched on four principle issues which particularly affect this Endowment: State Programs, Funding, Challenge Grants, and Museum Services Institute.

Museum Services Institute - Both the House and Senate had passed provisions to create a new agency which would provide general operating support for museums. The House wanted to put that agency into the Department of HEW; the Senate wanted it to become part of the National Foundation on the Arts and the Humanities. Although the Administration was opposed to both bills it felt that the House version would be preferable and that the agency should be placed in HEW. The conference adopted this view. The new agency will be headed by a director, pursuant to policies established by a governing board. The two Endowment Chairmen will serve ex officio as nonvoting members of the board as will several other agency heads from Washington.

Challenge Grants - The House of Representatives' bill authorized each Endowment to operate a Challenge Grant program which would provide general operating support for cultural institutions. The provision called for the Federal government to match gifts in support of any activity which these institutions may wish to undertake on a basis of one Federal dollar for each three private dollars raised. The Senate version created that kind of authority for the National Endowment for the Arts but authorized the Humanities Endowment to support in the form of Challenge Grants only so called Bicentennial projects, that is projects which would examine American institutions. The Humanities Endowment felt that the kinds of Bicentennialrelated projects which were suggested in the Senate version were important but, based on actual experience through the American Issues Forum, enough private gifts would not be forthcoming to support them through Challenge Grants. At the same time the need of humanities institutions for general operating support could be at least partially met by Challenge Grants as our New York Public Library grants show.

The final conference version was to adopt the House language so that the Act does provide for separate and equal Challenge Grant programs for each Endowment but the Humanities Endowment has a little extra authority which the Arts Endowment does not have. Our Chairman has authority to relax part of the matching requirements on the Bicentennial-related projects.

Funding - The House version had generally respected the Administration's proposal and maintained parity of funding between the two Endowments in all of the bill's provisions. The Senate version authorized greater funding for the Arts Endowment in each of its provisions. The House view was eventually adopted in conference and there is to be equal funding authorized for the two Endowments for the next few years. However both the House and Senate conference participants have stated that they plan to investigate this matter during the next four years, so that we may expect hearings in 1977 or 78 which will look specifically to the matter of funding and the question of parity.

State Humanities Programs - The House version of the legislation, apparently reflecting the arguments advanced in the briefing paper which this Council sent to the Congress about a year and a half ago, wanted to continue the voluntary state committee approach, but to provide some liaison and perhaps coordinate with other state agencies, the House had provided that the governor of each state would provide two members to each committee. The Senate version would have set up official state agencies in most cases. The Administration endorsed the House position very strongly. In one of the later conference meetings the House party proposed a compromise which was adopted as the final version: a state has two practical choices (l) its governor may appoint two members of the State-based Committee or (2) if a state appropriates money to match the Federal money, then the governor of that state may appoint half, but no more than half, of the members of the committee. We were gratified that the clear intention of the Act is to maintain the State-based groups wherever possible but to offer states the possibility of supporting and contributing to state groups and of participating in their leadership on a fifty-fifty basis.

During the debates there was never any indication or suggestion that either the House or the Senate felt that the Humanities should have a low priority in national life, that they were unimportant, or that there was anything seriously wrong with the basic structure of the Endowment. The whole debate really seemed to be over whether the Endowment was making rapid enough progress in reaching the public, and both Houses of Congress seemed to hold the strong view that the Humanities must be extended beyond the academic and scholarly world and that the public must be involved to a greater extent, particularly those sectors of the population which are not normally involved in the humanities. It seems quite clear that both our friends in the Congress and those whose positions perhaps appeared to be not so friendly are going to be exercising greater survelliance over this agency and its programming and continually encouraging us to try to make the humanities a greater force in the national life.

In response to an inquiry from Mrs. Ahmanson, Mr. Tashdinian stated that the State-based Committees are independent groups and it is expected that those groups will elect their own Chairman as is the present practice. Nr. Vandiver asked if it was the clear intent of the legislation to continue the existing State-based Committees. Mr. Tashdinian answered by quoting Representative Quie:
"First and foremost we retained the concept of parity between the two endowments and second, we kept the basic existing structure of State Humanities Councils."

Mr. Barcroft said that he felt that the more quickly the existing State Committees can move into basic compliance with the provisions of this legislation, the less likely it is that any of them will have a situation in which the confusion in their state is such that their operations will be hampered.

Mrs. Ahmanson asked what will happen in those states which have an integrated arts and humanities program. Mr. Tashdinian replied that the law makes arts and humanities committees eligible for our funding only if they comply with the membership provisions of the new law. Mr. Barcroft said that this provision would make the fourteen arts and humanities councils presently in existence ineligible for support by this Endowment unless new legislation complying with the recent amendments was enacted in each state. State-based Humanities Committees presently existing in each of these fourteen states can comply with the new amendments to the Federal statutes without any change in existing state statutes.

Mrs. de Kleven asked how the creation of the Museum Services Institute would affect Endowment grants. Mr. Tashdinian stated that this would remain to be seen. The Institute would provide general operating support for all kinds of museums regardless of the specific projects. Both the Humanities Endowment and the Arts Endowment have museums programs but these are focused and categorical. The new Museum Services Institute cannot start operation until the President appoints a director and a board and requests money for funding and until such a request is approved by the Congress and monies are actually appropriated. If this happens it is quite likely that the Institute and each of the Endowments will carve out particular areas after consultation with the other agencies so that there will not be any actual duplication of support. Mr. Barcroft added that the legislation makes very clear that both the Arts Endowment and the Humanities Endowment are expected to maintain their programs of grants to museums.

In response to questions from several members of the Council the budget process during a transition year was described. The new budget for Fiscal Year 1978 will be presented to the new Congress by President Ford before President Carter takes office. Changes which President Carter may think desirable will be suggested to the Congress from time to time after his inauguration.

## G. Presentations at Council Meetings

Mr. Tashdinian discussed plans for future presentations at the Council meetings similar to the discussion of "Humanities and Bio-medicine" at the May Council meeting. He invited suggestions from members of the Council for topics for future presentations. Suggestions for presentations which might illuminate the future needs and future directions of the humanities would be most welcome.

The discussion was based on a memorandum to the Council dated October 8, 1976. Mr. Lyman questioned two previous suggestions mentioned in that memorandum: the diminution of reading and writing skills and the place of the humanities in elementary and secondary schools. He felt that the question of the role of the humanities in the elementary and secondary schools should be discussed by the Council and clarified. The Chairman agreed that such a discussion would be helpful.

## H. Fiscal Year 1978 Budget

Mr. Tashdinian discussed the Endowment's 1978 program budget request submitted to the Office of Management and Budget in September of 1976. Actually two budgets were submitted, one for the full amount authorized by the legislation and the second closer to the appropriations actually awarded to the Endowment by the Congress for the current fiscal year. This budget will include a Challenge Grant, program as legislated in the recent amendments to the National Foundation on the Arts and the Humanities Act. This Endowment has in fact been making Challenge Grants since 1972 when the first large grant to the New York Public Library was made. The new Challenge Grant authority however is somewhat different from the authority previously used -- the gift and matching authority under sections 10(a)(2) and 11(a)(2) of the NFAH Act, as it existed before its recent amendment. Every dollar of Federal funding under the Challenge Grant program will be matched by three dollars of private funding, and, although the law is open-ended, the Congressional intent appears to be for the support of such cultural institutions as libraries, museums, etc. Educational institutions as a whole are not included but specific humanities components may be aided. Our budget submission therefore emphasizes the former kinds of institutions.

Mr. Tashdinian reported that President Ford, at the time he awarded the Medal of Freedom to Martha Graham, announced support for the Challenge Grant program of the Arts Endowment and said that he would ask $\$ 12,000,000$ Challenge Grant authority for that Endowment in the 1977 budget and would recommend $\$ 18,000,000$ for 1978 and $\$ 20,000,000$ for 1979 . No decision had yet been announced in regard to the Humanities Endowment. Control of the budget will of course pass to President Carter on January 20, 1977.

Mrs. de Kleven asked whether the National Council on the Humanities ever meets with the National Council on the Arts. The two State Committees in New Mexico meet and dicuss matters of common concern. The Chairman stated that he did not know how meetings of the two Councils might be encouraged. Mrs. Rockefeller suggested that the Humanities Council might invited the Arts Council to a social occasion to repay that Council for their invitation to attend a farewell party for retiring Arts Council members. Mr. Hewitt agreed. The Chairman stated that since there was a consensus, he thought it would be a good idea to issue invitations to an appropriate event to the members of the National Council on the Arts.

## I. Selected Project Evaluation

Mr. Tashdinian said that the Public Program Committee would comment on the selected project evaluation "The European Vision of America". See agenda item X. A.

## JEFFERSON IECTURE - ELECTION OF 1978 LECTURER

(Agenda Item V.)
The present procedures require that each member vote for five candidates for a Jefferson Lecturer. Mr. Hall questioned this requirement because some members may wish to vote for only two or three of the candidates. Mr. Tashdinian pointed out that the problem is keeping the integrity of the voting system. If a number of the members voted for only one person, it would be unfair and would also leave the Endowment without alternatives if the successful candidate should be unable to serve. Mr. Hollander suggested that it would not be a good idea to change the procedure at this time but that next year members might be allowed to vote for any number from three to five. The Chairman stated that this was a good idea and asked the staff to consider it for next year's election.

Mr. Hewitt asked what the Endowment wants in a Jefferson Lecturer. Mr. Tashdinian said that the ideal lecturer would be someone who would pack the hall with members of Congress, the President, White House staff, and the Supreme Court, and who would deliver a brillant, thoughtful lerture in a manner which would be attractive to the audience. The talk should be
instructive about the humanities or one of them and should apply the humanities to the nation's problems. The ideal lecturer would be willing to go to two or three cities to deliver his lecture and would be a scholar who knows what the humanities are and who is able to apply them in his work. The Chairman discussed past lecturers and how nearly they met these desiderata. Although intelligibility to the audience is important, it would be possible for a lecturer to speak a foreign language through an interpreter. Mr. Hewi.tt stressed the importance of good delivery, and Mr. Hook, in summary, stated that we want an outstanding humanist who has vision and also has something to say to all members of the humanistic community.

The Council then voted and the results were announced by the Chairman.

## DIVISION OF FELLOWSHIPS

(Agenda Item VI.)

## B. Action on Applications -- Centers for Advanced Study

Applications Recommended for Approval
The Council recommended that the applications listed on page 42:27 of Appendix A be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed; and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

Application Recommended for Disapproval
The Council recommended for disapproval the application listed on page 42:27 of Appendix A.

H-26277 for the Radcliffe Institute was recommended for disapproval for technical and legal reasons: (1) the application is exclusively for women and (2) the Radcliffe Institute is part of Radcliffe College and so its eligibility under this program is questionable. With administrative reorganization and assuming that the exclusivity was eliminated, this application could be resubmitted. The motion to recommend the disapproval of this application was made by Mr . Hook and was carried by a vote of 15-3.

The Council member named below took no part in the discussion or vote on the following applications listed in Appendix A:

$$

C. Action on Applications -- Fellowships for Independent Study and Research 1977-78

The Council recommended approval of those applications listed on pages 42:28-37 of Appendix B for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated. All applications for Fellowships for Independent Study and Research 1977-78 were listed in Tab J of the Agenda Book. All those applications listed in Tab $J$ of the Agenda Book which were not listed in Appendix $E$ of these minutes were recommended for disapproval.

The Chaimnan stated that the Endowment has been accused in the Senate of supporting elitism and favoring certain institutions in this program thus providing an unfair distribution of Fellowships for Independent Study and Research. He said that he would like the Council's advise on the distribution of these awards and the geographic concentration.

The Chairman stated that the Endowment has been accused in the Senate of establishing unnecessarily high standards in this program, supporting elitism and an unfair distribution of Fellowships for Independent Study and Research. He said that he would like the Council's advice on the distribution of these awards and the geographic concentration.

Mr. Pulliam said that he was impressed with the staff work on these applications and commended it.

Mr. Hollander said that he felt that the operation of this program by the Division is praiseworthy. It is run fairly and has his support. Only two of the thirteen applications from Princeton received awards but he felt that this was fair in the circumstances. Mrs. Ahmanson was impressed favorably by this program as was Mr. Vandiver.

Mr. Madsen asked if Senators were specific in what they said. Mr. Tashdinian said that it was more of an implied criticism. They seemed to have a feeling that the percentages of awards to a particular class of institutions tended to prove elitism or favoritism to that class. The minutes should make clear that the Council has reviewed these applications carefully to make sure that there has been no favoritism to a particular class of institutions and to make sure that the reviews have been fair and the awards proper.

Mr. Lyman said that we are making silk purses out of silk and that is what we should be doing. Mr. Madsen stated that the distributions seemed good to him. Mr. Tashdinian said that the distribution of awards in this program is what has been criticized but he feels that it is balanced by the distribution of awards in other programs.

Mr. Hook said that he felt we could not evade this problem. The Division of Fellowships and the Division of Research Grants are the heart of the Endowment's work and i.t is clear that we support "elitism" in these programs. However if by statistical analysis one tabulates the number of faculty members in each State of the Union who are qualified in the fields of the humanities, support given by this program is not disproportionate to a particular area. The most prestigious scholars in a particular field are likely to be in the prestigious institutions. Persons in "backwater" institutions are unlikely to receive awards in this program. This program is designed for people who are like "A" scholars. The Endowment has other programs which have helped "B" scholars. Critics who speak of culture for the people do not speak of science for the people, for example. Such an approach is all right in the arts but not in the humanities or the sciences.

Mr. Tashdinian suggested that rather than a formal motion perhaps the minutes could simply indicate that the National Council on the Humanities has gone over this program, approved its procedures, and concluded that the apparent concentration of grants at certain institutions are the result of fairness and sensible procedures. Mr. Vandiver agreed.

Mr. Hook questioned the rejection of two applications in Tab J of the Agenda Book:
a) No. 175. Bradford, Melvin E. -- Faulkner's Short Fiction. Mr. Hook suggested that the Chairman ask other experts to review this in addition to the experts who reviewed it the first time. The Chairman stated that this could only be helpful. Mr. Kristol was in accord.
b) No. 833. Kunzle, David M. -- History of the Comic Strip. There was considerable discussion of this application after which Mr. Hook moved to approve it. His motion lost.

The Council members named below took no part in the discussion or vote on the following applications listed in Tab J of the Agenda Book:

## D. Action on Applications -- Professions Seminars

The Council recommended approval of those applications listed on pages 42:38-4l of Appendix $C$ for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

The Council members named below took no part in the discussion or vote on the following applications listed in Appendix C:

| $\mathrm{H}-27003$ | Mr. Hollander |
| :--- | :--- |
| $\mathrm{H}-27008$ | Dr. Berman |
| $\mathrm{H}-27025$ | Dr. Berman |

| H-27038 | Mrs. Gray |
| $\mathrm{H}-27045$ | Mr. Hook, Mr. Lyman |

## E. Action on Applications -- Summer Seminars

The Council recommended approval of those applications listed on pages 42:42-50 of Appendix D for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated. All applications for Summer Seminars were listed in Tab L of the Agenda Book. All those applications listed in Tab L of the Agenda Book which were not listed in Appendix D of these minutes were recommended for disapproval.

The Council members named below took no part in the discussion or vote on the following applications listed in Tab L of the Agenda Book:

| H-26061 | Dr. Berman |

## OFFICE OF PLANNING AND ANALYSIS

(Agenda Item VII.)

## B. Action on General Project Applications

Applications Recommended for Approval
The Council recommended that the applications listed on page 42: 51 of Appendix $E$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Application Recommended for Disapproval

The Council recommended for disapproval the application listed on page $42: 52$ of Appendix $F$.

The Council member named below took no part in the discussion or vote on the following application:

> A0-23707-75-610 Dr. Berman

## C. Action on Science, Technology and Human Values Application

The Council recommended that the application listed on page 42: 53 of Appendix $G$ be approved for a grant from gifts to the Endowment and matching funds released thereby up to the amount listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for this grant or contract up to the level indicated.

## D. Action on Youth Programs Application

The Council recommended that the application listed on page 42: 54 of Appendix $H$ be approved for a grant or contract from definite appropriations.

## A. Report on Committee Discussion

The staff briefed the committee on the final reauthorization bill, changes in the FY 1978 budget submission to OMB, reflect,ing the reauthorization, and plans for analytical studies, which the committee feels of great importance to NEH planning.

Mr. Hedrich reported to the committee on a meeting of the Conference on Aging which he attended. The Conference will result in a series of papers which will help disseminate the results of activities supported by the Endowment under this grant, which was aimed at encouraging humanistic scholarship in the field of aging.

## DIVISION OF RESEARCH GRANTS

(Agenda Item VIII.)

## B. Action on Applications

The Council recommended that the applications listed on pages 42: 55-58 of Appendix I be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Application Recommended for Disapproval

The Council recommended for disapproval the application listed on page 42:59 of Appendix J.

The Council members named below took no part in the discussion or vote on the following applications:

RT-7687-73-142 Mr. Hollander<br>RO-23093-76-192 Mrs. Ahmanson, Mr. Kilson, Mr. Madsen

## Comments on Particular Grants

In Mr. Hart's absence, Mr . Cannon reported the committee's recommendations. During his report comments were made on several grants:

> H-27030 National Academy of Sciences/National Research Council (Scholarly Communication and Exchanges with the People's Republic of China). Mr. Hall suggested that the. Endowment should alert the Congress that this application is being recommended for an award. Mr. Hewitt asked how the scholars who will go to China from the United States are to be selected. Mr. Cannon replied that they would be selected by a board of experts in whom the Endowment has confidence.  H-27l8l Folger Library (Acquisition of Early Reformation Rare Books). Further staff study was recommended before the Chairman decides on this application. Mr. Cannon stated that the Endowment has only done this sort of thing once before when it made a grant to the Newberry Library for the acquisition of recusant literature. The offer of the books to the Folger will expire December 31 , l976, under already existing arrangements and Mr. Cannon thinks that it is extremely doubtful that the Chairman will in fact make a gifts-andmatching offer.

H-25888 Villa I Tatti (Maintenance and Support of Current Activities). The research facilities of Villa I Tatti are a national resource of the United States. Villa I Tatti may be closed down as a center of research if the Endowment does not grant this application. In response to a question from Mr. Hollander concerning the source of fellowship monies at Villa I Tatti for the next year, Mrs. Child stated that some of the money comes from the endowment of the Villa I Tatti and some are supported with research money from this Endowment.

During the temporary absence of the Chairman, the Vice Chairman conducted the meeting.

## A. Report on Committee Discussion

The committee discussed the possibility that the State Humanities Committees might take over support of certain state and local history projects from the Research Division.

The committee discussed scholarly needs for translations as reported by experts. Needs are strongest in the non-western languages, particularly Arabic, Turkish, Persian, and Chinese. The Endowment has been advised, however, to accept applications for translations from any foreign language and then to make awards to those applications which would best serve the needs of the American scholarly community. It is expected that the first applications for the support of translations will be brought to the Council at the May or August meeting.

Endowment Staffing - Mr. Cannon stated that he had agreed to report to the February Council on staffing of the Research Division. Mr. Hall remarked that he had been impressed by the quality of Endowment staffing and he felt that their Civil Service ratings are low compared to other agencies. He thinks this problem should be gone into with some intensity. Mr. Vandiver agreed. Mr. Hall suggested that a few Council members might discuss this with members of the senior staff. Mr. Cannon pointed out that the staff of the Research Division has turned over one-hundred percent in the last two and a half years. Mr. Hall said that such waste in training and retraining would be eliminated by doing away with the inequity in pay and other benefits. Mr. Vandiver said that he felt that the National Council should comment on this problem and that he would like to have a profile of the staff picture. Mr. Hall made the same request.

## DIVISION OF EDUCATION PROGRAMS

(Agenda Item IX.)

## A. Report on Committee Discussion

Mr. Hollander repeated the invitation made at the last meeting to all Council members to give their advice on projects which they see in their Agenda Books from the Division of Education Programs. The committee discussed the evaluation report "The European Vision of America" (agenda item IV. I.). The committee felt that the report was absolutely excellent in content and was well written. They wished to mention specially Mrs. Krimgold and Miss Englander for their excellent work on this report and Mrs. Peacock for her work in accumulating reports on the candidates for the Jefferson Lectureship.

Mr. Hollander called the Council's attention to the new "Smaller Development Grants". This category is designed to support more projects than was formerly possible, the average amount of support being smaller.
B. Action on Applications -- Institutes -- Institutional Grants: Smaller Development Crants -- National Board of Consultants -Projects

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 42:60-64 of Appendix $K$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amount,s listed and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those applications listed on pages 42:65-66 of Appendix L.

The Council members named below took no part in the discussion or vote on the following applications:

$$
\begin{array}{rl}
\mathrm{EH}-10954-75-33 & \mathrm{Mr} . \text { Hollander } \\
\mathrm{H}-26655 & \mathrm{Dr} . \text { Berman }
\end{array}
$$

## DIVISION OF PUBLIC PROGRAMS

(Agenda Item X.)

## A. Report on Committee Discussion

Mr. Madsen reported that a number of the members had had trouble hearing the proceedings of the meeting and asked if in the future the microphones could serve to amplify the discussions as well as their function of transmitting the proceedings to the tape recorder.

The committee had discussed the failure of the public to recognize the Endowment's contributions in the media field. For example, many people believe that the Adams Chronicles were supported solely by Atlantic Richfield and are unaware of the Endowment's support of that series.

The committee also commended a paper of guidance to be sent to State Committees. They are convinced that these instructions will prove helpful in the Endowment's efforts to implement those portions of the new law which affect State-based Humanities Committees.

Mr. Madsen wished particularly to thank the three new members of the Public Programs committee, Mrs. Ahmanson, Mr. Kilson and Mr. Lyman, for their effective work.

Mrs. Ahmanson commended the staff of the Public Programs Division. She mentioned the progress which the Media Program is making. The Liberty series is progressing well and the Short Stories series is also. Both should turn out to be useful in bringing the humanities to the general public. The State-based Program is gojng well because of the effectiveness of staff work on it. Twenty-five states have been visited since August.

Mrs. Ahmanson asked the members of the Council to make themselves known to the members of the State-based Humanities Committees in their state.

## B. Action on Applications

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 42 : 67-73 of Appendix M with conditions specified on pages 42:74-78 be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval

The Council recommended for disapproval those applications listed on pages 42:79-82 of Appendix N .

The Council members named below took no part in the discussion or vote on the following applications:

$$
\begin{aligned}
\text { PN-8287-73-158 } & \text { Mrs. Ahmanson } \\
\text { H-26858 } & \text { Mr. Madsen }
\end{aligned}
$$

The meeting adjourned at 3:05

## APPENDIX A

## DIVISION OF FEILOWSHIPS

The Council recommended that the following conditions apply to approved individual applications as follows:
H-26952
$\mathrm{H}-26940$
$\mathrm{H}-27124$ structure.
(Portland, Maine, Humanities Committee)
a) that the programming will draw upon local resources and explore locallya
sources; and apor submitted for Fndowment approval in)
 (New Jersey State Library)
that additional scholars in the humanities be included in the planning group.

## (Baltimore Regional Planning Council)

Gutuueta
 structure.
(suexboxd səṭqtueunh əұe7S Jo voṭұeлəpəs) d

|  | a) that the Interim Commi the poll of state-based co b) that the Interim Commi for the period to November costs. |
| :---: | :---: |
| H-26854 | (The Delaware Humanities Forum) |

(The Delaware Humanities Forum)
H-26951
that the Indiana Committee for the Humanities must add three senior from the State's major research universities such as Notre Dame and Indiana University at Bloomington in the normal course of committee rotation.
a) that the Massachusetts Foundation for the Humanities and Public Policy must increase its membership to at least 21 by May 1, 1977, and at least three of the new members must be representatives of the general public; and b) that the Foundation must submit a detailed
plan and budget designed to broaden the outreach of its program and assure the centrality of the humanities in its funded projects by May 1, 1977.

## (The Mississippi Committee for the Humanities)

a) that the Mississippi Committee must employ a second full-time professional staff member,
fully qualified in one of the core disciplines of the humanities, to assist in the overall
administration of the program; b) that the Committee must review its program development
plans, taking into account the reviewers' concern regarding the need to strengthen and to
make central the humanities content of funded projects, and that the Committee report on the
results of its review of plans by March 1,1977 ; and c) that the Mississippi Committee must
submit a plan for the phased rotation of its membership by February 1,1977 .
H-26863 (Missouri Committee for the Humanities, Inc.)
that the Missouri Committee for the Humanities must develop and submit by April 1, 1977, an analysis and report of the nature and extent of involvement in committee regrants of the humanities faculties of the University of Missouri, Columbia; St. Louis University; and Washington University.
H-26915 (The North Dakota Committee for the Humanities and Public Issues)
that the Committee review and resubmit by April 1, 1977 its program development plan and
 in mounting original projects.
H-26774
(South Dakota Committee on the Humanities)

a) that the Texas Committee for the Humanities must add three additional scholars to its
membership from the humanities faculties of the state's major research universities,
including the University of Texas at Austin, by March l, l977; b) that the Texas Committee
must submit, by March 1 , 1977 , a refined program development plan for reaching the small
towns and rural areas of the state; c) that the Texas Committee must review all categories
of its membership and submit a plan by March 1 , 1977 detailing the means whereby the Committee
will determine the qualifications of individuals selected for membership in the future.
$19 \quad$ (Vermont Council on the Humanities and Public Issues)
that the Vermont Council on the Humanities and Public Issues must add to its membership two two administrators from the state's educational or cultural institutions by April 1, 1977.

## COMMITTEE MEETINGS <br> (Agenda Item I.)

Separate meetings were held by the Comittee on Education Programs, the Committee on Fellowships Programs, the Committee on Planning, the Committee on Public Programs and the Comittiee on Research Grants.

EXECUTIVE SESSION
(Agenda Item II.)
At 12:45 p.m. the Council went into executive session to consider the vacancy in the Chairmanship and the names of possible candidates for the President's appointmert to that position. None of the staff were present except for the Acting Chairman and the Secretary to the Council. At $2: 45$ the executive session ended and the members returned to the committee meetings.

Friday, February 25, 1977
MINUTES OF PREVIOUS MEETING
(Agenda Item III.)
The Council approved the minutes of the forty-second meeting held on November 4-5, 1976.

## REPORTS

## (Agenda Item IV.)

## A. Dr. Berman's Resignation

The Acting Chairman informed the Council officially that he was acting because of Dr. Berman's resignation as Chairman on January 19, 1977. In fact, the members were informed of the resignation previously by a letter irom Dr. Berman, giving his reasons therefor.

The Vice-Chairman then offered the following resolution, which was duly seconded and unanimously adopted:

The members of the National Council on the Humanities wish to convey their warm personal respects to Dr. Berman, and to express their great appreciation of his service to the nation as Chairman of the National Endowment for the Humanities.

During the five years of Dr. Berman's chairmanship the scope and influence of the National Endowment increased beyond all expectation. Significant works of scholarship were undertaken and completed; influential educational institutions were enabled to develop and refurbish their humanities curricula; and, through a variety of media, institutions, and community organizations, vast numbers of citizens came for the first time to recognize the pleasures and profit of humanistic knowledge. For this, for his administrative skills, for his eloguent advocacy of the humanities, and for his personal attributes, the National Council on the Fumanities is deeply in Dr. Berman's debt.

The Council offers its very good wishes to Dr. Berman and Mrs. Berman upon their return to private life.

The Acting Chairman asked the Secretary to convey this to Dr. and Mrs. Berman in suitable form.
B. Surmary of Recent Business and Introduction of New Staff lembers

The Acting Chairman said that he was presenting the traditional summary to the Council for the first and, hopefully, for the last time. The most important event for the Indowment since the last meeting was Dr. Berman's resignation. The Endowment is now in a state of interregnum. This will be no great handicap if it does not last too long. For example, during Wallace Edgerton's period as Acting Chairman, the Museum Program was begun and the State-based Program, while the Media Frogram and the Research Frogram eniarged their activities. The Development Frogram in Education and the Course by Newspaper began during this period also. It is the expectation that the President will appoint a new Chairman very soon.

This is an extraordinarily important meeting for the Council which this morning will address three main policy questions: the development or the State Humanities Program, the institution of the Challenge Grant Program and the Endowment's support of scholarly publications. (On direction of the Senate a report on this subject was prepared last year.)

It is important that it is made clear to the Congress that the Indowment is doing an effective job in the areas Congress has delineated for us and that thereby the Endowment is helping Congressmen and their constituents.

In addition to the reports which have been made reguiarly a special effort will be made to communicate to members of the House and Senate, who are particularly concerned in the Endowment's development, the projects which have been supported in their districts. These legislators will also receive prompt explanations of the actions the Endowment has taken in response to their questions and suggestions.

A problem has been presented by the fact that the Endowment has supported a number of excellent projects in the Washington area which have been very well received but which are not perceived by the general public as owing their success in part to the Endownent. For example, the Endowment has supported:

1) the Treasures of Tutankhamun show which has received three quarters of a million visitors already in Washington and will then proceed to Chicago, New Orleans, Los Angeles, Seattie and New York City;
2) The Canadian Culture Symposium at the Hirshhorn Gallery and at the Phillips Collection which has been very well received;
3) a grantee in the Youthgrants Program who has received the opportunity of having a presentation at the Kennedy Center;
4) the annual Jefferson Lecture.

It should be brought to the attention of the public and the Congress more clearly than it has been that all of these activities are humanistic activities and have been supported by this Endowment.

Budget. The last chance for a pre-budget discussion for Fiscal Year 1979 will be at the forthcoming May meeting. And Council members should now make known exphases they individually would like to us. The Acting Chairman himself, for example, believes that increased support might be appropriate in television production. Advice would be most useful on what criteria the Endowment should use for judging television projects and what further ambitions the Endowment should have. Before the May meeting the first production of the series "The American Short Story" will be presented -- "Bernice Bobs Her Hair", based on the story by F. Scott Fitzgerald.

Other successful program emphases were noted. Support for elementary and secondary education has been increased and the Bay Area Writing Project in the San Francisco Bay Area could be very influential. Syllabi oy the first twenty scholars at the Yale Humanities Institute have just been selected by the U.S. Information Agency for use abroad. These syllabi will be of influence in foreign countries but it remains to be seen what their influence in this country will be.

In the Research Grants Division all staff positions have been filled for the first time in some while and the new members of the staff apoear to be effective people. A new program of support for scholariy translations has been instituted with the first deadine for applications being set for April lst. Preliminery drafts of some 86 applications have been received in this program.

The Public Program has responded to interest in the field of popular culture and folklore. In Newark, New Jersey there has been an exhibition on the history of Eskimo Culture and an exhibit on Sacred Circles, covering many centuries in the development of the American Indian, is opening in Kansas City. There is an exhibit in Scarorough House in Savannah, Georgia, on "Life in Savannah, 1820-1860".

The Endowment is in the field of education and scholarship and yet it is seen as in "contest" with the National Endowment for the Arts which operates in the field of the performing ants. A rivalry with the National Science Foundation, which is closer to the scholarly interest of the Indowment, would appear to be a more natural competition for the Endowment and might make our position more clear to the public and the Congress.

## Reorganization of Federal Government

During his report the Acting Chairman mentioned the Institute of Museum Services and pointed out that this Institute raises questions regarding the relationship of this Endowment to other agencies, particularly in the light of the President's announced plans for reorganization of the Federal Govermmental structure. He pointed out the danger that, unless the National Council on the Humanities continues to examine the Endowment's position in regard to other agencies, our operations might be misplaced. During the remainder of this session of Congress, particulariy in the irmediate fuvure, it will ce necessary for the Endowment to follow the progress through Congress of
other legisiation besides that winch affecis the Indowment directly. As other agencies are grouped together it will be necessary to examine where this Endowment may fit in. It is also importan at this juncture to better our understanding or the organization of the National Foundation on the Aris and the fumanities. Fe expected the Council's discussion later in the meeting of a reorganization of the NFAH to show that the Endowment is becoming more administratively separated from the National Endowment for the Arts.

Mr. Iyman asked if there would be any opportunity to discuss Federal reorganization, particularly the possibility of the establishment of the Department of Education which might include this Endowment. The Acting Chairman said that this would not be discussed during the February meeting because it would be premature. The Council might well want to discuss it in May. Nr. Iyman said that he felt that May would be none to soon and the Acting Chairman agreed that the Council would discuss the matter at that time.

Mr. Nisbe $\ddagger$ said that in his opinion it would be unfortunate for the Endowment to become part of a Department of Education. He supported Mr. Iyman's position and felt that this matter should be discussed by May at the latest. The Acting Chairman said that he felt that there might be a close connection between the appointment of a new Chairman for the Endowment and the Endowment's position in a reorganization.

Mr. Ashley asked the Acting Chairman and the staff to monitor reorganizajion developments closely. He felt that May might be too late to discuss this matter. Either the Council should discuss the matter between now and May or an ad hoc group should be organized from the Council membership to do so. Nr. Varmer said that he felt that this was a critical matter which should not be left to chance. The Acting Chairman stated that he woula be in touch with the Council members on this matter.

The following new starf members were introauced:

## Division of Public Programs

Donald Gibson and Gary Messinger in the State-Based Program; Suzanne Scheil in the Museums and Historical Organizations Program.

## Division of Fellowships

Carl Anthon in Fellowships for Independent Study and Research under the Intergovemmental Personnel Act.
and the following staff changes were announced:
Barbara Croissant is now in the Research Division and Varlarie Deacock is now in the Pubiéc Prograns Division

## C. Chairman's Grants

Miss Brady reported on the Chairman's Grants awarded between October 2, 1976 through January 19, 1977.

## D. Abplication Report

Mr. Tashdinian discussed the report of applications submitted to the Endowment during FY 1977 through January 31, 1977.

## E. Gifts and Matching Recort

汭. Tashdinian presented the paper on "Gifts Received, FY 1977". As of February 16, 1977, the Endowment had available about $\$ 5.8$ millicn for the matching oi future gifts (this dces not include Challenge Grants).

## F. Challenge Grants

The Acting Chairman discussed the Challenge Crant Program which is authorized by the amendments to the National Foundation on the Aris and Humanities Act, which became law last fall. There Will be no final guidelines until the National Council on the Humanities has made its recommendation, but preliminary guicielines had been prepared and were presented to the Council: "NEH Challenge Grants, Ceneral Information and Preliminary Guidelines" February 1977. (See appendix A)

Mir. Tashdinian felt it was important to go into the background or the amendments on this first occasion when the Council was considering them in order to avoid misunderstandings. In the course of the reauthorization hearings Congress besame aware of the plight of humanistic organizaticns, such as nistorical societies, university presses and broader organizations whose missions go beyond the humanities, such as colleges, broadcasting organizations, etc. A large number of these organizations are suffering the greatest distress that they have suffered in the last thirty years.

State anc local govermments and the private sector must carry the major burden of supporting these irstitutions. Federal support for the aris and the humanities is not likely to increase greatly in the near future. Congress wished to consider how small amounts of Federal money might stimulate support from other sources and was impressed with grants which had served such a purpose, such as the Indowment's crant উo the New Yowk Public Iibrary. While the National Indowment for the Eumanities had experienced difficulty on some occasions in reising sufficient gifis to projects to release the matching
funds which Congress had appropriated, it was felt that the provision of support for operating costs through a challenge grant might well stimulate alumi and other supporters of academic institutions and of other cultural organizations. Both the National Endowment for the Arts and this Endowment felt that the challenge grant concept was a good one, and Congress authorized it. President Ford did not originally support the challenge grant concept but did give his support after the legislation had passed. President Carter has endorsed it.

The purpose of the NEH Challenge Grant Program then is to use Federal monies to stimulate non-Federal support for the humanities. Self help is what is desired -- the Federal money is a means to that end. Many humanities institutions may already be at the linnit of their fund raising capacities and not be able to use the Challenge Grant Program, but many other institutions are in a position to use it. The first question which an applicant for a challenge grant must answer for himself is whether his institution is in a situation to benefit from such a Federal challenge. The first applications will be presented to the May Council.

Congress originally authorized $\$ 12,000,000$ for this Endowment's Chellenge Grant Program. The House of Representatives has recommended a $\$ 9,000,000$ appropriation.

Schedule for First Challenge Grants - In January the President announced the Humanities Challenge Grant Program. The draft brochure was written, and an announcement of its availability was mailed to over 30,000 institutions. Letters of intent have been requested by March lst from any institution which wishes a challenge grant. The applications will come in in early April and the Council will consider these applications at the May meeting, after which grants will be awarded. It is expected that all the funds appropriated by Congress for the Challenge Grant Program will be needed by humanities institutions and will be made available to them by the Endowment.

The brochure, under the heading Sources of Matching, states that the basic requirement is that the matching funds provided by a grantee must be from new sources or in addition to the support normally provided by traditional sources. Mr. Madsen asked about the meaning of the word "new". Mr. Solow pointed out the difficulties in defining the term. An alumnus might have given to his university in previous years but not have given in 1976 -- would a gift by such an alumnus in 1977 be new money? After some discussion Mr . Solow said that he felt that it would be necessary to depend on the good faith of grantees or to establish specific definitions of the type of gift which might be considered "new".

Mr. Tashdinian stated that the time of the release and the expenditure of Federal funds for a challenge grant is a policy question. The National Endowment for the Arts allows immediate release of matching funds upon receipt of a gift restricted for use under a challenge grant, one dollar of Federal funds for each dollar received up to the approved maximum. Several options might be available to this Endowment: for example, only part of the Federal matching money might be released upon receipt for a restricted gift by the Endowment. Another possibility is to release the Treasury money to the grantee upon receipt of the gift, but allow him to expend it only when the full costs of the project have, been provided for by gifts or pledges from third parties. Mr. Tashdinian also pointed out that grantees would be made aware that the possioility of an audit always exists in the challenge geant situation.

Mr. Varner said that he would move for this latter option, authorizing the full amount of the challenge grant to be made available to the grantee on the books but permitting release only when a pro rata part of the private funds necessary for the project had become available or have been promised. Mr. Solow seconded this motion but Mr. Kristol indicated that he was in opposition to it. The Acting Chairman said that the staff needed clarification of the law in this respect and he asked Mr. Vamer to withdraw his motion, stating that the staff would be guided by the opinions expressed by Council members at this meeting. He pointed out that the law actually provided for a one to one match of half the total cost of the project or proposed program. Thus it might not be possible (in theory) so to restrain the release of Federal matches. Mr. Varner said he did withdraw his motion "until the appropriate time".

Further discussion ensued. Nrs. Rockefeller mentioned the difficulties institutions will have in obtaining continuing donations from new sources of support who become interested in an institution because of a challenge grant if the Federal total has already been released and spent in full. The problem might be heiped if challenge grants were made for a period of one year at a time. It would be difficult for a grantee to request a renewal if a previous
year's grant had drawn down all the Federal matching funds and used them but it had been impossible for the grantee to raise sufficient private funds to cover the whole cost of the challenge grant project. Mr. Franklin pointed out that the draft brochure does not make all this clear. Mr. Tashdinian said that page 13 of the brochure describes the ideal situation. Mr. Franklin said that on page 10 and 13 the draft brochure speaks of "minimal". It does not tell when the first Federal dollar will be available to the grantee for expenditure. Nr. Tashdinian said that the reason for this omission in the draft brochure was that the staff did not know what policy would be adopted when the draft was made.

The Acting Chairman, in response to a question from Mr. Franklin on the legal situation, said that the law makes it possible for the Endowment to release Treasury matching funds to a grantee as soon as a gift is received, but that the motion which Mr. Vamer had spoken of made it clear that some of the Council members thought that there should be an assurance that all private funds necessary for the project would be raised before all of the Treasury matching funds were released for expenditure. The Acting Chairman said that this will be clarified before April lst.

Nrs. Gray asked if the law permitted a one for one match. Would it be in the spirit of the law to require a three to one match? She wondered why it was considered that Mr . Varner's motion was premature, pointing out that it would be possible to make a motion subject to the provisions of the legislation.

Nr. Kristol said that he thought Mr. Varner's motion was intended to be more stringent than the legislation demands.

Mr. Solow agreed with Mrs. Rockefeller's suggestion that if a grantee agrees to match the Federal gifts and matching funds and fails to do so we should not consider an application from that grantee in the following year.

Mr. Kristol said that the Endowment should avoid to the greatest extert possible putiing grantees in a situation where they would have to refund matching Treasury funds to the Endowment for failure to raise sufficient private funds to cover the cost of a challenge grant project. Mr. Iyman agreed saying that it would be dangerous for institutions to get out on a limb by receiving matching funds as soon as a gift was available. In order to protect the institutions the Endowment should insist that they have at least legally binding pledges of private support before the Treasury matching funds are released to them for expenditure. Mr. Varner's motion was of fered again and Mr . Iyman seconded it.

Mr. Vandiver said that he was not sure that institutions wound be out on the limb in such a situation. He had been informed by a memoer or the House of Representatives Comittee on Appropriations that they had reduced the Endowment's reauest for \$12,000,000 as a suppiemental aporopriation item to cover chalIenge grants in the present fiscal Jear. This amount was reduced to $\$ 9,000,000$ because the Endorment had not made its case For the necessity of the $\$ 12,000,000$ and Nr . Vardiver thought that the Congressional Committee was probably right. Congress, however, does want us to make the $\$ 9,000,000$, which Will probably be aporopriated, available to grantees who are in many cases in dine need of the money. Then Nr . Vandiver raised the question of whether the Endowment can in fact recover money from a chailenge grantee who has failed to raise the private funds necessary to complete the challenge grant project.

Mr. Solow pointed out that once a grantee has received the Treasury money due him under a challenge grant he is no longer in a gosition to tell private donors that ir they do make a gift supporing his challenge grent project money $w i l l$ be released from the Treasumy. In such a situation the money would already have been released.

Mr. Nisbet said that all Mr. Varner's motion attempts to do is to bring the challenge grant procecures intc line with existing policy goverming Indoment gifts and matching grants. He favored the motion. Mr. Varner asked why certain members of the Council and of the starf appear to be troubled by the motion.

Mr. Kristcl brought uo a hypothetical case of a museum which might be near bankruptcy because of its failure to receive surficient pubiic support. Fow could such a museum raise money under a challenge grant which was designed to increase public supocrt of the museum? If the Indorment was unable to advance Treasury furcis to match gifts made for the purpose of the challenge grant, the puroose of the challenge grant might be geavely hampered. In answer to a question by Nr. Nisbet as to whether a chalienge grantee could. use the money received for promotional purposes, the Acting Chairman pointed out that this is in fact a pemissiole purpose uncer the chailenge grant program.

Mr. Iyman siajed that he did not think it is good judgment to encourage grantees to soend money which they do not yet have a ciear right to. A challenge grantee is not fuly entitied to matching Treasury funds on a chalienge geant until he has assurances that the full cosi on the oroject will be met.

Mr. Rushing said that the discussion might be incorrect in comparing the challenge grant procedures with those existing for the present gifts and matching grants. Most established institutions are used to private challenge grants and could easily become used to the new Endowment challenge grants which are similar. He favored Mr . Varner's motion which is in line with the current practice of donors of private challenge grants.

The substance of Mr . Varner's motion was restated: Subject to the law, this Endowment will release Treasury matching funds only when pro rata support of the project has been assured by the receipt of cash or pledges, pledges which are legally enforceable.

Mrs. Ahmanson agreed with Mr. Nisbet's earlier suggestion. She pointed out that the whole idea of a particular challenge grant might be to stimulate the grantee's capacity for raising money. Even on a volunteer basis it takes money to start a fund raising campaign and she feared that the policy in Nr. Varner's motion might frustrate such a challenge grant.

The vote was then taken and Mr. Varner's motion carried thirteen members voting in favor of it and six voting in opposition.

The Acting Chairman pointed out that the policy embodied in Mr. Varner's motion is always subject to change by the Chairmen, taking a number of factors -- congressional, legal, constituent, National Endownent for the Arts -- into account.

## Challence Grants -- Transfers of Funds by Crantees

Nr. Hollander had raised a question earlier about the possibility that a recipient of a challenge grant might take advantage of the challenge grant to transfer funds of the institution for other purposes. When the Acting Chairman suggested that the subject raised by Nr. Hollander might be taken up by the Council, Nr. Hook asked how it would be possible for the Council to lay down guidelines on this question. He felt there should be an ad hoc decision and suggested that some committee might look into the manner in which challenge grantees are transferring funds. Nrs. Gray said that she understood that the language underined on page 12 of the draft challenge grant guidelines meant that the matching funds raised by a challenge grantee musi be new funds rather than fund transfers. Mr . Tashdinian asked how Mrs. Gray would treat an unrestricted gift which a grantee might receive. She said that she felt that such a gift would be acceptable as matching under a challenge grant but that a transfer of funds would not.

Mr. Hollander said that he was fearful that some people might consider that the legislation was actually encouraging chicanery.

Mrs. Rockefeller said that whatever the Endowment adopts as a policy she hopes that the challenge grant program will not lose its quality as an emergency support program for institutions. This program is not a program of permanent aid such as is envisaged in the Museum Services Act.

Mr. Tashdinian said that the starif would make a note that the next draft of the challenge grant orochure should contain a statement that challenge grant support is intended for an emergency situation as well as long-term fund-raising support. The Acting Chairman said that for the present there would be no repeat grants in the challenge grant program, since it was designed to help institutions create a sounder financial or operating base. Theoreticaily, once this was accomplished, no further grant would be appropriate. Thus, in the initial years -- and until the program is reauthorized by Congress -- once will be enough. He also said that the Endowment would not accept shifts of funds within an institution's budget as providing matching funds requisite under a challenge grant.

Mrs. Gray stated that she felt that Mrs. Rockefeller's point is very important in two ways:
a. There are emergencies such as the emergency presented in the original New York Public Library model request. Their existence was threatened; help was needed for operating expenses.
b. There are less dramatic cases where a long-term threat to the survival of a library or a college or other institution exists. This financial erosion presents an emergercy situation also.

She suggested that the Council had probably been talking of both kinds of emergency throughout this discussion. The Acting Chaiman stated that he believed that Congress was interested in both types of emergency.

Mr. Tashdinian said that the Council would discuss this matter again in Way in connection with specific apolications. In answer to a question by Mrs. de Kleven, he said that the last paragraph on page 12 of the draft brochure reflects a congressional purpose of the legislation. Mrs. de Kleven said that she found it difficult to believe that institutions do not go to local sources and individuels Tho are available for their support. The Acting Chaiman suggested that the language of the last paragraph of the section "sources of matching" in the challenge grant brochure might well be nevised so
as to make íj ciear that it would be rare for an institutior. to overicok such an obvious suppor亡 source.

## G. State Humanities Prosrams

The Acting Chairman said that under the ner legislation the State fumanities Committees will no longer be restricted to policy issues, but have the same broad mandate which the National Endowment has under section 7(c) of the National Foundation on the Arts and the Humanities Act. Upon passage of the amendments last fall the staff considered the problems which would be facing the newly independent committees and prepared the paper "The Endowment's Reauthorizing Iegislation and the Frograms of State Committees for the Humanities", which is included in the Council Agenda 3ook. Under the new amendments the Council will advise the Chairman as he develops a program in the humanities in such a manner as will furnish adequate programs in the humarities in each or the several States and it will aiso advise the Chaiman each time a State Commitiee submits a new grant application and plan for its activities. It is expected that on these occasions the Council will suggest to the comititees which courses of action would be the most profitable ones for them. This is the first such occasion on which the Council may acivise the State Comnitiees.

Mr. Barcroft reported that the State Comittees are adapting their procedures to comply with the requirements of the new amendments.

The new law removes the authority of the National Endowment to direct State Committees to follow one particular humanistic program. It will be the role of the National Endowment ir cooperation with the State Humanities Committees to arrive at a situation where the committees' prograns complement, but co not duplicate. the national programs in serving the broadest possible number of adults in the States.

Mr. Barcroft then discussed the essential points of the paper on the Endowment's reauthorizing legislation. Nr. Vandiver asked what feedback the National Endowment had received concerning Statebased Arts and Humanities Comititees. Mr. Jarcroft reported that there has been discussion of this matter in some States with combined Arts and Humanities Committees, but the Covermors have determined that none of these committees now qualify uncer the new Federal law as State Humanities Commitites. It would be possible for these States to change the commititees (for exampie, by proviaing that no more than fifty percent of the membership shouid be appointed by State officials), but no State has yet done this.

Siate-based Commitiees in ten of the Staves already have two members appointed by the State Coverment. It is anticipated that the remaining States will be able to comply with this requirement in the comparatively near future.

Mr. Wadsen asked for information conceming the national organization of State-based Humanities Comittees which had been discussed by the Chairman of the State-based Committees at the time of this Council's 4Ist meeting in Seatile. Mir. Earcroft reported that seven States have now voted to join the association, two have defermed and others have taken no action. It seems lively that such an organization will come into existance in the rear future and be helpiul. Wirs. Davies reported that the State Comititees are feeling a great sense of excitiment in implementing the new legislation. She requested Council members to contact their respective State Committees so that each memoer can keep his commitiee informed of activities at the National Indoment.

The Acting Chairman preseried and discussed to the Council a taper on the mission of State-based Programs and was instructed to present the paper to the State Cormittees without substantial change.

## H. Scholarly Puolications

Nir. Cannon delivered some remaris conceming support oi publication in the humarities. These remaris are Ettached to these minutes ard mariked Appendix 3.
ivr. Vandiver then listed four points which the OPA commitiee had mentioned during their discussion of this paper:
a. A number of smali private spacial ty presses exist which have been doing good work in the humanities. It was feit that they were worthy of consideration for support. (Nr. Carnon replied that they were eligible for such support.)
b. The committee considered the possibility that one of the works whose publication was supported by the Indowment might turn out to be a bis seller; this might even hapoen several times. That would be the reaction by the commercial presses? (ir. Cannon statad that the Indorment vill have to be rarj. Persons revieming procosals should look ai a buçė to make sure that support is actualiy needed, ard
advice should be available from marieting experis who could counsel the Endowment on the likelihood of a particular work becoming a best seller.)
c. The current guidelines provide that only one application may be submitted from each press. The committee wondered whether the Endowment intends to stick to this requirement permanently. (Nr. Cannon answered that the requirement is intended for this year only when funds are extremely limited. It is possible that in another year when conditions are different the restriction may no longer apply.)
d. Should the Endowment share in profits made by a press with Endowment support?

The Acting Chairman stated the standared NEH policy on royalties -return of fifty percent of the royalites up to the amount of the original grant, with the fifty percent of royalties retained by the grantee being retained for the support of projects in the humanities.

Mr. Nisbet pointed out that the book Roots was supported by the Guggerheim Foundation, and it is always possible that an extremely profitable book may be supported initially by an organization such as the Endowment.

Mr. Krisiol and Mr. Franklin pointed out that any royalites that come in will exist because of the experience and skill of the author and urged that authors be allowed to receive just compensation if one of their works becomes a best seller.

## I. NEH Administrative Functions

The Acting Chairman reported on the possibility that the National Endowment for the Arts and the National Endowment for the Humanities may each have a separate administrative staff in Fiscal Year 1978, first mentioned in Dr. Berman's letter of resignation. The Shared Staff would be divided between the two Endowments. The National Endowment for the Arts wants independence and we can see that it might well be more efficient if not cheaper to have two completely separate Endowment staffs. The desire for such an administrative split has increased since the National Endowment for the Arts moved to Columbia Plaza and the Congress has now asked the two Endowments to present administrative budgets on the basis of completely separate staffs.

Althougn this may be cheaper in the long run, it may be more expensive in the short run, but it will certainly be more efficient. We have a contract with a private management consultant firm to study and recommend the best organizational arrangement for this Endowment. It seems likely that the two Endowments will be functioning separately by next year, but this will be a separation, not a divorce. The National Foundation on the Arts and the Fumanities will still be a legal entity and each Endowment will still be part of that Foundation.

Cooderation with Arts Endowment: Mr. Varmer asked if any discussion was under way concerning closer working relations with the National Indowment for the Arts. The Acting Chairman said that no formal discussion was under way but he believed that we can develop closer cooperation. Although an administrative separation is being planned, the legislation will not be altered to make a structural change in the present National Foundation on the Arts and the Humanities, and a number of programs work closely together, such as the museums programs of the two Endowments. Mr. Vamer suggested as an item for future Council discussion the creation of a special cormittee of the National Council on the Humanities to woris closer with the National Endowment for the Arts and the National Council on the Arts. The Acting Chairman said that this would be noted in the minutes but pointed out that the stmucture of the National Fndowment for the Fumanities is quite different from the structure of the National Endowment for the Arts. Mr. Nisbet said that he would like to leave this question on an ad hoc basis. He feels that this Endownent should preserve its autonomy in order to help the humanities.

## J. Arrangements for the Jefferson Lecture

Mr. deChaby described the arrangements for this year's Lecture, "The Writer and His Country Look Each Other Cver", by Mr. Saul Bellow. This will be delivered in two parts -- the first in the auditorium of the National Academy of Sciences in Washington on March 30th, the second in Chicago on April Ist, at the Drake Hotel. Both parts will be broadcast nationwide by the Public Broadcasting Service.
K. Fiscal Year 1978 Adoropriations and Supclemental Adorooriation Recuest for Fiscal Year Iar.77

Nr. Tashdinian discussed this suo.ject oriefly with the Council and referred them to material passed cut at the meeting.

## I. Selected Project Evaluation

A paper on Special Youth Projects was submitted to the Counci.

## EXECUTIVE SESSION

(Agenda Item II. Continued)
After a break for lunch the Council reconvened with the Acting Chairman and the Secretary at $1: 45 \mathrm{p} . \mathrm{m}$. to discuss the vacancy in the Chairmanship. During the executive session Mr. Hook moved to have the November meeting in Washington instead of in New Orleans. There was very brief discussion. There was no official action on the motion but the Acting Chairman said that the Secretary would be in touch with the members of the Council on this matter after the meeting. The members of the Council then informed the Acting Chairman and the Secretary that they would like to caucus on the question of the vacancy in the Chairmanship. Both the Acting Chairman and the Secretary withdrew and the members continued their discussion. Under the provisions of the Advisory Committee Act (Section lO(e) of Appendix I of Title 5 of the U.S. Code), this action constituted a temporary adjournment of the meeting until the Chairman should return.

Upon the invitation of the members the Acting Chairman returned at 2:55 and called the meeting to order. A letter was then prepared addressed to the President of the United States and signed by the members present. The Secretary was instructed to dispatch the letter. The executive session was adjourned $a t 3: 05$ and the Council recommended in closed session to consider committee reports.

## OFFICE OF PIANNTNG AND ANAIYSIS

(Agenda Item V.)

## A. Report on Cormittee Discussion

Mr. Vendiver requested that his full notes be placed in the record. These notes are attached to these minutes and marked Appendix $C$.
B. Action on Ceneral Proiect Applications

Applications Recormended for Approval
The Council recommended that the applications listed on pages 43:60-61 of Appendix $D$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Fndowment and matching funds released thereby up to the amounts

Iisted, and that the Acting Chairman, in his discretion, accept gifis in such amounts as will provide funding for such grants or contracts up to the level indicated.

Aoplications Recormended for Disaooroval and Deferral
The Council recommended for disapproval and deferral those applications listed on page 43:62 of Appendix $E$.
C. Action on Science. Technology and Human Values Aoolication

The Council recommended that the application listed on page 43:63 of Appendix $F$ be approved for a grant or contract from definite appropriations.
D. Action on Youtherants Apolications

Apolications Recommended for Aoproval
The Council recomended that the applications listed on pages 43:64-67 of Appendix $G$ be approved for grants or contracts Ircm definite appropriations.

## ADolications Recommenced for Disaporoval

The Council recommended for disapproval the applications listed on pages 43:68-71 of Appendix H .

The Council mempers named below took no part in the discussion or vote on the following applications:

H-27376 Mrs. Ahmanson, Mr. Kilson, Mr. Madsen H-27381 Nirs. Gray
H-27539 Mr. Hook, Mr. Kristol
H-27671 Mrs. Ahmanson, Mr. Kilson, ifr. Macisen

## DIVISICN OF RESEARCH GRANTS

(Agenda Item VI.)
B. Action on Apolications

AOplications Recommended for Approval
The Council recomended that the applications listed on pages $\angle 3$ : 72-93 of Appendir I be approved for grants or cortracts from definite appropriations or, where indicated, from gitits to the Endoment and matching funds reieased thereoy ub to the amounis

Iisted, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the Zevel indicated.

ADolications Reconmended for Disaporoval and Deferral
The Council recommended for disapproval and deferral those applications listed on pages 43:94-102 of Appendix J.

The Council members named below took no part in the discussion or vote on the following applications:

| H-23988 | Mrs. Rockefeller |
| :---: | :---: |
| H-25970 | Mr. Hook, Mr. Iyman |
| H-25985 | Mrs. Gray |

(Agenda İem VII.)

## A. Eevorit on Cormities Discussion

Mr. Follander saic that tine Education comitivee Eel jinai jinere is a reed for guicelines covering proposals in the field of ethecs (ousiness ethics, legai ethics, medical ethics, etc.). The pubinc and the political sector both feel that such Ercocsals should have a high pricrituy. Some of the Council members feel that they ciourue the humanities. Nr. Hocir said that he feit it depencied or tre particular apolication. If a philosophy professor is teachirg ethics in medical schcoi cecause he carmot get deople jo attend his
 should be turned down by the Endorment in he seeks suoport Eon his međical schocl teaching. \#orever, he shouic rot te timnec down on the grourd that his appication is not a humanistic one; it is. Instead he shoule be tumed down because his teaching is irferion to the teaching of other azoínants for Encoment support.

Tren Nm . Holiander reiterated that pareis jucgirg apolications neecied guicarce, the Acting Chairmar said that the stais mouic develco such gricelines and give them to parelists. It may =ver be possioie to print them in the gridelines made available to apolicants.

 mentam and Secordam Jducation Program -- Figien Education
 Ercoram (Inciucing revisions of orevicus resciuvions:

ADElications Recomencec For Ajorcual
The Council recommencec that tine apolications こistec on pages L3: 103-II2 of Appencix $K$ be approvec fon granis or contracts inom definite apororriations or, winere indicated, Enom gifits to tine Fndcment and matching funds releasec thereby up to the amourts listed and that the Acting Chaiman, in his discretion, accoot gifts in such amounts as will provicie funcing for such gnanos on contracts up to the Ievel incicaved.

The Council commitiee had recommended an application which was recomended by staff but not recommended by the panel: H-27060 Üniversity of the State of New Yort, New York (Program to have men and women with advanced training in humanities disciplines undergo training for private sector employment) -- Outright \$205,028, Gifts and Matching \$160,000 (See Appendix K, page 43: 108).

The people who are offering this eight week course are first-rate as teachers of business. Mr. Hook said that this is a large issue. The proposal is suspect as humanities and he is suspicious of it and opposes the grant.

Nr. Tashdinian reported that the OPA committee had discussed the problem of job placement for persons holding humanities Ph.D.'s. The OPA committee felt that the Endowment should support people in this situation as a way of infusing the humanities throughout the society. Nr. Rushing said that he had originally opposed this proposal in the Education comittee but that after a long discussion he changed his mind and is now in favor of it.

Upon motion, duly made and seconded, the Council recommended an award be made to the University of the State of New York upon appiication H-27060 in the amounts recommended by the staff (see above). This motion was passed by a vote of 9-3. Nrs. Gray, Mr. Hook and Mr . Frarklin opposed the motion.

## ADplications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those applications listed on pages 43:113-119 of Appendix L.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-27052$ | Mrs. Gray, Mr. Nisbet |
| :--- | :--- |
| $\mathrm{H}-27085$ | Mr. Hook |
| $\mathrm{H}-27098$ | Mr. Madsen |
| $\mathrm{H}-27115$ | Mr. Hook |
| $\mathrm{H}-27128$ | Mrs. Gray |
| $\mathrm{H}-27138$ | Mrs. Ahmanson, Mr. Kilson, Mr. Madsen |
| $\mathrm{H}-27141$ | Mr. Hook |

| H-27548 | Mr. Nisbet |
| H-27737 | Mr. Nisbet |
| H-27824 | Mr. Vandiver |

Mr. Hook opposed application H-27115, Queens College, New York, Philosothy in the Classroom, which appears on page 43:110 of Appendix K.

## DIVISION OF PUBLIC PROGRAMS

(Agenda Item VIII.)
B. Action on Apolications

ADolications Recommended for Aprroval
The Council recommended that the applications listed on pages 43:120-133 of Appendix M with conditions specified on pages 43: 134-140 be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## AODIications Recommended for Disaporoval

The Council recommended for disapproval those applications listed on pages 43:141-145 of Appendix $N$.

The Council members named below took no part in the discussion or vote on the following applications:

| PM-26120-76-900 | Mr. Madsen |
| ---: | :--- |
| H-27450 | Mrs. Rockefeller |
| H-27451 | Mrs. Rockefeller |
| $\mathrm{H}-27452$ | Mrs. Rockefeller |
| $\mathrm{H}-27582$ | Mr. Vamer |
| $\mathrm{H}-27682$ | Mr. Fock, Mr. Kristol |
| $\mathrm{F}-27685$ | Mirs. Rockefeller |

A comittee report on H-27962, dated February 24, 1977, was prepared by the Council committee on Public Programs and submitted to the Council itself. The Council, in disapproving application H-27962, accepted the report as the opinion of the entire Council and directed that it be incorporated in the minutes. It is so incorporated as Appendix 0.

## DIVISION OF FELLOWSHIPS

(Agenda Item IX.)
A. Report on Committee Discussion

A number of applications for individual support which did not fall within the regular Fellowshid programs were submitted to the Fellowships committee for recomendation. The Fellowships commitiee reported that these applications were ineligible for support and the Council agreed.

## B. Action on Acolications - Fellowships in Residence for College Teachers

The Council recommended that the applications listed on pages 43: $147-157$ be approved for grants or contracts from definie appropriations and that those applications listed on pages 43:158-161 of Appendix $P$ be approved as alternates. All applications for Fellowships in Residence for College Teachers were listed in Tab U of the Agenda Book. All those applications listed in Tab U of the Agenda Book which were not listed in Appendix P of these minutes were recommended for disapproval.

The Council members named below took no part in the discussion or vote on the following applications listed in $\mathrm{Tab} U$ of the Agenda Book.
105. Mr . Madsen
117. Mrs. de Kleven
122. Nr. Varner
170. Mr. Madsen
211. Mr. Varner
273. Nr. Madsen
555. Mr. Madsen
598. Mr. Nisbet

## C. Action on Ajplications - Summer Stipends

The Council recommended that the applications listed on pages 43:162-173 of Appendix $Q$ be approved For grants or contracts from definite appropriations. All applications for Sumer Stipends were Iisted in Tab $V$ of the Agenca Book. All those applications listed in Tab $V$ of the Agenda Book which were not listed in Appendix $Q$ of these minutes were recomended for disapproval.

The Council members named below took no part in the discussion or vote on the following applications listed in Tab $V$ of the Agenda Book:

D. Action on ADDlications -- Centers for Advanced Study

The Council recomended that the application listed on pages 43:174-176 of Appendix $R$ be approved for a grant or contract from definite appropriations.
E. Action on Apolications -- Institute of Current World Affairs Application

The Council recomended for disapproval the application from the Institute of Current World Affairs listed in Tab XVZ of the Agenda Book.

The meeting adjourned at 5:04 p.m.

## National Endowment

 for the HumanitiesGeneral Information and Preliminary Guidelines

Note: This brochure is intended to present general information about NEH Challenge Grants which the President has proposed for Eunding beginning in 1977. Pending review by the National Council on the Humanities, the guidelines presented herein should be considered preliminary and subject to change.

Please also note that funds for challenge Grants will depend on Congressional action, and such appropriation action is not expected to take place until the spring of 1977.

Unless otherwise noted in the brocinure, inquiries about Challenge Grants should be directed to

## Introduction: Challenge Grants

As part of the 1976 amendments to the National Foundation on the Arts and the Humanities Act the Congress authorized the Endowment to expand its assistance to the numanities through a broad new program, Challenge Grants, which is intended to help humanistic institutions improve their financial stability by stimulating new or increased support from the public.

Challenge Grants differ from ordinary Endowment grants in a significant way: because the amount of available funding has been small in relation to the demand, Endowment aid is normally limited to specific projects which have a defined scope, duration, and result and which relate to priority areas recommended by the National Council on the Humanities as meriting special attention by NEH. In enacting the Challenge Grants provision, however, the Congress recognized the need for basic operating support to those institutions which-as they develop, organize, preserve, and disseminate humanistic knowledge and provide the human and material resources required for high quality humanities programsmundergird the Nation's educational and cultural strength.

Challenge Grants therefore complement existing NEH programs by offering institutions the assistance they need to carry out their basic functions and by stimulating non-Federal sources to share in their support. The new type of grants authorized by the congress are termed Challenge Grants as they
--challenge an institution to examine carefully both its traditional sources of support and untapped potential sources, its present audiences and others which it might usefully serve, and its long-range programming and financial needs;
--challenge members of the public to demonstrate the value they place on their local humanities institutions and to express their concern about the continuing functioning of those agencies;
--challenge state and local government, business firms, labor organizations, and civic groups to recognize the role played by humanities institutions in the educational or cultural life of theirstate and community and to help support that role.

## Objectives of NEH Challenge Grant Program

According to the legislative authorization, the broad purposes to be pursued by the Endowment through Challenge Grants are:
--enabling cultural organizations and institutions to increase the levels of continuing support and to increase the range of contributors to the program of such organizations or institutions;
--providing administrative and management improvements for cultural organizations and institutions, particularly in the field of long-range financial planning;
--enabling cultural organizations and institutions to increase audience participation in, and appreciation of, programs sponsored by such organizations and institutions;
--stimulating greater cooperation among cultural organizations and institutions, especially when it is designed to serve better the communities in which such organizations or institutions are located;
--fostering greater citizen involvement in planning and cultural development of a commanity; and
--encouraging a continuing observance of the Bicentennial period through support of humanities projects which bring the public and private sectors together to assess "where our society and Govermment stand in relation to the founding principles of the Republic" and to find "new processes for solving problems facing our Nation in its third century."

## What May Challenge Grants Be Used For?

Unlike regular Endowment grants, which may support only projects in defined $N E H$ program areas, Challenge Grants may be used for a variety of broad purposes which the recipient institution judges to be most critical to its long-term functioning and financial health. Possible uses include:
--general operating expenses (including staff salaries, rent, utilities, mortgage, general administration)
--defraying of operating deficits
--renovation of facilities
--acquisition of equipment and materials
--maintenance, preservation, and conservation of collections
--improved planning, evaluation, and automated data systems
--design and conducting oi development and fund-raising efforts
--new or expanded programing and services
--increased commanity-oriented information and "out-reach" programs
--establishment of inter-institutional programs for resourcesharing and joint administrative improvements.

Note: Federal regulations prevent the use of NEH funds for endowment, cash reserve, or construction of new facilities; however, donations to an institution for such purpose may be used by it to meet the matching requirements of a Challenge Grant (see below), and the NEH portion of the Challenge Grant may then be used for current or other operating expenses.

## Bicentennial Projects

A special provision of the Challenge Grant authorization encourages public and private groups to explore the development of American ideals and institutions, to examine the humanistic dimensions-historical, philosophical, ethical-oof contemporary problems, to infuse the humanities and humanistic concerns into the approaches developed for resolving such problems, and, thereby, to lay the foundation for a thoughtful observance of the two-hundredth anniversary of the adoption of the U.S. Constitution in 1989.

In preparing an application for a Bicentennial Challenge Grant institutions should note that a preliminary proposal, or at least prior consultation with NEH staff, is necessary in order to assure that the activity envisioned is eligible for Endowment support. Inquiries should be addressed to

NEH Bicentennial Challenge Grants MS-801<br>National Endowment for the Humanities<br>Washington, D.C. 20506

A Challenge Grant consists of two partsmethe NEH or Eederal portion and the non-Federal matching portion. A minimum of 3 non-Federal dollars is required for every 1 Federal dollar. (This 3-to-l matching requirement may be reduced to a lower ratio in support of those "Bicentennial" projects [see preceding page] which the National Council on the Humanities finds particularly meritorious and needing a greater proportion of NEH funds than Challenge Grants permit. For such projects the legislation authorizes the Chairman to provide up to $50 \%$ of the project's cost.)

In keeping with the purpose of Challenge Grants--to stimulate continuing, long-term support--it is anticipated that most applicants will present multi-year plans for raising funcos which will be expended over a two-to-four year period. Thus the size of Challenge Grants will vary according to the plans an applicant proposes as well as the kind of institution it represents and the uses it intends to make of the Challenge Grant.

The Federal portion of a Challenge Grant may range from a minimum of $\$ 2,000$ in total up to $\$ 1$ million a year, depending on the availability of funds appropriated by the Congress and the merits of individual applications.

## Eligibility

Any non-profit humanities organization--that is, an institution whose entire operation is in the humanities--is eligible to apply for a Challenge Grant for either general or specific institutional purposes. Institutions, like educational institutions, puolic libraries and public broadcast stations, whose work extends beyond the humanities may apply for a Challenge Grant to cover the costs of specific humanities programs, components or activities, or to cover the portion of total institutional costs which can be identified with these.

Note: It is expected that typical NEH grantees--educational institutions, libraries, museums, historical organizations, film/ television/radio production centers, advanced study centers, research organizations, scholarly societies and presses, and consortia of such groups-will submit applications for Challenge Grants while continuing to apply to other NEH programs for support of specific projects.

## Sources of Matching

Any non-Federal source of funds is eligible to be matched by NEH-state or local governments, foundations, corporations, labor unions, businesses, professional and civic organizations, or individuals.

The basic requirement is tinat the matching funds must be from new sources or in addition to the support normally provided by traditional sources.

Institutions themselves will define "new" funds and are subject to audit of such definitions. In general, fulfillment of earlier pledges, customary or fixed annual contributions (or appropriations), and income from endowment cannot be considered as "new" funds.

Pledges made in anticipation or on condition of a successful NEH Challenge Grant application, however, do constitute eligible matching. Gifts of property and bequests may in certain circumstances also be eligible for matching.

Fund-raising "benefits" may also be used to meet the Endowment's offer as may income from other special events, proceeds from special sales, and augmented membership contributions as long as contributors understand that their donations will be used to match an NEH Challenge Grant.

Note: Funds donated to the Endowment or to a tax-exempt institution in connection with an NEH Challenge Grant are deductible as charitable contributions for Federal income tax purposes (and may also be for purposes of state and local income tax).

In view of the purpose of Challenge Grants--to broaden the base of institutions' support--applicants are strongly encouraged to seek donations from local sources and from individuals who use their services rather than to rely primarily on a single, nonrepeating source (e.g. a major foundation grant) to raise matching funds.

## How Are Challenge Grants Awarded

In orief̃, Challenge Grant Eunding proceeds as Eoilows:

1. An institution submits to tie Encowment an application describing (a) how it would use an NEH Challenge Grant offer to help it raise new or increased financial support, both in the short-term and long-term, and (b) the purposes for which Challenge Grant funds would be used.
2. The application is reviewed by the National Council on the numenities and, if recommended by the council for approval, results in a Challenge Grant. The Chaiman of the Encowment, as part of the notification, will speciEy the maximum level and conditions of funds. The major conditions will include:
a. the matcining requirement (nomally amounting $=0$ a minimun of triple the Federal Eunds offered);
b. acknowledgement by donors that they are responding specifically to an NEH Challenge Grant of̃er;
c. the date by which the mȧcining Eunds should be raised; and
d. the grant period within which the matcining and Federal monies may be actually expended.
3. The approved apolicant proceeds to identify eligible donors and arranges for transmitial of their gi̇ts and ackncwledgements to the Endowment or for transmittal to the applicant (in which case appropriate cift certification should be sumaitted to the Encowment). ?rivate donations, if they are to remain eligible for matching under this program, must not be expended until the Eederal matching funds have been released.
4. On receipt of the giEts (or certiEications) by the Endowment, the Federal funds are released from the U.S. Treasury and made available to the grantee.
5. The grantee is now Eree to use the giE=s and the Feceral furds according to the approved application and grant conditions, and provides an annual report during the li三e of the grant.
6. Two years after the completion of the Challenge Grant project, the grantee provides the Endcwment with a brief "Eollow-up" report describing the continuing effects of the grant in terms of on-going contributions generated by tie initial Challenge Grant or the resulting change in the institution's Einancial or operating condition Erom the pre-Challenge Grant period.

## Timetable

It should be noted that funds for Challenge Grants are not presently available. Federal funding for Challenge Grants will depend on appropriations made by the congress specifically for this purpose. The ceiling set by the authorizing act--that is, the maximum that the Congress may appropriate--is $\$ 12$ million for fiscal year 1977 and $\$ 18$ million for fiscal year 1978.

Fiscal year 1977 funds for Challenge Grants require a supplemental appropriation, and Congressional action on this is not expected before the spring of 1977. The amount of Federal money to be available for grants in 1978 will not be known until the late summer or early fall of 1977.

Reflecting the expected timing of appropriations, the Endowment has established the following schedule for Challenge Grant applications in 1977:

Applications postmarked by April 1 will be reviewed by the National Council at its spring meeting, with notifications for successful applicants issued in mid-June.

Applications postmarked by June 1 will be reviewed by the National Council at its summer meeting, with notifications for successiul applicants issued in mid-September.

Applications postmarked by December 15 will be reviewed by the National Council at its winter meeting with notifications issued in mid-March, 1978.

## Timetable Eor Bicentennial Challenge Grants

The nature of the projects supported by Bicentennial Challenge Grants and the variable amount of Federal funds which the Chaiman may offer make it necessary to allow more time to process these applications. The following schedule should be observed for Bicentennial Challenge Grants:

| Deadine | Notification |
| :--- | :--- |
| April 1, 1977 | September, 1977 |
| June 1, 1977 | December, 1977 |
| December 15, 1977 | June, 1978 |

(Note: Preliminary Bicentennial proposals should reach the Endowment two months prior to the deadline date being considered for application.)

```
Notice of Intent
    In order for the Encowment to make plans necessary for appropriate
and expeditious processing of proposals, it is requested that
applicants expecting to submit proposals by April l inform the
Endowment of their intentions by March l; those intending to apply
by the June I deadline are requested to inform the Endowment by
April 15. The notice of intent may be brief, stating only:
--the institution's name and address;
--the amount of the Challenge Grant expected to be requested
    (including the Federal portion, the non-Federal portion,
    and the total) along with information and as firm an
    estimate as possible about gifts expected to be "in hand"
    by the notification date;
--the NEH division or program most appropriate for processing;
    (e.g. "Museum Program," "Division of Education Programs," etc.);
--the name and title of the official who will authorize the
    application; and
--the name, title, and telephone numoer of the official
    charged with preparing the application.
Intent notices should be mailed to
NEH Challenge Grants
MS-802
National Endowment for the Fumanities
Washington, D.C. 20506
```

## Challenge Grant Applications

A. Contents

An application for an NEH Challenge Grant normally will consist of the following:

1. Description of the institution: a brief description of the nature and extent of institutional activities and the size and type of the community or audiences served.
2. Financial profile: the institution's operating budget for the current and past two years, the amount and principal sources of income, and where relevant, the number of contributors to the institution.
3. Previous NEH support: a summary of grant support received from the Endowment during the last two operating years.
4. An analysis of the requested Challenge Grant: an explanation of the proposed uses of the Challenge Grant, the probable sources and amount of matching contributions (with anticipated semi-annual totals), a proposed timetable for obtaining all the matching funds and spending the total award, and an analysis of how the grant will enable the institution to continue or expand its activities. A "fall back" plan, in case fund-raising efforts prove only $50 \%$ or $75 \%$ successful or a smaller amount of Federal funds be offered, should also be briefly discussed.
5. Long-range financial development plan: a discussion of how the activity made possible by the Challenge Grant can be sustained or will continue to prove useful, after the grant has been spent, together with a plan to maintain new sources or to identify and cultivate further sources of continuing financial support. This section in combination with section 4 should make clear that the applicant has a coherent and well formulated plan, with attainable goals, which will significantly bolster the institution's financial position and/or strengthen its capacity to serve a broader public, once the broad Eederal assistance represented by the Challenge Grant has ended.

Challenge Grant Applications
A. Contents (continued)

The following should also be noted:

- Institutions whose Challenge Grant application concerns only a limited activity or specific component among the institution's overall interests should present the kind of detail outlined above for that activity/component and indicate the portion it has claimed of the institution's total budget during the current and past two years.
- Except for tables, charts, or attachments which the applicant may deem useful, applications are not expected to exceed five singlespaced pages.
- Applicants not previously awarded an NEH grant should include along with their application a copy of their latest two annual reports, proof of their non-profit status, and assurance of civil rights compliance.

## B. Submission

Applications should be accompanied by the NE: "Challenge Grant Summery Face Sheet," (which will be sent upon request), and submitted in five copies to

```
NEH Challenge Grants
Grants Office, MS-200
National Endowment for the Humanities
Washington, D.C. }2050
```

## C. Review Process

As with regular program applications, the Endowment encourages all Challenge Grant applicants to discuss their proposals with NEH staff prior to submission of a fomal application. Particularly, applications for Bicentennial Challenge Grants or for support of specific humanities activities/components within institutions should be discussed with the staff of the Endowment program office most appropriate to the project prior to submission of the formal proposal.
(A listing of Endowment program officers may be found at the end of this brochure.)

## Examples of Possible Challenge Grant Projects

--A public radio station is currently able to spend only $\$ 3,000$ out of its annual operating budget of $\$ 120,000$ for the production of humanities programming. It seeks a Challenge Grant offer of $\$ 3,000$ in NEH funds over three years in order to generate an additional $\$ 9,000$ in matching funds, more than doubling the amount available for humanities-oriented programming in each of the three years and to attract continuing support from its listeners.
--A small historical organization which relies heavily on a volunteer staff has a collection of documents and photographs important to the local history of its community. These materials are uncatalogued, poorly stored, and partially in need of conservation. A Challenge Grant of $\$ 10,000$ over a two-year period, which would stimulate $\$ 30,000$ or more from other sources, could provide funds for a trained staff member to organize the collections, to pay for immediate conservation needs, and to acquire a storage system that would prevent further deterioration. The organization believes the Federay Challenge will stimulate new memberships and new support from local business fims.
--A group of two-year and four-year colleges wishes to establish a visiting lecturer program bringing outstanding scholars to their campuses and community for a series of public lectures and faculty seminars on an emerging field. They apply for an NEH Challenge Grant consisting of $\$ 50,000$ matched by $\$ 150,000$ in donations from the public over three years in order to endow the program.
--A number of libraries in a region wish to cooperate to solve the problems which all face in the field of conservation and preservation. They apply for a Challenge Grant of $\$ 100,000$ in Federal funds over a two-year period and prepare to raise gifts of $\$ 300,000$ in order to (1) set up a conservation laboratory which can service all the participating institutions; (2) to run workshops to give basic training to members of all their staffs in certain elementary techniques of preventing further deterioration of the materials in their care; and (3) to launch a coordinated microfilming effort to transfer to that medium deteriorating materials which do not need to be preserved in their original form. The libraries believe that most of their users will respond to the Challenge Grant and will continue to make annual contributions.
--A museum finds that, in order to maintain existing staff and services and to respond to demands for expansion of its educational program, it must: eliminate a $\$ 600,000$ deficit, increase its operating budget, and raise capital funds in a major endowment drive. The institution seeks an NEH Challenge Grant of $\$ 500,000$ a year for three years in order to stimulate a minimum of $\$ 1,500,000$ annually in other support, and to enable the institution to accomplish all of these objectives. It would also be used to encourage donors to the challenge program to regard the ongoing needs of the institution as a continuing responsibility.

## Equal Opportunity

Organizations receiving Endowment support must conduct their operations in accordance with the requirements of Title VI of the Civil Rights Act of 1964 and the Rehabilitation Act of 1973, as amended, which bar discrimination in Federally-assisted projects on the basis of race, color, national origin or handicap, and Title IX of the Education Amendments of 1972 prohibiting discrimination on the basis of sex under any education program or activity receiving Federal financial assistance.

In compliance with the Privacy Act of 1974, applicants are advised of the following:

Section 7 of the National Foundation on the Arts and the Humanities Act of 1965, as amended ( 20 U.S.C. 956) authorizes the Endowment to solicit the requested information. This information is needed to process your grant application and also for statistical research and analysis of trends. The routine uses of this information are general administration of application review process, statistical research, Congressional oversight, and analysis of trends.

Failure to provide information as requested could result in rejection of your application because the Endowment would then have insufficient facts to detemine either your eligibility for a grant or the amount which should be awarded.

The following is a brief listing of those staff members who may be contacted for further information conceming challenge Grants and other programs of the National Endowment for the Humanities.

Remarks Concerning the Support of Publication in the n umanities

Delivered at a meeting of the Vational Council on the Humanities, February 25th, 1977, by Harold Cannon.

Let me begin by offering a briaf sumary of the report which-is included in your Council Rool: uncer Tab G.

During the appropriations process last year, the Endownent was directad by the Congress to adopt policies and procedures "to defray partially the costs of pubiishing research which has been sponsored by ver." This was a directive, and not an invitation to discuss and explore.

This Council has previously resisted even occasional exceptions to prior Encloment policy which precideded the subvention of publication costs of Encorment-sponsored research. Such "e:ceptions" as are noted in the report cio not, in fact, fall in the area of sciolarly research. The Council's justifications in pursuing this course are cited on paces eicht and nine.

The -eport explores the publishing subvention practices of other Eederal acencies and the assistance offered by private foundations in this area. l:one of these examples afford an exact model which the fndorment could follow. Instead, the report proposes four ways in which the Endowment could acdress the problems of scholarly publication: -

1. All Endowment research grants will provicie for the production of "camera-ready" copy, both to Eacミlitatc formal publication and to allow for 'on-demand' reprocluction.
2. Subsidies will be offered for major scholarly publications, paこticularly reference tools which are costly to produce and most likely to engender deficits or to necessitate prohibitive pricing. Any American press may make one appincation per year in this category. Proposals will be revieved both by a panel oE scholars and by a panel of publishing experts.
3. Foscarch and Devolopment grants to ensure improvec publishing techniaues will continue to be available throuah OPA. Five such sturies currently uncicray are detailed in the apoendis to the report.
4. Challenge Grants, which are available to all cultural institutions working in the humanities, could benefit scholarly presses, and some of the earliest proposals in this new category will, I know, be forthcoming from university presses in particular.

So much for the report, which is a response to the congrossional directive. It should also be noted, however, that it is a response wich will begin to ease a burden which was becoming intolerable to our grantees. We have always cxpected the results of our research grants to be appropriately disseminated -inceed, proposals are unlilely to prove competitive unless at least tentative arrangements for publication have been macic. Anc yet, we have hitherto ofsered no direct assistance in this matter to the scholars whom we serve. We have been fortunate, in an era of rising costs, in the publication record of our grantees. Dut there are kinds and styles of publication that do not serve our purposes well. The use of foreich presses, in urder to cut costs, and sometimes even publication in a foreign languages, must severely limit the radership and use of thnse volumes, particularly since such overseas presses seldom have adequate actvertising and marieting Eacilities in this country.

The prociuction of 'camera-reaciy' manuscripts as products of our grants suggests that we should evplore ways in which copies could be procuced and distributed 'on-demanc'. Division staff are alreaciy working on this necessary step to ensure that these copies are not consigned to oblivion. This venture is timely in view of our new category for supporting the proauction of scholarly, annotated translations -- many of which could not appropriatoly be aistributed in this way.

This worle is being principally uncertaken in my division, since the research grants awarded there are 'product-oriented', to use the language of the marketplace. sut I anticipate and welcome inter-civisional cooperation in this area, since it is certainly forseeable that other divisions' grants, particularly those of the Fellowships Division, could produce worthy candidates for publication support.

Thus it is apparent that the airective from the Congress dict not finci us unprepared or unaware oミ the needs in this area or of our ohligation to respond. Our actions, in ry opinion, have been somewhat accelerated by the directive but, Iike Macbetin's ragger, it leads us in the direction in which we mero going.

OFFICE OF PLANNING AND ANALYSIS
REPORT ON COMMITTEE DISCUSSION EY MR. VANDIVER

We began the discussion of policy matters by reviewing the supplemental and FY 1978 budget figures. We were particularly pleased that President Carter this week approved an additional $\$ 1.5$ million to NEH to maintain the policy of parity between Federal support for the Humanities and Federal support for the Arts and to recognize that the two Endowments have joint responsioility for the Nation's cultural life.

We then went on to talk about Challenge Grants, scholarly publishing and the State Eumanities Programs which were discussed this morming.

## APPLICATIONS

We first considered the general OPA applications listed on the first two dages of the motion. All of those on the first page (AS-26757-76-902, H-27867, H-27894, H-27945, H-27957) and H-27957 on the second page relate to continuing grants or expansion of projects already being carried out. They presented no particuiar problems. We recommend them for approval.

## (MOTION TO APPROVE.)

H-27948, the first application on the second page, did raise a tough problem for the Committee. It is a request for emergency assistance from the Museum of African Art here in Washington, D.C. This institution, which plays an important role in the cultural life of the community and which has received very substantial support through NEH gifts-and-matching funding, is now having severe financial problems. These are due in large part to over-extension resulting from overly amoitious planning, and limited funds for endownent. The Museum is now running at a large deficit and is faced -- a very real danger -- with closing its doors. It must have additional funds very soon in order to remain open. Though it is possible that the Museum will be taken over by the Smithsonian, according to Smithsonian officials, there is only a 50-50 chance of this; but this could not happen very soon.

Because of the importance or the Museum in this city and the Endowment's past relationship with it, we think it worthy of support but feel the Museum should be encouraged to seek other support. The recommendation on this application is further complicated by the impending Challenge Grant program as the Nuseum would be an ideal candidate for Challenge Crant funding. However, the money is needed now while we are not even certain of the appropriation, and it is unlikely that Challenge Grant funding will be possible before May or June.

TO: National Council on the Humanities
FROM: Council Committee on Public Programs

After extensive consideration, the Public Program.Committee concluded that it was necessary to recommend disapproval at this time of application $\mathrm{H}-27962$, Northeastern Pennsylvania E.T.A. (WVIA-TV/FM), "Understanding Congress" Series, for the following reasons:

1. The proposal was received within the last three days. The Council is therefore unable to consider the proposal with access to competent outside review.
2. As you know, the established procedure for all applicants is for proposals to be submitted to individual outside evaluators and a panel of competent expertise, followed by review first by the appropriate Council Committee and thereafter by the full Council.
3. To make a decision without following these procedures would expose the Council and the Congressional sponsors to unanswerable criticism particularly since the total amount requested is the large sum of $\$ 5,000,000 \%$ Further, there is increased jeopardy of criticism of both Council and Congressional sponsors in any hurried decision since the proposal encompasses filming the Congress during its deliberations with respect to the Anti-lobbying Bill next month. There is concern that the Council and the Congress would find it difficult to defend abandoning normal Council procedures uncer these circumstances.

It should further be reported that the general attitude of the Committee is favorable in broad principle and that consistent with following responsible procedures, every effort will be made by the Committee to expedite a further decision with respect to this application at its May meeting.

This Committee report is offered for the information of the full Council, and we ask acceptance by the Council of the report.

## Summary of Application

The American Research Center in Egypt was formed in 1948 by a group of scholars and other individuals. The broad aims of ARCE are to obtain a fresh and more profound knowledge of Egypt and the Near East through scholarly research; train American specialists in Near Eastern Studies in academic disciplines which require familiarity with Egypt; disseminate knowledge of Egypt and thus understanding of the whole Near East; and promote AmericanEgyptian cultural relations. In pursuit of these goals ARCE supports archaeological projects conducted by research teams under the direction of senior American scholars, a Research Fellowship Program to enable American scholars and students to conduct research in all periods and in all phases of Egyptian civilization, and special historical and literary projects.

In 1963 the corporation was expanded to become a consortium of universities with interests in the study of all aspects of Egyptian civilization in all periods of history, from ancient times to the present. Since 1963, with the support of PL 480 funds from the Bureau of Educational and Cultural Affairs of the U.S. Department
of State (CU) and to a lesser extent from the Smithsonian Institution and HEW, the ARCE has sponsored from six to twenty Research Fellows whose projects have been in the fields of the humanities and social sciences relating to medieval and modern Egypt. Support for archaeological and art history projects relating to ancient and Greco-Roman Egypt has emanated from the Smithsonian Institution. The policy-making body of the ARCE is the Board oE Governors, comprised of one member appointed by each of the Research Supporting Member universities and an equal number plus one of individuals elected by the Individual Membership. The President, at present Professor Morroe Berger, Director of the Program in Near Eastern Studies at Princeton University, is responsible for overseeing the activities of both the center in Cairo and the U.S. office. The Cairo Director, Dr. Paul E. Walker, is also Director of the Fellowship Program. Administrative costs of the Center in Cairo are provided by the Smithsonian Institution. The dollar costs of the Center are provided by the membership, contributions, and sponsorship of an annual tour of Egypt.

In addition to the Cairo Director the Center staff also includes an Egyptian Resident Professor, and if funds are available, a U.S. Visiting Professor, both senior scholars who will assist the Fellows with finding sources and establishing contacts with the Egyptian scholarly community. Professor Farhat Ziadeh, Chairman of the Department of Near Eastern Languages and Literature at the University of Washington, is the Visiting Professor for 1976-77.

The Center personnel assist fellows to obtain permits for all the libraries in Cairo. ARCE Fellows use especially the National Library (Dar al-Kutub) and the National Archives; the libraries of all the universities and ministries, the Arab League, etc. are available to them. The Center has a modest library of about 2,000 volumes, which may be expanded in the near future. Center personnel authorize transportation, meet the Fellows upon arrival in cairo, keep lists of housing available, give advice on medical facilities, schools, life in Egypt in general; help with visas. The Center has some typing facilities and serves as a mail address for the Fellows.

Since 1963, Fellows' research topics have included history (political economic, medical, legal, etc.) of̃ ancient, Islamic, and modern Egypt; language; literature; economics and religion.

The purpose of the Fellowship program is to give American scholars the opportunity to add to knowledge of the Near East, to take advantage of sources which are available only in Egypt, to have direct communication with Egyptian scholars. In the spring of 1974, the ARCE and the Egyptian Government signed a Protocol which establishes the entire ARCE program of the study of Egypt throughout all periods of history on a permanent basis.

ARCE Fellows are advanced doctoral candidates and senior scholars; the present application is for funds for senior scholars. In addition to informal meetings, each Fellow leads one or more seminars at the Center when he describes his project, progress, etc., and discusses his work with the other Fellows. Eellows are selected by the Grants Committee, scholars eminent in their respective fields, on the basis of the applicants' intellectual capacity, maturity, significance of research-topic, their potential contribution to scholarly research on the Near East and to attainment of ARCE's aims.

Stipends are based on the candidate's academic rank and number of dependents. They have been increased in the last few years to compensate for the inflation rampant in Egypt. The Bureau of Educational and Cultural Affairs of the U.S. Department of $S t a t e$ was the sole source of support for Fellows' research in Egypt for 1975-76 and 1976-77. In 1975-76, the total amount granted by $C U$ was $\$ 120,000.00$ for $1976-77$, only $\$ 78,000.00$

The ARCE would prefer its Fellows to represent a balance between junior and senior scholars, as they have done in the past. A grant from NEH in the amount requested would fund fellowship awards to five senior scholars. The Grants Committee is currently awarding the limited $C U$ funds to junior scholars first, because their stipends are lower than those of senior fellows, enabling more scholars to be funded. The junior scholars also must work in Egypt in order to earn degrees. The ARCE requests funds for fellowship awards to senior scholars.

## CHALIENGE GRANT APPLICATIONS

(Agenda Item V.)
The Acting Chairman explained that these applications were to be considered at the start of the meeting in order to make it possible for various Congressional delegations to inform the press and others in their states about challenge grants made under this new program, while the Council was still in session. $\$ 12,000,000$ in challenge grant funds were authorized for this Endowment in Fiscal Year 1977, and $\$ 9,000,000$ of that amount was actually appropriated. The Endowment has requested $\$ 18,000,000$ for the program in Fiscal Year 1978, and the House Appropriations Subcommittee has recommended this full amount. To publicize this program to institutions eligible to benefit from it meetings were held in Washington, in the Midwest and on the West Coast, to which representatives could be sent to meet with Endowment employees. A brochure was mailed out to interested groups and distributed at the meetings. There has been an enormous response.

A "Challenge Grant Supplement", which was given to each Council member in addition to the regular agenda book, contains a section entitled "Challenge Grant Program". This introductory section contains a segment "Release of Funds", which sets forth a different policy from that preliminarily recommended by the Council at its February meeting. The staff had reached a strong consensus favoring an alternate release strategy, one which is also adopted by the National Endowment for the Arts: In the first year this policy allows release of challenge grant funds upon receipt of equivalent gifts. In the second and succeeding years release will also be made on a one to one match, but only after the remaining pro rata part of the preceding year's, required, three-to-one match has been raised.

A motion rescinding the earlier Council recommendation and adopting this policy on the release of funds was made, seconded and unanimously adopted.

The Acting Chairman called the attention of the Council to the staff recommendations, which are based primarily on the fund raising ability of the applicants. The staff was less interested in the comparative quality of the applicants' humanities programs than in their ability to raise the money required: The purpose of these grants is to make the humanities more visible to the public and to raise money for the humanities. It is felt that this Endowment should make as many challenge grants as possible to deserving humanities institutions. Boards of consultants were brought in to advise the Endowment on challenge grant applications as to which applicants were eligible under the program, whether the applicants have good plans to
were eligible under the program, whether the applicants have good plans to raise and use the funds, whether their prospects of raising the funds were good, and whether the proposed schedule seemed accurate. The staff has recommended that all eligible applicants who requested $\$ 100,000$ or less in any one fiscal year should be funded in ful This covers $85 \%$ of the applications requesting money in FY 1977. The mon $t$ then remaining of the $\$ 9,000,000$ appropriation will be divided among the remaining applicants, except that no applicant will receive a grant award ing more than $\$ 500,000$ in any fiscal year.

The Acting Chairman pointed out that the "Council Motion: Challenge Grants" proposed to the Council contains recommendations for certain total amounts of award, together with a listing of timing of awards which in most cases extends over more than a single fiscal year. However, challenge grant funds have so far been appropriated only for Fiscal Year 1977. Therefore, the recommendations for FY 177 are based on a firm appropriation figure, whereas those for future years are not.

It is the intention of the Acting Chairman to follow closely those recommendations made for Fiscal Year ' 77 in the initial round of awards. The FY 177 awards, which are recommended, total slightly more than the $\$ 9,000,000$ appropriated for this program. It is expected that some grantees will fail to raise sufficient gift money before the fiscal year ends on September 30, 1977, to release all the Federal funds recommended for a grant during the fiscal year. If it appears that any of the recommended grantees will fail to raise sufficient gifts before the end of the fiscal year to reach the $\$ 9,000,000$ set by Congress, the Acting Chair man intends, during the latter part of August, to contact other grantees who have raised additional money and offer to speed up their payments so that the $\$ 9,000,000$ total of challenge grants for FY 177 favored by Congress can actually be made as the appropriation act intends.

Mr. Tashdinian emphasized that the Endowment is likely to amend certain challenge grants in late August to provide that gift amounts scheduled for matching in FY 178 will in fact be matched in FY '77.

In response to a question from Mr. Varner, the Acting Chairman explained that grantees will have until the end of August of Fiscal Year ' 77 to raise gifts to be matched with Treasury funds under challenge grants. If they fail to raise the funds by this time, the Endowment will not be able to process the Federal contributions by September 30th, and the money will be lost. FY '77 quotas do not carry over into 178.

Mr. Hook asked that the staff review the application of the Aspen Institute carefully. Mr. Tashdinian said that they would do so.

Mr. Franklin pointed out that at least one institution, Harvard, had failed to follow the Endowment's instructions, which provided that only one challenge grant application could be submitted by a particular institution. He submitted a motion recommending that the Acting Chairman defer making a challenge grant to such institutions until a single composite application was submitted to the staff (resubmission to the Council would not be required). This resolution was unanimously adopted.

It was necessary for the Acting Chairman to leave for New York at this point and Mr. Hart assumed the Chair.

Mr. Solow suggested that it might be well to set up a separate division of the Endowment to handle challenge grants, because the quality judgment is different from that normally made by divisions in judging customary applications. Mrs. Gray felt that this would not be necessary, that a single person could handle challenge grants by standards of judgment suitable both to the staff of the Endowment and to the National Council on the Humanities.

## Applications Recommended for Aoproval

The Council recommended that the applications listed on pages 44:3037 of Appendix A be approved for grants or contracts from gifts to the Fndowment and matching funds released thereby as listed and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those applications Iisted on pages 44:38-39 of Appendix B.

The Council members named below took no part in the discussion or vote on the following applications:

| H-28219 | Mr. Hook |
| :--- | :--- |
| H-28231 | Mrs. Rockefeller |
| H-28337 | Mrs. Rockefeller |

| H-28641 | Mrs. Ahmanson, Mr. Kilson, Mr. Madsen |
| H-28677 | Mr. Hollander |

At 11:05 the Council adjourned until 12:45.

## COMMITTEE MEETINGS

(Agenda Item I.)
Separate meetings were held by the Committee on Education Programs, the Committee on Fellowships Programs, the Committee on Planning, the Committee on Public Programs (which also acted as a Committee on State Programs), and the Committee on Research Grants.

## PRESENTATION ON BICENTENNIAL STATE AND LOCAL HISTORIES

(Agenda Item II.)
When the Council reconvened in a body there was a presentation of the Bicentennial State and Local Histories funded by the Endowment. The speakers were William Alderson, Director, American Association for State and Iocal History; Gerald George, Managing Editor, American Association for State and Iocal History; and Joe B. Frantz, Author of the Texas State History.

## REPORTS -- EVALUATION

(Agenda Item IV. J.)
Mr. Tashdinian distributed a memorandum to the National Council on the Humanities from the Endowment's Evaluation Officer, entitled "Status Report on the NEH Evaluation Program", dated May 11, 1977, and invited Council members to ask of the Evaluation Officer any questions that might occur to them after they had read the memorandum.

At 2:25 the Council adjourned until 9:30 May 13th, and they returned to their respective committees.

$$
\text { Friday, May 13, } 1977
$$

The meeting was called to order at 9:30 a.m. by Mr. Kingston.

## MINUTES OF PREVIOUS MEETING

(Agenda Item III.)
Mr. Nisbet pointed out that the book "Roots" mentioned on page 43:20 of the minutes was not in fact supported by the Guggenheim Foundation. The book to which reference was intended was Ragtime by E. L. Doctrow. The Council accepted the correction proposed and approved as corrected the minutes of the 43 rd meeting.

## REPORTS

(Agenda Item IV.)

## A. Summary of Recent Business

The Acting Chairman reported that relations are good with the new Administration. President Carter's budget request for Fiscal Year 1978 has amended President Ford's budget to call for a parity of funding for the two Endowments. Al Stern is Cultural Liaison for the Endowment in the White House and we should have a new Chairman soon.

Congress also is treating the Endowment very fairly. The House Appropriation Hearings of this year were really the first in which this Endowment has had an adequate time to present its views, because it did not appear in tandem with NEA. Many past hearings have been rushed, at least the portion of them devoted to the Humanities. A series of Congressional breakfasts have been hosted by Congressmen and Senators for the American Association for State and Local History, at which copies of the various histories have been presented to the appropriate Congressional delegations.

There are promises of change in a future reorganization of the Government, but reorganization of the National Foundation on the Arts and the Humanities is much closer. The Shared Staff will be split between the two Endowments. This will begin to take place probably before the next meeting of this Council.

The 1977 Jefferson Lecture was a splendid occasion. Saul Bellow was well received and there was an overflow audience at the National Academy of Sciences. Two days later a similar lecture was held in Chicago. This lecture has become a source of intellectual excitement and has also excited the political segment and the general public of Washington, D.C. This is just what the Endowment had planned for.

Mr. Kingston stated that at the August meeting the Council would discuss ways in which the National Council on the Humanities could be brought into the process of choosing a Jefferson lecturer at an earlier stage than in previous years. The 1979 Jefferson Lecturer will be elected at the November meeting in 1977.

Mr. Franklin has completed his film on the 1977 Jefferson Lecture and the Endowment is now trying to arrange for its distribution by public television. The Endowment is in possession of television tapes of Saul Bellow's lecture, but he has not yet agreed to release them for general television purposes.

Symposia on Foreign Cultures: The Acting Chairman reported to the Council on the success of the recent symposium on 20 th Century Canadian Culture. He mentioned that Mr. Krafi is now talking with representatives of other countries with the hope of arranging similar symposia, which could be supported by the Endowment.

Hard Times, a television presentation of Dickens' novel, prepared by Granada in England and National Educational Television in this country, has been supported by Endowment funding and follows the series "The American Short Story". Mr. Kingston feels that the Endowment still does not do enough on public television, although this spring a program supported by this Endowment has been presented every week.

In the Fellowships Division the number of summer seminar applications has gone up to another record, 4,137. This year we finally have seminar participants from all fifty states and Puerto Rico. Of the applicants, approximately l,270 will finally be selected to participate in these seminars.

In the Research Division the new funding category for the support of scholarly translations was greeted by its constituency on April lst with 227 proposals requesting almost $\$ 10,000,000$. These are currently undergoing review and will be brought to the Council for action at the August meeting. In connection with the Endowment's
new program to support publication costs of Endowment sponsored research, twenty representatives from presses and publishing houses, both profit and non-profit, were invited to meet with Endowment staff on April 6th.

The Bay Area Writing Project continues to develop momentum, both throughout California and the nation. The Endowment's elementary and secondary education grant included support for the establishment of a minimum of eight sites in California and a minimum of six sites throughout the rest of the country. Interest is so high that twelve to fourteen California institutions have applied to the project to be named as sites, and eighteen institutions in eighteen other states are applying to be one of the national sites. The project has already raised all the gifts for matching offered to it by the Endowment and should be able to raise much more.

A "Summary Report on the American Issues Forum" dated May 1977, was presented to the Council. The American Issues Forum was a serious Bicentennial program, the first program in which the Endowment attempted anything on this scale. As it turned out there were some successes and some failures, but all in all this gave us a magnificent opportunity to learn. We decided to find out about the Forum by talking to the people who did it, some 200 of them who represented a cross section of Forum participants. The results are summarized in the report, which is designed, critically, to point up the areas to which the Endowment needs to address itself before mounting further national educational programs. Included among the new groups reached by the American Issues Forum were senior citizens, and this experience has led to a grant to the National Council on Aging for programs in 100 senior citizen centers next fall.

The Acting Chairman called the Council's attention to the exhibits in the Council chamber "19th Century Toy Theater and Theater Prints", designed by a young graduate student, Joe Viscomi, who was funded under an NEH Youthgrant for $\$ 3,863$. Miss Blakey explained the exhibit in greater detail.

Staff: Mr. Kingston congratulated the staff for unusually valiant efforts in connection with the new Challenge Grant Program, particularly Mr. Tashdinian and Mr. Goodell. Although there were no new staff to introduce he was pleased to be able to announce that Sherrolyn Maxwell and Cynthia Frey have both been awarded Ph.D.'s.

Mrs. de Kleven asked if the Council would get reports on the reaction of State Humanities Committees to the attitude of Congress as shown in the recent amendments to the legislation. She would like a quarterly report on this matter to the Council and would also like representatives of State Committees to meet with the Council.

## B. Chairman's Grants

The Acting Chairman presented to the Council a list of Chairman's Grants awarded January 19, 1977 by Dr. Berman. Since Mr. Kingston has not awarded any Chairman's grants, these are the last that have been awarded.
C. Apolication Report

Nr. Tashdinian discussed the report of applications submitted to the Endowment during FY 1977 through April 1977.

## D. Gifts and Matching Report

Mr. Tashdinian presented the paper on "Gifts Received, FY 1977". As of May 9, 1977, the Endowment had available about $\$ 1.9$ million dollars for the matching of future gifts (this does not include challenge grants). This leaves a much smaller portion of the gifts and matching appropriation available for expenditure in the last three months of the fiscal year than has been available in the past. It seems likely that the Endowment will receive more gifts this year than can be matched from Treasury funds.

Mrs. Ahmanson said that she thinks that the gifts and matching program is helping to build the Endowment and she commends each division for making it successful. Nr. Kingston and Nr. Tashdinian stated that in the future it will probably be necessary to allocate gifis and matching funds to each division as is done with the outright funds. In the past the gifts and matching appropriation has been held in a common appropriation available for any grantee who could raise gifts, regardless of division.

## E. Challenge Grants

The Acting Chairman said that this item was placed on the agenda because we felt that after making the first round of challenge grants, and having had an opportunity for committee discussion, the members might wish to recommend rules for the future conduct of the Challenge Grant Program. Nr. Hook reported that the Fellowships committee was of the opinion that it would be worthwhile to consider a proposal that challenge grant applications be channeled to the various divisions of the Endowment and treated as other applications. Mr. Hollander reported that the Education committee reached the opposite conclusion. It was their opinion that challenge grants are not project oriented and should not be judged for scholarly excellence.

In fact there has been some kind of "minimal quality" review; the Council does not want to see money put into worthless projects. Applications are first judged on their humanities content; if the proposed grant is not in the humanities the application will be rejected.

Challenge grant funds are limited, and many requests will be rejected or will be granted only in part. Those applications deemed to be the most worthwhile will be likeliest to be funded in full.

Mr. Ascher mentioned that at the present time a challenge grant is for one time only. There are no renewals.

Nr . Hollander said that he felt that the responsibility should be in the entire National Endowment for the Humanities, rather than in individual divisions, to distribute challenge grant money correctly.

Mr. Hook said he would like to supplement Mr. Hollander's remarks a litile bit. He agreed that the staff could decide whether or not an application indicated that a prospective grantee would use his challenge grant in the area of the humanities, but he felt that the staff could not judge two other questions:

1) The worth of a proposal. How does the application of $X$ humanities organization in county $Y$ rate in competition with other applications?
2) If $\$ 4,000,000$ in challenge grant funds are to be distributed as a result of recommendations made at the August meeting and the request for challenge grant support exceed $\$ 4,000,000$, who will decide which applicants are funded? In the Fellowships Division the committee feels that it mould like to judge which applicants should be entitled to an award (the committee made no objection to the awards made on the first day of this meeting, since the challenge grant procedures were just being worked out for the first time.)

The Acting Chairman said that it was not felt that competition would be among applicants in the Fellowships Division, or in any other division. Competition for challenge grants will be Fndowment wide because we are supporting fund-raising by institutions which carry out a broad range of activities not congruent with the NEH division structure.

Mr. Hook pointed out that certain applications had been assigned to the Feliowships committee and the committee felt that it should use its judgment on these applications. There is an element of worthiness in every application. Who is to pass on this? Or is any group which applies to be considered as eligible?

Mr. Kingston stated that the applications at this first round had been judged for "eligibility". He thought that this covered much of what Mr. Hook spoke of. An examination of yesterday's list of recomendations would disclose that no applications were received from ad hoc groups.

Nr. Hollander suggested that there might be a compromise position. The Council committees and the Council itself might serve as "another set of eyes" to look over challenge grant applications, but such an examination would not be as careful as that given to other applications.

Nr. Solow said that the OPA committee thought that perhaps there should be a separate staff member who would have responsibility for challenge grants and when in doubt could call on the staff to do research on a particular application. The criteria and values of challenge grants are different from those of the other Endowment grants. It is possible, for example, for half a million dollars to be awarded in a challenge grant even though the project is not an "excellent" one. Need can be the paramount consideration.

Mr. Franklin stated that the business of the divisions is increasing all the time. It is a bit burdensome for a division to do what it is supposed to do in its other activities and at the same time give its attention to this new program. During in-house review this summer, consideration should be given to setting up a separate office for challenge grants. Decisions could be made by this office and the Chairman.

Mr. Kingston said that Mr . Goodell has served in this function. Perhaps a separate office should be created outside the Chairman's offict

Mr. Madsen asked the Council to renew consideration of Mrs. Ahmanson's suggestion made the previous day, that a committee of the Council might be established to consider the procedures to be used by the staff and Council in arriving at recommendations on challenge grant applications. He pointed out that in these grants the Endowment is buying hardware, underwriting the support of new security systems, buying computers, etc. It is important that we know that there will be a payoff for the humanities in these grants. He suggested that perhaps each State Humanities Committee might look through the applications from its State and recommend several of them. He had discussed this matter with Mr. Marshall.

Mrs. Ahmanson said that the Public Programs Division had received a large number of applications, sixty-nine in the Museum Program alone. She felt that the Museum Program should be consulted about such applications and did not think it proper that States should enter into the Challenge Grant Program selection process. They are now legally able to make challenge grants of their own. However, most of them do not have resources in the museum field and this is probably true of a large number of other specialized areas. Mrs. Ahmanson then moved and Mrs. de Kleven seconded the following resolution:

Resolved that the procedures for handling the new Challenge Grant Program be a point of discussion between a committee of Council members, including the Chairman of each divisional committee and representatives of the staff, who will examine not only current procedures but long range planning for this program.

This resolution was unanimously adopted.
Mr. Kingston said that he would make sure that a committee, such as that described in the resolution, would be convened before the next challenge grant applications are presented to the Council.

Mrs. Rockefeller remarked on a strong move by Congress to get the humanities money distributed more evenly across the country, and she agreed that we should follow this desire. She believes that there is a swing away from the cities in people's minds, because they think of them as containing large rich institutions. She would ask the National Council and the siaff of the Endowment to remember that cities are older communities and in a great deal of trouble now, yet they are the homes of great institutions which draw millions of people to important humanistic activities. She would like to be an advocate for the cause of the cities and she feels that cities should not be discriminated against. The big institutions are in more financial trouble than the small ones and we should keep a balance on this. Mr. Franklin agreed with her, pointing out that the cities are the preservers of our civilization and of the humanities. In response to a question from the Acting Chairman, Mr. Franklin suggested that a formal "sense of the Council" motion was not necessary at this point, but the Acting Chairman asked the Secretary to ensure that the minutes fully reflected this Council sentiment.

Mr. Franklin also pointed out that he had not been able to find the name of a single predominantly black institution in the list of applicants for challenge grants. He asked the Endowment to make a special effort to publicize the Challenge Grant Program in this area.

The Acting Chairman said that he would ask Mr. deChaby to explore the possibility of a special mailing to institutions of this type and said that we would try to get in touch in other ways with predominantly black institutions.

## Cooperation with Arts Endowment

The Acting Chairman reported that the National Endowment for the Arts also has a Challenge Grant Program and major museums have applied to both Endowments. The National Endowment for the Humanities has made grants to many more institutions than the Arts Endowment, which has made larger grants to a smaller number of institutions. The grantees were notified informally of the pending Arts Endowment aws a couple of weeks ago. This Endowment made its awards known on May 12th. There are now eight joint grantees. We have asked Miss Hanks whether both Endowments should make joint grants. She and the National Council on the Arts did not think that this is appropriate. They suggested that the two Endowments divide up the joint grantees and some become grantees of the Arts Endowment and others of the Humanities Endowment, but the Humanities Endowment did not think that this was appropriate because it might be taken to imply, incorrectly, that the two programs were interchangeable. The Acting Chairman asked for the opinion of the Council, pointing out that there was really no duplication since the Arts Endowment had in the past supported arts projects at the various institutions (all of them museums) and the Humanities Endowment had supported humanities projects in them. Mr. Hollander agreed that there should be cooperation on this point. Mr. Solow said that he has felt that there has been a sense of competition between the two Endowments. The Iuncheon on May l3th was the first opportunity he had had to meet with the National Council on the Arts during his five years on the Council. The Acting Chairman said that there had been competition between the Endowments and that the Iuncheon today might be a step toward lessening this competition. He believed that the National Council on the Arts will be willing to establish a joint Council committee to consider challenge grants. Mrs. de Kleven moved that such a committee be established and Mr . Solor seconded the motion. Mr. Franklin said that he hoped that this would go further and that this would only be a beginning step in cooperation between the two Councils. The motion was adopted unanimously.

## F. State Humanities Programs

Mr. Kingston said that the State Humanities Committees had been notified of the legal changes made by the amendments to the National Foundation on the Arts and the Humanities Act last October, and that these amendments give them a broader program mission. It is expected that the program will grow larger and that the State Committees will become increasingly independent of the Endowment. Geoffrey Marshall is Acting Director of the Office of State Programs, a new organizational element, which has been created to stress the importance of this program.

Mr. Marshall reviewed the impact of the new legislation and the reaction of the State Committees and the States themselves. There have been three major points of impact:

1) The legislation now provides, specifically that not less than twenty percent of the Endowment's program funds shall be used for the State Program. This provision merely incorporates in the legislation a practice which the Endowment has been following and it will not create any practical change in the program.
2) The legislation now imposes certain criteria on State Committees in order for them to be eligible for support under this program and it requires submission of an annual plan of operations by each committee. Of the criteria for eligibility of a committee the only new criterion is that at least two members of a State Commitiee must now be appointed by an appropriate officer or agency of such State (usually the Governor). The other criteria are ones which the Endowment has imposed in the past, such as establishment of a membership policy, which is designed to assure broad public representation and provision of a nomination process, which assures opportunities for nomination to membership from various groups within a State.

As of the date of this meeting plans have been submitted by committees in all of the fifty States and by a committee in the Commonwealth of Puerto Rico. These plans were submitted after the Acting Chairman had written to each Governor about the change in the law and after each State Committee had itself contacted the Governor of the State. So far eighteen States have on their committees two members
appointed by State officials and it is expected that a majority of the State Committees will have at least two such members before mid-summer.
3) Under the amendments of last fall the State Committees, rather than the Endowment, will determine the nature and extent of the program in each State. This has been interpreted, both by the Endowment and by the committees, as creating new opportunities and both groups are in favor of it. It is expected that some of the State plans submitted in October 1977 will provide for expanded programs implementing the 1976 amendments to the Act.

Mrs. de Kleven asked for all the information on the New Mexico Committee, list of activities which they intend to fund, plans for new projects areas, etc. Mr. Marshall said that this information would be provided.

## G. American Issues Forum -- Final Report

Mr. Kingston brought to the members' attention the "Summary Report on the American Issues Forum" dated May 1977. This was a serious Bicentennial program, the first program attempted by the Endowment which was on such a large scale; as it turned out there were some successes and some failures, but all in all it gave the Endowment a magnificent opportunity to learn from this new venture. Projects varied from unfunded local projects in such towns as Mount Hope, West Virginia to $\$ 250,000$ spent in San Francisco, California. Vietnamese refugees used the program calendar for "Americanization" in Albuquerque and there was a nationwide $\$ 2,000,000$ youth debate program. involving over 140,000 young persons in active research and discussion. The Endowment decided to find out about the Forum by talking to the people who took part in it -- 200 of them in fact, who represented a cross-section of Forum participants. Since the Council has already been informed about the Form's...varied and sometimes spectacular successes, it was thought it would be most useful at this meeting to concentrate on those things which did not work as well as had been hoped. It is by examining such matters that the agency can find out about itself and grow. Areas of difficulty includt

1) From original intentions to merely "present" the Forum to the public, NEH became active in promoting it, funding it, and coordinating it. And this new role for the agency brought problems, some anticipated and some not anticipated.
2) AIF was a difficult program to develop because of problems of time, top level endorsement, planning strategies, staff, and full agency direction.
3) People gave 3 primary motives for participation: The Calendar, interest in public discussion, and self-interest.
4) National organizations are critical, but should be selectively approached for specific tasks, not randomiy solicited. Also, coordinated and well promoted national programs can bring attention to the program and create widespread interest.
5) The television medium is critical as a central focusing medium, supported by the newspaper and radio media. WNET/13's Ourstory, Course by Newspaper, and National Public Radio's "Radio Forum" were all successful, but would have been enhanced by network television programs.
6) Corporate support was disappointing, except for the Exxon grant to support the insert placed in magazines. Problems were related to timing, confusion about the Forum, concerm about Government pre-packaged programs, some fear of controversy, and the "Bicentennial label".
7) On the State and community level, where the Formm was most successful in the hundreds of spontaneously developed local activities, it was found that it was most effective where some local person at the State or community level took responsibility for developing and coordinating work.
8). NEH's State Program was active in the Forum, funding $\$ 1$ million in local projects, but the response was uneven Irom State to State. For any future Formmtype enterprise, the State Program is the essential link between the national goals and the community projects.
8) The NEH-sponsored urban projects provided us with the first systematic attempt on this scale to reach urban neighborhoods with humanities programs. That these four committees, formed for this purpose only, were able to accomplish this objective and provide us with some sound models for urban humanities programs is clear; that they also had serious problems is also clear -- and we can learm from both.

In the opinion of the participants, the Endowment was successful in providing the American public with an opportunity to reflect on and discuss basic issues during the Bicentennial year. It was not as successful in making an impact with American Issues Forum as a national program. The great majority of participants in the field study felt that another national issues program was desirable, but that changes should be made, as indicated in the above paragraphs. The Acting Chairman asked the members for such comments as they might have after reading certain books on American Issues Forum, which were distributed at the meeting.
H. Fiscal Year 1978 Appropriations and Supplemental Appropriation Request for Fiscal Year 1977

Mr. Tashdinian discussed the paper "NFAH Supplemental FY 1977 Appropriations" with the covering memorandum dated April 20, 1977 and the paper "NFAH FY 1978 Appropriations" dated May 12, 1977.

## I. Federal Reorganization

In discussing Federal reorganization, the Acting Chairman and Mr. Tashdinian outlined for the Council some plans to create a Depariment of Education at the Cabinet level, which have been introduced in Congress under several bills. Mr. Nisbet suggested that the Endowment and the National Council on the Humanities should not take a position on this legislation, except as it affects the Endowment. He is concemed with the possible loss of the Endowment's autonomy. The thought of the Endowment being swept into a new Department of Education, or into the existing Department of Health, Education and Welfare, or some other new bureau, is a bleak prospect. This is a terribly important matter for the National Council on the Humanities and he thinks that the Council should have two or three hours to discuss this when reorganization plans for the Government become clearer. The Acting Chairman suggested that perhaps the Endowment should plan a course in this matter, not just react to plans made by others.

Mr. Varner said that he had worked with both the Arts and Humanities Endowments, and felt that the two Endowments have drif'ted apart to some extent and that this is undesirable. He would like to try bringing the two closer together. Also, he has worked with the National Science Foundation, and closer links with that Foundation might be good. He could not say he was opposed to a reorganization involving NSF until he saw further details. The Acting Chairman suggested that other agencies, including the National Historical Publications and Records Comission, do work which is close to ours and there might be advantages to being included in a larger body with them. Nr. Varner said that he did not understand the functions of the Commission and the other agencies well enough to make a judgment on this point at this time.

The Acting Chairman suggested that the staff might put together a list of smaller agencies with which the Endowment's mission has something in common, and which could be considered if there is to be a reorganization. He said that he might call a special meeting of the Chairmen of the divisional committees to discuss this subject should events suggest it; otherwise he would give the Council information on it at the next meeting.

LUNCHEON GIVEN BY THE NATIONAL COUNCIL ON THE ARTS
(No Agenda Item)
The Acting Chairman and the members of the Council were guests at a luncheon, given by the National Council on the Arts, in the Chinese Room at the Mayflower Hotel.

## CHATIFNGE GRANT APPLICATIONS (Continued)

(Agenda Item V.)
Cooperation with Arts Endowment
At the luncheon there was a great deal of discussion of the eight institutions which were receiving challenge grants from both Endowments.

Thereafter Nrs. de Kleven suggested that joint grants be made in the names of both Endowments, but the Acting Chairman reported that the Arts Endownent had turned this suggestion down a week before. He suggested that each Endowment has explained that it gives grants for different reasons. It would be possible and reasonable for the Endowments to cooperate and make joint grants,--but it would be illogical for one Endownent to say that a certain institution has already been fully taken care of because the other Endowment has made a grant to it. Mr. Franklin pointed out that to do this might violate the legislation, which does not permit this Endowment to give money to support the arts. He said that he would find it hard to justify a reduction in NEH support to any of these grantees on the basis that they are receiving a grant from the National Endownent for the Arts. Nr. Hollander said that he felt that the Acting Chairman should be supported by the Council, and that they should give him the flexibility needed to maneuver in this situation. The staffs can work the matter out. Institutions which applied to both Endowments under the guidelines issued by the Endowments, should not be penalized for doing so.

The Acting Chairman said that the Humanities' announcements to Congress and the public had been made on May l2th, the preceding day, and that recipients of NEA grants had been informally notified by that Endowment some weeks previously. Mr. Franklin said that he believed that the matter was now beyond the reach of either Endowment; the institutions have been notified, Congressmen have announced the matter to their constituents, and the public has been informed. Mr. Solow suggested that some of the institutions might withdraw their applications from one Endowment or the other and the Acting Chairman agreed that this would be possible, but he felt it was unlikely that the grantee institutions would happily agree to it. He agreec with Mr. Franklin that no Humanities Endowment grantee should have to accep: a lower total of support because of Arts Endowment action. Mrs. de Kleven said that she thought that the Humanities' grants should go through as previously approved. Nirs. Ahmanson suggested that it might help if a joint announcement were made on these eight grants by the two Endowments and the Acting Chairman agreed that this would be a good idea, but noted again that the Arts Endowment had expressed itself unwilling to do this.

Mr. Hollander offered the following motion:

> "Recognizing that embarrassment could ensue as a result of the relatively high aggregate funding from both Endowments to the eight specified institutions, the Council gives the Acting Chairman the greatest latitude in implementing, in consultation with the Chairman of the National Endowment for the Arts, its decision with respect to the eight specified institutions; and it further asks the Endowment, in consultation with the National Endowment for the Arts, to devise a means of discouraging institutions from applying for Challenge Grants simultaneously to both Endowments in the future."

The resolution was duly seconded and unanimously adopted.
Mr. Hart asked the Acting Chairman what action he would prefer. He said that he had not had any experience, of course, in a similar situation, but he would prefer to go ahead on the Council recommendation and prepare a defense if outside sources attacked the two Endowments for making grants to identical grantees. He accepted and fully concurred in Council judgment that it would be improper for this Endowment, because of any action by the Arts, to reduce all or eliminate any of the approved humanities awards. He felt that what the Humanities Endowment has done in approving the awards was perfectly proper, as is the similar action taken by the National Endowment for the Arts. Mr. Franklin suggested that the Acting Chairman and the committee of the two Councils explore other administrative possibilities. The Acting Chairman said that that was fine with him and that the staff would dc their best to resolve this matter.

Mrs. Ahmanson suggested that the National Council on the Humanities might invite the National Council on the Arts to a lunch in August, if the two Councils were meeting at the same time. (This will not be possible, however, since the National Council on the Arts is meeting August 12-14 and the National Council on the Humanities is meeting August 18-19.)

## DIVISION OF RESEARCH GRANTS

(Agenda Item VI.)

## A. Report on Committee Discussion

Mr. Hart reported that although the ACLS application for grants-in-aid (RO-24348-76-473, Supplemental 1.) was being recommended for funding, there was considerable questioning of it in the committee, which raised the question whether the Endownent should not award grants-in-aid directly, rather than going through ACIS.

He also reported that the comittee expressed a desire for a more reflective meeting which would not concentrate so much on grants but would face the general question of where the. Endowment is going. The agenda for such a meeting might be prepared by the staff.
B. Action on Applications

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 44:40-53 of Appendix C be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

Applications Recommended for Disapproval and Deferral
The Council recommended for disapproval and deferral those aplications listed on pages 44:54-57 of Appendix D.

The Council members named below took no part in the discussion or vote on the following applications:

RT-23731-76-308
RO-24348-76-473
RO-25459-76-959
H-26282
H-27092
H-27414
H-27611
H-27613

Mr . Hollander
Mrs. Gray, Mr. Nisbet Mrs. Gray, Mr. Nisbet
Mr. Hollander
Mrs. Ahmanson, Mr. Kilson, Mr. Madsen
Mr. Nisbet
Mr. Hook
Mrs. Ahmanson, Mr. Kilson, Mr. Madsen

| H-27704 | Mr. Hook |
| :--- | :--- |
| H-27741 | Mrs. Gray |
| H-27762 | Nrs. Ahmanson, Mr. Kilson, Mr. Madsen |
| H-28118 | Mrs. Gray |
| H-28716 | Nr. Hollander |

Mr. Wolfe asked why application H-27804 "Channel Islands Survey", which originally asked for $\$ 21,500$, was recommended for an award in the amount of $\$ 31,500$. Mr . Cannon explained that the original budget was in error and that the recomendation reflects the corrected amount.

## DIVISION OF EDUCATION PROGRAMS

(Agenda Item VII.)

## A. Report on Committee Discussion

Mr. Hollander invited any member of the Council to communicate with the Education committee on any Education application in the agenda book which was of particular interest to the member.
B.-G. Action on Applications -- Development Grants -- National Board of Consultants -- Elementary and Secondary Education Program -- Higher Education Pro,iects -- Humanities Institutes -- Humanities Institutes Demonstration Grants

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 44: 58-63 of Appendix $E$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

Applications Recommended for Disapproval and Deferral
The Council recommended for disapproval and deferral those applications listed on pages 44:64-65 of Appendix F.

The Council members named below took no part in the discussion or vote on the following applications:

| EH-25611-76-755 | Mrs. Rockefeller |
| ---: | :--- |
| H-27085 | Mr. Hook |
| H-27882 | Mr. Hook |
| H-27921 | Mrs. Gray |

## DIVISION OF PUBLIC PROGRAMS

(Agenda Items VIII. A \& B)

## A. Report on Committee Discussion

Mr. Madsen said that since the Office of State Programs has been established as an office independent of the Division of Public Programs, his committee at this meeting had to pass on applications coming from two separate staff groups.

Certain applications were brought specially to the Council's attention. In the Media Program, H-28099, American Short Story II, a grant of $\$ 350,000$ in outright funds, plus $\$ 2,000,000$ in gifts and matching funds was recomended for Learning in Focus, Inc. The earlier Short Story series has been well received by the reviewers and the public. This application has received good reviews. A blue-ribbon panel will choose the stories to be presented.

The committee felt that the Museums and Historical Organizations Program had done an excellent job in supporting applications from institutions which are widespread geographically and which will present a great wealth of material to the public throughout the country. Application H-28121 (Appendix G, page 44:73) is a grant to the Museum Associates, Ios Angeles County Museum of Art for the exhibition of the Treasures of Tutankhamun. This is a supplemental grant to permit free admissions to the Museum during this exhibition. The Los Angeles Museum cannot charge admissions under their charter and it is expected that the large number of persons wishing to see this exhibit will add to the Museum's general costs. Miss Englander explained that most other museums charge admission. This grant is consistent with grants made to other museums. Mr. Franklin said that he is the trustee of a museum which revised its charter ten years ago to permit the charge of admissions to the public. For that reason he voted against approval of this application. The recommendation for approval of all the Museums and Historical Organizations applications listed in Appendix $G$ was approved unanimously, except for Mr. Franklin's vote in opposition to $\mathrm{H}-28121$.

Mr. Hook drew the Council's attention to two media proposals, H-28096 to the University of Maryland "Philosophical Perspectives on Public Policy" and H-28115 to KCET-TV, "Guidebooks". He had raised certain objections with the committee, which are addressed by the conditions recommended for these grants in Appendix G.

## B. Action on Applications

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 44: 66-75 of Appendix $G$ with conditions specified on pages 44:76-83 be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval

The Council recommended for disapproval those applications listed on pages 44:84-89 of Appendix H.

The Council members named below took no part in the discussion or vote on the following applications:

$$
\begin{array}{ll}
\mathrm{H}-28083 & \text { Mr. Madsen } \\
\mathrm{H}-28087 & \text { Mrs. Ahmanson } \\
\text { H-28115 } & \text { Mrs. Ahmanson } \\
\text { H-28121 } & \text { Mrs. Ahmanson } \\
\mathrm{H}-28129 & \text { Mrs. Rockefeller }
\end{array}
$$

After the motion for disapproval had been passed, Mr. Kingston drew the Council's attention to the first application in Appendix H, H-28102, from WVIA-TV/FM "Understanding Congress". He said that after this application came in (following the preliminary application which was recomended for rejection at the February meeting), it was sent to panelists, and the staff thought that the panelists' comments should be brought to the attention of Congress. He and Mr . Hagan visited the Speaker of the House and his staff and Congressman Brademas and his staff. All those concerned recognized the sensitive nature of the film and the good will and energy of the project director. Mr. Kingston indicated that the Council had expressed its interest in a film on Congress and would make an effort to see if it would be possible to recommend some person with large experience to undertake a film of this type. Mr. Kingston had told Mr. Brademas that he would not tell the Council of this conversation until the Council had actually acted.

## OFFICE OF STATE PROGRAMS

(Agenda Items VIII. C \& D)

## D. Action on Applications

The Council recommended that the applications listed on pages 44:90-91 of Appendix I be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## DIVISION OF FELIOWSHIPS

## (Agenda Item IX.)

B. Action on Applications - Centers for Advanced Study

The Council recommended that the applications listed on pages 44: $92-93$ of Appendix $J$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.
C. Action on Applications - Fellowships in Residence for College Teachers

The Council recommended that the applications listed on pages 44: 94-96 of Appendix $K$ be approved for grants or contracts from definite appropriations.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-27963$ | Mr. Hook |
| :--- | :--- |
| H-28651 | Mr. Hook |
| H-28678 | Mr. Frankl in |
| H-28679 | Mr. Frankl in |
| H-29105 | Mr. Hollander |

## OFFICE OF PLANNING AND ANALYSIS

(Agenda Item X.)

## A. Report on Committee Discussion

At Mr . Solow's request, Mr. Tashdinian presented the repori of the committee. The committee had discussed the appropriations request for the Endowment and the evaluation done by the staff. The committee was impressed with the thoroughness and excellence of the evaluation activities of Miss Krimgold and her staff.
B. Action on Proiect Applications

## Applications Recommended for Approval

The Council recommended that the applications listed on page 44: 97 of Appendix $L$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and matching funds released thereby up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

Mr. Tashdinian drew the Council's attention to application H-28120 from the Brooklyn Educational and Cultural Alliance for the "Development of the Pilot Phase of a Community-Wide Institutional and Public Humanities Program on the Heritage of Brooklyn". This application from nine hard-pressed cultural institutions has a large amount of risk, but it seemed to the committee to offer the possibility of a model "resource-sharing" and "mutual support" grant for similar urban institutions. Five reviewers called together by the staff spent two days on a site visit in Brooklyn and concluded that this was an important project. They recommended strengthening the leadership of the BECA Board and also felt the individual projects should be strengtl ened. Among the conditions recommended for this grant were l) that additional subject and area specialists be used and 2) that the accountability of the BECA Board should be reenforced -- at least five of the nine members of the Board should approve any project.

## Applications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those applications listed on page 44:98 of Appendix M.
C. Action on Science, Technology and Human Values Applications

The Council recommended that the applications listed on page 44:99 of Appendix $N$ be approved for grants or contracts from definite appropriations.

The Council members named below took no part in the discussion or vote on the following application:

H-28362 Mrs. Ahmanson, Mr. Kilson Mr. Madsen

Mr. Tashdinian drew the Council's attention to application H-29021 from George Washington University for $\$ 6,000$. This would ordinarily have been a Chairman's Grant, but the Acting Chairman does not wish to make any awards without receiving a recomendation from the Council.

## Youth Programs

The Youth Programs staff informed the committee of their dissemination activities -- 27,000 copies of the Youthgrants poster and pamphlet have been sent out, including copies sent to all members of Congress. Some members have asked for as many as 2,000 copies to distribute to schools and young people in their districts.

The staff also described the more aggressive role they are planning to take in identifying and encouraging the development under the direction of professional humanists, of out-of-school humanities projects for large groups of younger teenagers. They plan to offer a series of small planning grants that will enable humanists to work with institutions or organizations (such as museums, libraries and youth organizations), to design a program that could be conducted by the organization or another source. It is especially hoped that this opportunity will stimulate the interest of bright, young, but unfortunately unemployed Ph.D.'s to develop such projects. These planning grants would be quite small and structured so as to minimize administrative costs and staff time, and to enable the program to make as many awards as possible. The committee saw a great deal of value in this approach and hopes these planning grants will generate applications that will appear before the Council later in 1977. Subsequent planning for the project will depend upon this year's experience.

The meeting adjourned at 4:05 p.m.

II. The Council recommends the motion printed below. Background: In February, 1975, the National Council approved a program of matching on a two-for-one basis gifts received by state conmittees for the exclusive purpose of support of committee administraa dine motion proposed below will enable the Endowment to match gifts received under the original offer, but not required by the committee's budgets at the time of donation. The motion will permit a series of special, one-time grants, typically covering a two-year period, to match private gifts, already in hand in committee offices, given by the donors exclusively in suppert of
( ntation of receipt of gifts for the purpose of committee administration prior to the date at which the offer of such match expires for the comnittee's current grant.
Motion:

John W. Wolfe

* It is provided in Section 8(d) of the National Foundation on the Arts and the Humanities Act that fourteen members shall constitute a quorum of the National Council on the Humanities. Since a quorum was not present on August 19th, the gathering in Washington did not constitute an official meeting. Certain of its actions were later ratified, however. (See for example Appendix A concerning recommendations made to the Chairman for the acceptance of donations.) For purposes of numbering the meetings, it will be considered as the forty-fifth meeting.
**Present on Thursday, August 18, 1977 only.

## COMMITTEE MEETINGS

(Agenda Item I.)
Separate meetings were held by the Committee on Education Programs, the Committee on Fellowships Programs, the Committee on Planning, the Committee on Public Programs (which also acted as a Committee on State Programs), and the Committee on Research Crants.

## Friday, August 19, 1977 <br> morning session

The meeting was called to order at 9:30 a.m. by Mr. Robert J. Kingsion, Acting Chairman. A call of the roll showed that no quorum was present.

MINUTES OF THE PREVIOUS MEETING
(Agenda Item II.)
The members present approved the minutes of the 44 th meeting held on May 12-13, 1977.

## REPCRTS

(Agenda Item III.)
A. Summary of Recent Business and Introduction of New Staff Members

Mr. Kingston reported that the Senate Committee on Human Resources was expecting to hold hearings early in September on President Carter's nomination of Joseph D. Duffey to be Chairman of the Endowment.

The Acting Chairman aiso referred to the meeting of a Special Committee on Challenge Grants with members both of the Council and of the Staff constituting the Committee. The meeting on July 8th was an indepth discussion, which has proved extremely useful to the starf because it enabled Council members to provide specific guidance on the operation of this new program and on particular policy issues within the program.

The Endowment has had to accomplish more than usual since the last meeting with an administrative reorganization of the National Foundation on the Arts and the Fumanities and three new programs getting under way:

Challenge Grants - This is a novel program of unusual difficulty which nas entailed a great deal of staff work. He was happy to report that the program does seem to be working and is expected to continue to be successful.

Supoort for Scholarly Publications - The division's new program to support publication costs of the products of Endowment grants was inaugurated with a July lst deadine which attracted 26 applications, two of which were withdrawn. A panel of scholars was convened to advise the Endowment on the intellectual significance of the manuscripts presented by these proposals; this was followed by a panel of publishing experts who were asked to advise us on the practical aspects of the proposals. This purpose has resulted in fourteen of these applications being recommended at this meeting for consideration. The total cost of these fourteen is just over $\$ 90,000$. The Congressional appropriations comittees last year urged the creation of this program; they have since apolied specific limits to the grants made therein and continue to show lively interest in its progress. It is clear that our newest grantee constituency is warmly interested in this new category of funding and generally aporeciative of the steps the Endowment has taken in response to that Congressional directive.

Translations - More than 240 applications were received in this new program of the Research Grants Division against the April Ist deadline. The program is open to all languages but has an announced oreference for East Asian and Middle Eastern languages. Its principal purpose is to make works of usefulness to scholarship more widely available. In so doing, it seems likely that public understanding of hitherto remote and truly "foreign" cultures will be promoted.

All three of these programs are for the support of established institutions and the Congress supported all three of them. The "visibility" of the Endowment was also raised during Congressional hearings. The Endowment's programs try to enlarge the audience for the humanities, the new programs indirectly and the older ones more directly.

The Endowment's programs are far-reaching. Recently Leeds Barroll spoke of "cradle to the grave culture" the reach of our programs is indeed far-reaching:

Elementary and Secondary Education - On May 25, 1977 the Culture Education Collaborative of Boston announced the beginning of a threeyear project to prepare and implement elementary and high school curricula that take advantage or the unique resources of the cultural institutions of the area. The announcement was made at the State House by Mrs. Joan Mondale, Governor Michael Dukakis, representatives

Of the State Department of Education, and Dr. William Russell of the Endowment. The grant of $\$ 223,853$ will involve more than 15 museums, 425 school teachers, and 50,000 elementary and secondary school stiadents.

Elementary and Secondary Teachers - This summer approximately 1600 teachers from elementary and secondary schools across the country participated in institutes sponsored by the mlementary and Secondary Education Program designed to improve their teaching through work in academic disciplines and curriculum development. The institutes embraced such subjects as foreign languages, expository writing, Asian studies, ohilosophy, Aírican studies, children's literature, Jewish history, and the study of Shakespeare in performance. During the forthcoming school year the teachers will use these new skills in their classes and participate in extensive follow-up activities to evaluate and revise their work in progress.

College Teachers -- Summer Seminars - The Summer Seminar program is thriving. Staff members have visited 52 of this summer's 106 seminars, including nearly all seminars being offered for the finst time. Ne have received 358 appiications to offer first-time seminars in 1978, including several apparently very good ones in fields which have not been covered in previous jears, such as the history and philosophy of science and Afro-American literature.

Scholars -- Independent Fellowships - We have receired I, 750 fallowshio applications, a small increase over last year. Paneis are meeting this month and the quality seems to be as high as ever.

Museums - In Museums and Historical Organizations, the Tutankhamun exhibition has continued to receive an incredible response from the American public. The Field Nuseum in Chicago has shown the exhibition for 90 hours a week since it arrived there, with the result that 1.3 million people in the Midwest have now had an opoortunity to see it. The exhibition will open in the middle of next month in New Orleans, and members will have an opportunity to see it there when the Council meets in November.

Television - This Fall the Division is looking forward to a television season which will bring the results of some of its best grants to the public. PBS has chosen to highlight its Fall season with "The Best of Families", a nine part series on American social history from 1890-1910. "The Best of Families", produced by the Children's Television Workshop, for adults, not children, is based on the work of some of America's strongest historians. In addition, a four-pari series on "Liberty" will begin in early September with an opening
program on the right to work. This series, produced by WNET with Charles Frankel as the principal, will be one of television's most serious efforts to date to deal with complex philosophical questions. In addition to these two new series, the Fall season, will bring repeated showings of "The American Short Story" series and Charles Dickens' "Hard Times".

Professions - We received 759 applications to participate in the 24 seminars for the professions being offered this summer. Approximately 300 participants were selected. Staff members will have visited 22 seminars by the end of summer, including all seminars being offered for the first time. We have received llo applications to offer first-time seminars in 1978.

The Aged - In the Program Development area of the Public Division, the National Council on the Aging's efiorts to bring the humanities to senior centers around the country has received an unprecedented response. Demands for their humanities materials and programs have far out-stripped the ability of the National Council on the Aging to respond.

Youth Programs Cooperative Effort with AFI-CIO - The Youth Programs of the Endowment has been asked by the AFI-CIO and the National Alliance of Businessmen to cooperate with a national program they are sponsoring this summer called Vocational Exploration Program (VEP), which places disadvantaged youth in an educational summer work experience. The VEP Program is funded through a $\$ 5$ million contract by the Department of Labor, using Comprehensive Employment Training Act funds (CETA), to enable young people to expand their awareness and understanding of work and career opportunities. The purpose of the Endowment's liaison with the VEP Program is twofold: to help humanities institutions utilize the resources of the CETA programs locally; and to assist humanities institutions and organizations in developing an outreach and relevancy to their immediate communities.

## Staff Activity

The staff shortage which has long been a concern of the Council is a continuing one. This shortage has prevented the staff from getting out in the field as much as it should in order to evaluate our projects or to assess the relevance of our programs. Even while the Administration increased our grant money, a new personnel ceiling will prevent us from growing to the level envisioned earlier this year; hopefully it will be possible to bring the two resources of money and staff into balance. Without additional staff the new initiatives described in the budget plan cannot be undertaken.

However, within these limitations, staff have conducted a number of meetings around the country in order to develop relationships with new constituencies or build up relationships with certain sectors of the field which do not fare so well in the application process (e.g. Education Division dissemination meetings, see also attached items on Special Youth Projects):

Incraasec Fndowment Visibility
Constituency Conferences - From August 2 to August 5 the Division or Education Programs sponsored a dissemination conference in Calieomia. The purpose was two-ِ̂old: to provide faculty from institutions that are located in isolated areas or the country and have had little contact with NEH with detailed information about our more successful programs for the strengthening of the teaching of the humanities; to provide consultants to the participants, who devote a certain proportion of their time to discussing ways of improving the humanities programs on their campuses.

Thirty-three institutions from the following states and territory sent three faculty members to the conference: Alaska, Arizona, Jaliformia, Colorado, Guam, Hawaii, Montana, Nerada, New Mexico, Cregon, Utah, Washinguon. Ten of the participating insuitutions were community colleges; of the rest, fir̂teen were publicly supported and eight privately-supported institutions.

Since August 1976, the Division has sponsored ilive such conferences (in Texas, Florida, and Minnesota). A substantial number of participants in previous conferences has submitted applications for support in the Consultants and Pilot Programs.

Continuing Education - On July lsth the Division of Education Programs sponsored a conference on continuing education here at the Endowment. Twelve consuitants experienced in the fieid or continuing education discussed ways in which the Endowment mignt encourage the improvement of the teachirg of the humanities in institutions servicing the so-called adult learner. The Division has decided to make a special effort to encourage proposals in this area.

Planning Grants in Public Division - At this Council reeting the Public Division marks the compietion of one year of a systematic effort to make planning grants to a large number or media organizations, museums, and historical organizations across the country. This effort has now put the Endowment in contact with a much broader base of apoiicants in these constituencies and should lead to a much greater capacity for choice on the part of the Endowment in the Iuture.

Personal Site Visits - During July Harold Cannon made site-visits to Endowment-funded projects in England, Greece, and Turkey. This was the first time an Endowment starf-member had had the opportunity to review firsthand some parts of the Endowment's considerable investment in Nediterranean archeology.

State Histories - Since the last meeting of this Council, authors of state histories in the States and the Nation series have made formal presentations of copies of their works to the Congressional delegations of Kansas, Colorado, Nest Virginia, Delaware, California, Florida, and Michigan, and to the governors of South Dakota and Wyoming. A similar ceremony was also held for members of the D.C. Council. These Washington ceremonies have been most effectively and efficiently arranged by Judy Neiman, and it seems they have been extraordinarily productive both in media coverage and in improving relations between the Endowment and the Congress.

## B. NFAH and NEH Reorganization

It has been difficuit for the Shared Staff to serve both the Arts Endowment and this Endowment. The geographical distance between the buildings of the two Endowments made joint service more difficult and the programs diverged because of the different constituencies served. Each Chairman needs a staff responsive to his policies, and with the approval of Congress and the Office of Management and Budget the Shared Staff will be abolished with the coming of the new fiscal year on October lst. Victor Loughnan will be the new Director of Administration.

Mr. Loughnan said that many of the problems of the Shared Staff would be eliminated by this reorganization. One other problem also has proven difficult -- the Shared Staff members felt that they worked neither for the Arts nor for the Humanities. Now the employees who are continuing with this Endowment can identify more closely with us and this should engender greater enthusiasm and loyalty. The Shared Staff is looking forward to this change.

OPA Reorganization - The Office of Planning and Analysis ceases to exist at the end of this Council meeting. The core of its old duties will be taken over by the new Office of Planning and Policy Assessment which will conduct studies, both in house and with the assistance of outside organizations.

The Office of Planning and Analysis had become the catchall of the Endowment. The Youth Programs, Special Projects, and Science, Technology and Human Values section have been transferred now to the Chairman's Office as special programs.

Mr. Tashdinian said that this new organization unit has been required in order to give full attention to the needs of the humanities. He had amoivalent feelings on the change because he regarded each of the various OPA activities as important and challenging, but basic planning needs much greater and sustained attention. Now it will be possible
for the Crfice of Planning and Policy Assessment to investigate resources and potential resources in the humanities and to examine oroblems and needs oi the humanities. All of this Nill assist the Chaimmen to formulaie sustainable glans to help the humanities in the Jnited States.

Wr. Kingston said that the committee structure would remain generally the same, Fouth Programs, Special Projecis and the Science-VaIues oroposeis would stily go to the Planning commitiee.

In concluding his remarks the Acting Chairman said that a Council policy group could also be useful to the Chairman -- perhaps something in the nature oî an executive commitiee made up oî Chairmen of the various comittees. Perhaps this policy commitiee may meet one exira day in advance of the Council meeting. He will draw the ヨuvention or the new Unainman fo this.
J. Flection of Vice-Chatman of the Council

Trose members of the Councir oresent, not a quorum, nominated irr. Foliander for the vosition or Vice-Chaiman of the Council. The Acting Chairman directed the Secretary to send to ail memoers or the Courcil baliots naming VIr. Follander and permitting them to vote, if they wished, for ore of the other members whose terms extend beyond january 27, 1978. (Bailots were sen out and returned by the membership. Mr. Noliander was eiected as Vice-Chairman, his ذerm to commence january 27, 1978.)
D. ADDication Peport

Mr. Tashdinian presented the report oi apoiications summitted to the Fndowment during FY 1977 উhrough July, 1977.

## E. Gifts and Vatching Reoort

Mr. Tashdinian presented the paper on "Gifts Received, Fy 1977" Thich was prepared as of Augusi 18, 1977. Fe said that it would be necessamy For the Endowmen to controi the matching morey more closely in the future in order to assure both that the matching authority was inlly used and that they were allocated to the highest priority projects. Mrs. Ahmanson said the Division oi Public Programs has found this prognam a useiul one to get the oubic involved and interested in the humanities. Mr. Tashdinian suggestad that it would be possiole for the Findomment to require a greater match than one-toone in order to release Federal Treasury runds, and suggested that other ways also might orove suitable to accomplish the same ends.

## F. Challenge Crants - Policy Discussion

The Acting Chairman summarized the results of the meeting of the Special Council Committee on Challenge Grants, which was held on July 8 th and said that in his opinion the meeting was an extraordinarily useful one. Mrs. Davies and Mr. Hollander agreed as did Mr. Nisbet. Nr. Hollander pointed out that problems still remain, such as the point which Mr. Franklin has raised about the future funding of the Endowment as it will be affected by Challenge Grants, and the problem that certain institutions apply both to this Endowment and to the Naiional Endowment for the Arts for Challenge Grant support.

Mr. Kingston reported that following the last Council meeting there was a special mailing on Challenge Grants to 120 black institutions. Seven black institutions have applied to the second round of Challenge Grants.

Mr. Franklin asked if the Committee had discussed the effect of the Challenge Grant Program on other programs of the Endowment. He mentioned particularly the effect on the staff and asked whether the large amounts of money coming under the Challenge Grant Program will cause distortions because the process of judging Challenge Grants is different from the normal grant judging process. There ought to be a study of these possible future effects. The Acting Chairman agreed that the Challenge Grant Program is one that is radically different from existing programs and he felt that Mr. Franklin's point was extremely well taken.

Mr. Nisbet agreed with Mr. Franklin and said that the Commitiee had discussed this problem, but that he did not know what the solution would be.

Mr. Franklin pointed out that the Council is closer to the humanistic community than is the Congress. It is up to the Endowment to watch the Challenge Grant Program and to study its impact on humanistic institutions and to report on this to the Congress.

The Acting Chairman said that he hoped that the Special Committee on Challenge Grants would continue to meet, not during meetings of the entire National Council on the Humanities, but rather between sessions to prepare reports. The staff needs a sense of the Council's advice on this program. Mr. Kingston also pointed out that the Endowment has been asked to provide a small committee to work with the

National Council on the Arts in connection with Challenge Grant overlap. This committee could serve that purpose as well. He pointed out that the staff was pleased with the results of the Special Committee's meeting. A small committee of the Council working with a small staff committee really seemed to produce good results. In response to questions, Nr . Goodell said that he thought that the Council might profitably look again at the guidelines established at the February meeting. During panel meetings a number of consultants suggested revisions of these guidelines and the National Council on the fumanities should consider these.

The Acting Chairman reported that the Challenge Grant Program is working. New funds amounting to $\$ 7.6 \mathrm{M}$ have been raised by grantees. Humanities institutions feel that this is a wonderful program, a godsend to the humanistic community. There have been 356 applications in less than six months and these applications have been good ones. The Endowment could fund with confidence a large percentage of them.

## Challenge Grant Resolution by National Council on the Arts

The Acting Chairmen reported that he had been present at the meeting Oí the National Council on the Arts on August 13, 1977, and that that body had adopted a resolution concerming Challenge Grant applicants who request support from both Fndowments. He said that he would furnish the wording or the resolution for the record at a later time. The wording was furnished to the Secretary of the Humanities' Council by David Searles in a draft dated $8 / 17 / 77$ of a paper called "Challenge Grant Guidelines FY 1979" of the National Endowment for the Aris. The wording of the policy statement by the National Council on the Arts, which is stated to be dependent on discussion with the National Council on the Humanities, is as follows:
"Because of basic differences in the Challenge Grant programs of the National Endowment for the Fumanities and the National Endowment for the Arts and because or limited funds in both programs to meet the needs, concurrent applications are discouraged and only in rarest instances would concurrent grants be made by the National Endowment for the Arts and the National Endowment for the Humanities.
"The National Council on the Arts considered the question of a grantee simultaneousiy receiving support from both the National Endowment for the Arts and the National Endowment for the Humanities under their respective Challenge Grant Programs. After a review of the legislation and the Congressional history, 1 the Council concluded that this kind of "double" funding should be avoided whenever possible to remain within the intent of the legislation as indicated in the legislative history, and in order to fund as many different organizations as possible with the limited monies presently available.
"Therefore, the Council recommends that:

- the Arts Endowment not award Challenge Crants to any organization while they are receiving assistance from the National Endowment for the Humanities except in the rarest instances noted above;
- in the case of applicant organizations being favorably recommended by both the Arts and the Humanities Endowments, the applicant organization be given the choice of which grant to accept;
- in special instances, it would consider applications on a case by case basis from organizations that have completed a Challenge Crant from the National Endowment for the Humanities."

NOTE: "1. The Conference Committee stated that 'in creating two separate challenge programs, the conferees wish to stress that each Endowment carry out two distinctly different missions relating to the arts and the humanities...' The Report goes on to state 'two wholly different programs will result....'"

After Mr. Searles had explained the Arts Indowment policy, Mr. Franklin asked if the policy meant that if a certain institution has received a Challenge Grant from the Humanities Endowment to develop a literature program, then the National Endowment for the Arts would automatically feel that the institution was ineligible for support in the field of music. Mr. Searles said that the Arts Endowment would generally feel that such an institution was ineligible, but the exclusion would not be "automatic". The original resolution adopted by the National Council on the Arts at its May meeting had included an automatic exclusion. Mr. Franklin asked if the Humanities Endowment is not forced into adopting this same policy by the action which the National Council on the Arts has taken. Mr. Searles said that this is not a take-it-or-leave-it proposition. The Arts Endowment would consider a change of policy. Mr. Lyman stated that he agreed with Mr. Franklin.

Mr. Searles discussed the reasoning behind the policy adopted by the National Council on the Arts. Some organizations in the constituency of the Arts Indowment receive major funding from both Endowments. The National Endowment for the Arts has a different approach to Challenge Grants than does the National Endowment for the Humanities -- they are tending to make substantial Challenge Grants to a comparatively small number of institutions. Also they construe the Congressional intent behind the Challenge Grant Program as discouraging "double dipping", and they feel that since the two Endownents have different programs, the institutional recipients should be different, but he stressed that the policy adopted by the Arts Council in August is different from the blanket prohibition adopted in May.

Mrs. Ahmanson said that she felt that museums should always be eligible for Challenge Grants from both Endowments since they serve both the humanities community and the arts community. Mr . Searles replied that Mr . Kingston had talked about this at the meeting of the National Council on the Arts, which did change the blanket prohibition adopted in May after his talk. However, the Arts Endowment received so many excellent applications for Challenge Grants that it would be loath to see some institutions "double dipping".

Mr. Hewitt pointed out that a university which received a big scientific grant from the National Science Foundation would not be considered by that Foundation as having received all the Government support to which it was entitled. Applicants for humanities support who have received such large scientific grants are not discriminated against in the Humanities' judging process. He feels that the rule of the National Council on the Arts affects the Humanities Endowment very directly and to some extent constitutes a fait accomoli arrived at without the Humanities Council taking part. Mr. Searles pointed out that the authorization legislation lumps the Arts and Humanities together, but does not include the National Science Foundation. Mr. Hewitt pointed out that under the policy adopted by the National Council on the Arts, whichever department of a university gets its application in first to either of the Endowments is the winner. Other departments are then foreclosed or hampered in receiving a Challenge Grant from the other Endowment for support of their activities.

Mr. Lyman said that although a Challenge Grant application is one from an institution as a whole, both Endowments will look at that institution and ask how much of its activities are in the arts and how much in the humanities. Each Endowment will support only the percentage of the overall activities which applies to its field. Congress intends to have two separate Challenge Grant Programs. Mr. Iyman felt that the Congressional intent could better be carried out if the two Endowments worked together. Mr. Searles stated that the only institutions who had so far applied for support from both Endowments at the same time were museums and some organizations in the public media.

Mr. Hollander felt that the Endowments should be open to the possibility of helping institutions which are engaged in both fields. He felt that the two Endowments should have worked together earlier on this matter and in fact in other matters as well.

Mr. Franklin agreed that the legislative history of the Challenge Grant Program is opposed to "double dipping", but he also feels that it is opposed to "big dipping". He is as disturbed by "big dipping" as by "double dipping".

The Acting Chairman gave more background on this problem, which he considers to be a minor one. Comparatively few institutions are involved. The two Endowments together received Challenge Grant applications from about 650 institutions. Of these only 40 applied to both Endowments; 14 institutions out of this number were actually funded. The Congress authorized Challenge Grants for both Endowments in the same language. The difference between the two programs was expected to be defined by the types of institutions that each Endowment responds to. The Humanities Endowment has given comparatively small Challenge Grants to a large number of institutions. The National Endowment for the Arts on on the other hand has given comparatively large grants to a smaller number of institutions. Both Councils are concerned with the problem of "doubie dipping". Mr. Franklin has previously stated the responsibility of this Endowment as being to the humanities and stated his feeling that this Council has no right to be swayed by a decision made in the field of the arts. Mr. Kingston suggested that if the National Council on the Humanities feels that the National Council on the Arts is too negative, it adopt language which discourages double applications, but which would not contain prohibitory language and which would allow cooperation with the National Council on the Arts. Mr. Goodell added that of the 14 applications to which both Endowments are making offers of Challenge Grants, 3 are presented to the National Council on the Humanities at this meeting.

Mr. Iyman pointed out that if the National Council on the Arts is planning to give large grants, institutions which are offered grants by both Endowments will probably take the "big money" from the National Endowment for the Arts. He supported Mr. Kingston's suggestion and asked the staff to keep close tabs on those "rare" institutions which are to receive support from both Endowments.

The Council unanimously adopted the following statement on this subject:

[^6]
## Challenge Grant Policy Statement

Mr . Kingston asked the Council members if they accepted the Challenge Grant policy described in Mr . Goodell's memorandum of August llth, entitled "Council Committee Meeting on Challenge Grants".

Mr. Lyman wished to call to the attention of the Council three Challenge Grant problems, which had been discussed by the committee on Public and State Programs:
(a) The committee felt that the existing guidelines restrict the usefulness of the program to large and complex institutions. They hope that the National Council on the Humanities can take a second look at this problem.
(b) They felt it was desirable for university museums to be considered as institutions separate from the main university in the same way as is true for university presses and broadcasting stations.
(c) They felt that the policy which to some extent discourages applications from consortia should not apply to consortia which fill a real purpose, but only to those which are mere fund raisers. He gave as an example of the "real" consortium, a consortium of neighboring colleges to support a common library program.

Mr. Kingston said that these suggestions would be taken as advisory to the Endowment staff and would serve as topics for discussion at the next meeting of the Council Comittee on Challenge Grants.

Mr. Franklin moved that the Council adopt the regulations of the Council Committee meeting of July 8th as set forth in Nir. Goodell's memorandum. This resolution was seconded and unanimously adopted.
G. Fiscal Year 1978 Appropriations

Mr. Tashdinian discussed the paper "National Foundation on the Arts and Humanities FY 1978 Appropriations" dated 7/77.

## H. Jefferson Lecture Selection Procedures

The Council unanimously adopted the "New Jefferson Lecture Selection Procedure" described in Tab G of the Council Book. In a discussion in which Mr. Nisbet, Mr. Hollander and Mr. Franklin took part, a motion was formulated providing the Vice-Chairman, acting with the Chairman, should select the members of the Committee of Councii members who will narrow down the nominations into a manageable slate of ten names. The Chairman and ViceChairman would also appoint a Chairman of the Committee. Although the Vice-Chairman would be a member of the Committee ex officio, he should not serve as Chairman of the Committee or have a vote in its deliberations. The motion so developed was unanimously adopted.
I. Evaluation

Two reports giving information on several Endowment grant projects in the field of television were submitted to the Council, one on the Aspen Institute for Humanistic Studies and another entitled "Report on the Production, Promotion and Viewership of Nine Television Programs and Related Print Materials".
J. Dates of Future Council Meetings

A motion was made and seconded to set dates for the meetings of the National Council on the Humanities in 1978. Nrs. Ahmanson said that she favored having some of the meetings overlap with the meetings of the National Council on the Arts, since she feels that this encourages greater collaboration between the two Councils and is very important. Mr. Franklin said that he felt that the meeting times established by the National Council on the Arts should not be a decisive factor.

The meeting dates established for the National Council on the Arts for 1978 are:

February 10-12, 1978
May 12-14. 1978
August 11-13, 1978
November 3-5, 1978
Discussion developed concerning the February date for the Humanities Council meeting because of uncertainty as to when Washington's Birthday will be celebrated (under the provisions of $5 \mathrm{U} . \mathrm{S}$. Code 6103, it will be cele'brated on February 20, 1978). The Secretary was directed
to write to all members of the Council whose terms continue through 1978, informing them of the official date for the celebration of Washington's Birthday in that year and asking if the dates proposed by the staff are satisfactory to them. The staff proposed the following dates:

$$
\text { February 23-24, } 1978
$$

May ll-12, 1978 (This overlaps NEA's meeting.) August 17-18, 1978
November 16-17, 1978 (The week before Thanksgiving.)
These dates are the same as those proposed to the Council at the August meeting except for the November date in 1978, which is two weeks later than that first proposed. The ma.jority of the Division Directors who expressed a preference said that a date later in November would fit in better with their division's deadlines.

## FY 1979 BUDGET REQUEST TO THE OFF TCE OF MANAGENENT AND BUDGET - OVERVIEW

(Agenda Item IV.)
Confidential budget material was presented to the Council at this point and discussion ensued. The discussion is not included in these minutes because budget recommendations are confidential.

CHALLENGE GRANT APPLICATIONS - ACTION ON NEW APPLICATIONS
(Agenda Item V.)

## Action on Aoplications

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 45:30-36 of Appendix B be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated. (Three of the applications recommended for support were made by institutions which have also applied to the National Endowment for the Arts for Challenge Grants. That Endowment is aware of the overlap.)

## Aoplications Recommended for Disaporoval

The Council recommended for disapproval those applications listed on pages 45:37-43 of Appendix $C$.

The Council members named below took no part in the discussion or vote on the following applications:

$$
\begin{array}{ll}
\mathrm{H}-29479 & \text { Mr. Franklin } \\
\mathrm{H}-29723 & \text { Mr. Hollander }
\end{array}
$$

## DIVISION OF PUBLIC PROGRAMS

```
(Agenda Item VII.)
```

B. Action on Apolications

Apolications Recommended for Approval
The Council recommended that the applications listed on pages 45:66-78 of Appendix $F$ with conditions specified on pages 45: 79-91 be approved for grants or contracts from derinite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Apolications Recommended for Disaporoval

The Council recommended for disapproval those applications listed on pages 45:92-99 of Appendix G.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-29528$ | Mrs. Ahmanson |
| :--- | :--- |
| $\mathrm{H}-29550$ | Mrs. Ahmanson |
| $\mathrm{H}-29573$ | Mrs. Gray |
| $\mathrm{H}-29653$ | Mrs. Ahmanson |

OFFICE OF STATE PROCRAMS
(Agenda Item VIII.)

## A. Report on Committee Discussion

Mr. Lyman stated that the applications recommended at this meeting would be the next-to-last round of eighteen-month grants. Applications
presented at the February meeting and later meetings will be for a two-year period.
B. Action on Apolications

The Council recommended that the applications listed on pages 45:100-101 of Appendix $H$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide runding for such grants or contracts up to the level indicated.

## DIVISION OF EDUCATION PROGRAMS

(Agenda Item V. $V_{\text {. }}$ )
3.-J. Action on Applications -- Develooment Grants -- College Iiorary Program -- National Board of Consultants -- Cultural Institutions -- Elementary and Secondary Education Program -- Higher Education Proiects -- Humanities Institutes -- Humanities Institutes Demonstration Crants -- Dilot Grants

Applications Recommended for Aporoval
The Council recommended that the applications listed on pages 45:44-55 of Appendix D be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Zndowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those appiications listed on pages 45:56-65 of Appendix E.

The Council memoers named below took no part in the discussion or vote on the following applications:

H-27968 Nrs. Gray, Mr. Nisbet
$\mathrm{H}-28287$ Nr. Nisbe $\ddagger$
H-28605 Nr. Frarklin
H-28661 Nirs. Ahmanson
H-28712 Nr. Lyman
H-28759 Nrs. Ahmanson
H-28846 Nr. Franklin
H-28848 Nrs. Anmanson
H -28899 Nis. Ahmanson
H-29031 Mrs. de Kleven

## DIVISION OF FELIOWSHIPS

(Agenda Item IX.)
B. Action on Applications -- Centers for Advanced Study

## Applications Recommended for Aporoval

The Council recommended that the applications listed on page 45:102 of Appendix I be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

Application Recommended for Disapproval
The Council recommended for disapproval the application listed on page 45:102 of Appendix I.
C. Action on Applications -- Fellowships for the Professions

Applications Recommended for Approval
The Council recommended that the applications listed on pages 45:103-104 of Appendix J be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval

The Council recommended for disapproval those applications listed on page 45:105 of Appendix K.

The Council members named below took no part in the discussion or vote on the following applications:

| $\mathrm{H}-30098$ | Mr. Lyman |
| :--- | :--- |
| $\mathrm{H}-30129$ | Mr. Nisbet |
| $\mathrm{H}-30131$ | Mrs. Ahmanson |
| $\mathrm{H}-30133$ | Mrs. Gray |
| $\mathrm{H}-30210$ | Mr. Franklin |
| $\mathrm{H}-30219$ | Mr. Lyman |
| $\mathrm{H}-30334$ | Mrs. Ahmanson |

D. Action on Applications -- Summer Seminars for 1978 and 1979

The Council recommended that the applications listed on pages 45:106110 of Appendix $L$ be approved for grants or contracts from definite appropriations.

The Council members named below took no part in the discussion or vote on the following applications:

| H-30234 | Mrs. Gray | $\mathrm{H}-30286$ | Mrs. Gray |
| :--- | :--- | :--- | :--- |
| H-30236 | Mr. Nisbet | $\mathrm{H}-30294$ | Mr. Franklin |
| H-30244 | Mrs. Gray | $\mathrm{H}-30295$ | Mrs. Gray |
| H-30258 | Mrs. Gray | $\mathrm{H}-30297$ | Mr. Hollander |
| H-30264 | Mr. Hollander | $\mathrm{H}-30302$ | Mr. Nisbet |
| H-30268 | Mr. Hollander | $\mathrm{H}-30306$ | Mr. Hollander |
| H-30274 | Mr. Nisbet | $\mathrm{H}-30313$ | Mr. Lyman |
| H-30277 | Mr. Franklin | $\mathrm{H}-30318$ | Mrs. Ahmanson |
| H-30278 | Mrs. Gray | $\mathrm{H}-30319$ | Mr. Nisbet |

## OFFICE OF PLANNING AND ANALYSIS

(Agenda Item X.)
A. Report on Committee Discussion

Mrs. de Kleven congratulated Miss Blakey on the progress of the Youthgrants Program and the Program of Special Youth Projects. The Committee wished to have it noted in the minutes that the three evaluation reports submitted: (1) the Aspen Institute Workshops on Television, (2) the nine T.V. programs and (3) the ACIS travel grant, were of good quality and should be useful to the Endowment in its future planning.

The Committee also reported that in connection with its review of the FY 1979 budget the Cormittee has discussed with staff a number of important developments in ongoing and planned work which the full Committee should be aware. These include production of a "state of the humanities" document by 1980, support of humanities education programs in non-profit regional theatres, a program design competition for Special Youth Projects, and data collection systems for Endowment programs.

## B. Action on Project Applications

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 45:111112 of Appendix $M$ be approved for grants or contracts from definite appropriations or, where indicated, from girts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those applications listed on page 45:ll3 of Appendix N.

The Council member named below took no part in the discussion or vote on the following application:
H-29378 Mr. Hollander
C. Action on Science, Technology and Human Values Applications

The Council reconmended that the applications listed on page 45:114 of Appendix 0 be approved for grants or contracts from definite appropriations.
D. Action on Youth Programs Applications

Apolications Recommended for Approval
The Council recommended that the applications listed on pages 45:115-120 of Appendix $P$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Apolications Recommended for Disapproval

The Council recommended for disapproval those applications listed on pages 45:121-126 of Appendix Q.

The Council members named below took no part in the discussion or vote on the following applications:

$$
\begin{array}{ll}
\mathrm{H}-28838 & \mathrm{Mr} . \text { Hart } \\
\mathrm{H}-28981 & \text { Mr. Nisbet }
\end{array}
$$

## DIVISION OF RESEARCH GRANTS

## (Agenda Item XI.)

## B. Action on Applications

## Applications Recommended for Approval

The Council recommended that the applications listed on pages 45:127-142 of Appendix $R$ be approved for grants or contracts from definite appropriations or, where indicated, from gifts to the Endowment and Federal funds up to the amounts listed, and that the Acting Chairman, in his discretion, accept gifts in such amounts as will provide funding for such grants or contracts up to the level indicated.

## Applications Recommended for Disapproval and Deferral

The Council recommended for disapproval and deferral those applications listed on pages 45:143-156 of Appendix S.

The Council members named below took no part in the discussion or vote on the following applications:

| RT-23916-76-276 | Mrs. Ahmanson |
| ---: | :--- |
| RE-24143-76-399 | Mr. Hollander |

| H-30154 | Mr. Nisbet |
| H-30209 | Mrs. Ahmanson |

## CHATRMAN'S GRANTS

(No Agenda Item)
Mr. Kingston reminded the Council that he had not made any Chairman's Grants while he has been Acting Chairman of the Endowment. He intended shortly, however, to make two grants in the Johnstown, Pennsylvania, area as a result of the recent flood.

The meeting adjourned at 4:45 p.m.

## NATIONAL ENDOWMENT FOR THE HUMANITIES

TO : Mrs. Gray
Mr. Hall
Mr. Hook
Mr. Kilson
Mr. Kristol
Mr. Madsen
August 26, 1977

SUBJECT: Authorizing Acting Chairman to Accept Donations

Only 12 members of the Council were present at the recent meeting in Washington. It is provided by Section $8(d)$ of the Act that the presence of 14 members is necessary to constitute a quorum. Therefore, a formal meeting of the Council did not take place and action "by the Council" was not possible. Motions were made and approved, however, in the normal manner and those members present advised the Acting Chairman on various matters which were discussed. The formal Minutes of this meeting will be sent to you in due course in the usual manner.

The possibility that a quorum might fail to appear at some future meeting was brought up by the Chairman and discussed at the l4th meeting on February 6, 1970. The discussion is summarized on page 14-11 of the Minutes, a copy of which is attached to this memorandum for your information and marked Attachment A. When a quorum failed to appear for the l9th meeting in May of 1971, the Chairman acted in accordance with the procedures outlinned in February, 1970. In 1973, the Act was amended to provide that the Chairman may receive a gift of $\$ 15,000$ or less without Council recommendation in the event the Council fails to provide such recommendation within a reasonable period of time.

The Acting Chairman will make grants, both outright and gifts-and-matching, and reject applications in the normal manner without waiting for a formal recommendation from a meeting of the Council at which a quorum is present. He will also accept gifts up to \$15,000 for any grant resulting from an application prepared for presentation at the August Council meeting. In connection with gifts in excess of $\$ 15,000$ for grants which were recommended by those members present for funding, it is necessary to solicit the recommendation of each of you, and accordingly copies of these recommendations are attached as follows:

| Challenge Grants | Attachment B |
| :--- | :--- |
| Education Program | Attachment C |
| Public Programs | Attachment D |
| State Programs | Attachment E |
| Fellowships Program | Attachment F |
| Planning and Analysis | Attachment $G$ |
| Research Program | Attachment H |

Would you please return this letter in the enclosed envelope, making jour recommendation below.
$\square$
I concur in the recommendations made by the members present at Washington
$\square$
I concur in all of the recommendations made by the members present at Washington except the following:
$\square I$ do not concur.
If you have any questions on any particular application, please contact the appropriate Division Director. The meeting adjourned until November 3-4, when a meeting will be held in New Orleans, Louisiana. You will receive further information on the New Orleans Meeting.

Attachments

NOTE: Seven members of the Council responded to this memorandum by October 12, 1977. All seven members concurred in the recommendations made by the members present at Washington. Therefore these recommendations have the concurrence of 19 members of the Council and it is the opinion of the General Counsel that the Acting Chairman is now authorized to accept gifts in excess of $\$ 15,000$ for grants which were recommended for funding by the members present at the August meeting.

11-29638
(Bioethics Committee of the Society for Philosophy \& Public Affairs)
(a) that funds will be used to support continuation of the pilot project
at two sites for one year; (b) that a detailed evaluation plan be pre-
pared and submitted to the Endownent within 30 days of the award; and
(c) that a revised budget reflecting the reduced scope of the project and
stronger evaluation efforts be submitted upon acceptance of the award.
(Horizon House Institute)
(a) that the humanist coordinator's credentials be submitted for Endow-
ment review; and (b) that a revised budget be submitted reflecting the
applicant's cost-sharing contributions.

H-29648
H-29649 for the project. (a) that a detailed plan be submitted for the production and broadcasting
schedule, reflecting a significantly reduced number of hours of new program-
ming and describing the topics and treatments of those productions; and (b) (a) that a detailed plan be submitted for the production and broadcasting
schedule, reflecting a significantly reduced number of hours of new program-
ming and describing the topics and treatments of those productions; and (b) (a) that a detailed plan be submitted for the production and broadcasting
schedule, reflecting a significantly reduced number of hours of new program-
ming and describing the topics and treatments of those productions; and (b) a revised budget based on that plan be submitted before funds are released
(Bioethics (Bioethics
> that a revised budget be submitted which clarifies travel and conference costs.

| H-30211 | (Legis 50/The Center for Legislative Improvement) <br> that the funds be used to produce four background papers, to prepare treatments of the proposed case-study video-tapes, and to engage humanists centrally in planning and development of the project. |
| :---: | :---: |
| H-27620 | (The National Council on the Aging, Inc.) |
|  | that funds will be released for translating, taping, and printing units in Yiddish contingent upon evidence of demand. |
| H-29562 | (Wyandotte County Historical Museum) |
|  | (a) that funds be used for the increased participation of a museum interpretation specialist and of an academic scholar with knowledge of local history in the planning phase of the project; and (b) that no Endowment funds be used for the curator's salary. |
| H-29525 | (Parting Ways, The Museum of Afro-American Ethnohistory, Inc.) |
|  | (a) that funds awarded beyond the requested amount be used for the increased involvement of consultants; and (b) that a final list of participants in the conference be submitted to the Endowment prior to the release of funds. |
| H-29622 | (The Skinner Museum of Mount Holyoke College) |
|  | that these funds be used for consultants in sociocultural history and museum education/interpretation, consultant travel, and per diem. |
| II-29623 | (South Carolina Museum Commission) |
|  | (a) that the final list of consultants be submitted to the Endowment; and (b) that this list include appropriate historians. |
| H-29657 | (National Railroad Museum) |
|  | that an historian with special expertise in American cultural history be added to the list of consultants. |

that the commitment of the consultant historian identified in the proposal be confirmed．
 dowment．

## （Alliance College）

that these funds be used for the outside subject matter consultants identified in the application，and for staff travel to appropriate ethnic museums．
（Chilkat Valley Historical Society）
that the additional funds be used for consultants in anthropology． cultural history，and educational interpretation．

that these funds be used to involve consultants in Black history and social history in the further conceptualization of the project，that these consultants be identified and their vitae forwarded to the Endow－ ment prior to the release of funds．
（Valdez Heritage Center）
that these funds be used to involve consultants with expertise in indus－ trial archaeology，Alaskan history，historic archaeology，conservation， museum education，and exhibit design to develop a master plan for the interpretation and exhibition of the center＇s collection．
（Grey Art Gallery and Study Center）
（a）that not more than $\$ 500$ be used for domestic travel；and（b）that socio－economic history of the United states．
(Historic Augusta, Inc.)
(a) that the program be planned for the general adult public; and (b) that consultants with expertise in local Augusta history and historic district interpretation be involved in the project.
(Texarkana Historical Society and Museum)
that these funds be used to involve several historians and an
individual with expertise in museum interpretation to assist in identifying and developing the content of the proposed exhibits.
(Danforth Museum)
(a) that the project director be identified and his/her vitae forwarded to the Endowment prior to the release of funds; and (b) that no Endowment funds be used for the publication of the exhibit catalogue.
(University of Washington)
that no NEH funds will be cribed in the application.

> (Utah State University)
(a) that scholars with expertise in Idaho history be involved in the two programs planned for Idaho; (b) that the Idaho state Historical Society be consulted in planning the programs in Idaho; and (c) that appropriate native American scholars be involved as consultants in developing the interpretation of Indian history for each of the four regions.
(Ontario county Historical Society)
that the museum consultant be identified prior to release of grant funds.
