INTRODUCTION

Because these instructions supplement the general guidelines of the Division of Research Programs, all applicants should read the guidelines brochure carefully before beginning the preparation of an application. The guidelines brochure describes the division's review process and the various categories of support and lists the questions reviewers normally ask of proposals submitted in each of the categories. The issues raised by these questions should be addressed in the appropriate sections of the proposal.

The mission of the National Endowment for the Humanities is to support work that will promote or encourage, in the words of the enabling legislation, "progress and scholarship in the humanities." Because citizens' tax funds are the source of support for all awards the Endowment makes, the Endowment strives to support only projects of compelling importance and quality. It is especially important for applicants to demonstrate that a project will make a significant contribution to scholarship in the humanities.

I. TYPES OF PROJECTS

Grants in the Humanities, Science and Technology category support research that brings to bear the knowledge, methods, and perspectives of the humanities on the subjects of science, technology, and medicine. Historical studies and studies of current topics are eligible. Studies of current science, technology, or medicine must deal with fundamental issues, and the humanities must play a central role. The Endowment encourages studies that promote the collaboration of humanities scholars with scientists as well as projects that promise to improve interdisciplinary approaches to research. All projects are expected to lead to major publications.

Support is available for collaborative or coordinated research in many areas of inquiry that include, but are not limited to, the form, content, and purposes of scientific knowledge; the processes through which scientific knowledge is developed; the invention, innovation, and transfer of technology; the social, moral, and legal meaning of specific scientific and technological innovations; the interaction among sciences, technology, medicine, and other elements of culture; and the methods and concepts that the humanities use to study science, technology, and medicine. The Endowment supports projects that involve historical and philosophical approaches to the

social sciences but does not support empirical social scientific research, specific policy studies, or technical impact assessments.

Among its awards in this category, the Endowment provides support for the preparation of manuscripts leading to the publication of guided studies of historically significant scientific writings from antiquity to the twentieth century. Support is available for full- or part-time activities for periods of one to three years and can include salaries, supplies, and other costs associated with the preparation of one or more volumes. These volumes make accessible to general readers and undergraduate students the writings of past scientists and enable those with little or no previous experience in the history of science to appreciate, for example, how earlier scientists formulated questions about nature, expressed new concepts, and devised answers to those questions.

A guided study would include extensive selections from one or more texts, which are chosen for their usefulness in illuminating fundamental concepts and creative approaches. These texts may be important for the penetrating questions they raise or as a demonstration of how a later work builds on or departs radically from an earlier work. Proposals for guided studies that combine the works of two authors are welcome. A guided study should not be an introductory history of scientific ideas or a synopsis of the chosen texts but should be a companion text with any needed overviews, outlines, diagrams, glosses, and explanations. The guide may elaborate on the text, make explicit for readers what is implied in the selections, explain difficult scientific or mathematical concepts, comment on the use of important terms, highlight key passages, and retranslate the selections. What is appropriate for a specific guided study will depend on what is needed by readers who are willing to expend effort to understand these texts but who are inexperienced in reading historical scientific writings.

II. ELIGIBLE APPLICANTS

Projects that require coordinated or collaborative efforts involving various combinations of individual researchers and consultants, research assistants, and clerical or technical support personnel are eligible for support in the Humanities, Science and Technology category. All applications for support of individual study and research for periods of a year or less normally should be submitted to the Endowment's Division of Fellowships and Seminars. An applicant

who is uncertain which division of the Endowment is the most appropriate for a particular project should confer with staff in either the Division of Research Programs or the Division of Fellowships and Seminars.

III. PRELIMINARY PROPOSAL

Applicants are encouraged to discuss the proposed project with Endowment staff or to submit a draft of the narrative and budget sections of the proposal at least six to eight weeks before the application deadline. An Endowment staff member will offer advice regarding the proposed project's eligibility, completeness, and competitiveness. Such preliminary counsel affords an applicant the opportunity to receive advice about the substance and format of the application. Staff responses to preliminary proposals are not a part of the formal review process.

IV. THE APPLICATION

The application should include eight parts: a cover sheet, a statement of significance and impact, a table of contents, a narrative description of the project, a budget, appendices (including résumés, which may be provided in any format but should include pertinent information concerning an individual's education, experience, and other qualifications), a statement of the history of any grants received for the project, and a list of qualified reviewers. Forms for the cover sheet, statement of significance and impact, budget, list of reviewers, and history of grants are enclosed. Proposal narratives should be limited to twenty-five or fewer double-spaced pages.

A. Cover Sheet

The NEH Application Cover Sheet and instructions for completing it are enclosed.

B. Statement of Significance and Impact of Project

Applicants should provide this information on the enclosed sheet with this heading. This section should contain a carefully prepared summary of the project's purpose and expected results and should present a well-considered statement of the project's significance. Consideration of significance includes the intellectual justification of the project, its importance

to scholarship in the humanities, the breadth of its conceptualization, the diversity and size of the intended audience, and the relationship of the research questions to larger issues or themes in the humanities.

C. Table of Contents

The table of contents should list the parts of the application, and the subdivisions within them, with page numbers.

D. Narrative Description

Applicants should prepare a detailed project description that includes the following sections:

1. Nature and Significance of the Project

This section should provide a clear and concise statement of the nature of the project and its significance to research in the field or fields involved. Applicants should describe the scope of the project, the source materials with which the project is concerned, and the relation of the project to other published and unpublished work in the field. (A critical bibliography may be useful.) Applicants should also describe, as specifically as possible, those who will benefit from the research.

Applications for support of guided studies of great texts in science should include the identification of the texts to be presented in the guided study, with complete information about the editions or translations to be used; an explanation of the texts' significance and the rationale for their inclusion in the guided study; a sample (approximately one page, typed, single spaced) of a selected text and the corresponding study material to accompany that section (one to three pages, typed, single spaced); and a statement of what overall idea or themes would be developed in the proposed guided study.

2. History and Duration of the Project

Applicants should discuss the preliminary research or planning that has been conducted for the project, the kinds of financial support the project has already received, and the resources or research facilities available to the project. If work on the project will continue after the proposed grant period, the applicant should provide details about the work

that will remain to be accomplished and the probable sources of support for that work.

3. Project Staff

Applicants should identify the project staff, describe their duties, and state their qualifications for undertaking the specific responsibilities assigned to them. Brief résumés for all major participants should be included in an appendix. These résumés should be specially designed to show, in a condensed form, the participants' qualifications to carry out the particular project or projects proposed in the application.

The period and amount of time that key project staff members have agreed to devote to the project must be clearly indicated and justified. Project directors must be actually in charge of their projects and must devote a significant portion of their time to them. All persons directly involved in the conduct of the grant—whether or not their salaries are paid from grant funds—must be named in the budget, and their anticipated commitments of time must be indicated.

If the application is for the establishment of a research center, the proposal should describe the criteria that will be used to select any visiting scholars.

4. Project Methodology

This section should explain and justify the project's methodology. The applicant should state the central research questions clearly and should discuss any major difficulties likely to be encountered. The nature and extent of the collaborative relationship among the investigators involved in the project should also be explained in detail. Applicants should describe the source materials necessary for the research and should indicate their prospects of access to pertinent collections.

5. Work Plan

Applicants should provide a detailed description of the proposed project's organization and implementation. Applicants should also provide a plan of work by six-month periods that details the stages and timetable by which the project will be carried out and that provides a description of what will be accomplished during each stage. The plan should also indicate which project staff members will be involved in the project's various stages.

6. Final Product and Dissemination

All books or articles that will result from the project should be described, preferably in outline form. Any applicant who proposes to undertake a large project should consult with a publisher at an early stage of planning so that the application reflects the most efficient and economical method of preparing and presenting the research for dissemination. In the proposal itself, applicants must indicate if an agreement to publish has been reached. Any pertinent correspondence with a publisher, such as a letter of interest, should be included in an appendix.

7. Computer Use

An applicant whose project includes a computer component should request a copy of the Endowment's "Instructions for Applicants with Projects Requiring the Use of Automation Technology" and must provide in a separate section information on all relevant points outlined in the instructions. Applicants should consult these instructions whether computer expenses are charged to the Endowment or are borne by the applicant. If computer use is expected to be minimal, applicants should discuss the applicability of these instructions with a division staff member.

E. Project Budget

The budget form and instructions for completing it are enclosed.

1. Types of Grant Support

The Endowment provides three types of funding: federal matching funds, outright funds, and a combination of the two.

Matching Funds

The Endowment is authorized to match gifts made to NEH or gifts that are given directly to an applicant and that will be used to support budgeted project activities during the grant period. Applicants are encouraged to identify potential sources of gift funds at the time they make an application to the Endowment.

Endowment matching funds are awarded on an up to one-for-one basis. The purpose of matching funds is to stimulate private support for projects in the humanities by offering potential donors the incentive of doubling the impact of their gifts. Because

matching funds enable NEH to provide support to a wider range of significant but often costly projects, institutional applicants are encouraged to consider requesting complete or partial funding in the form of a matching grant. Applicants who apply for matching funds support should refer to the attachment at the end of this booklet, "Eligible Gifts and Donors."

Outright Funds

An outright grant is one in which the award of Endowment funds is not contingent on the applicant's raising gifts for the project.

Combined Funds

Applicants also may request a combination of outright and matching funds from the Endowment. For example, if a project will cost \$85,000 and \$20,000 in gifts will be raised from eligible third parties, the applicant should request \$20,000 in matching funds from the Endowment. Support for the balance of project expenditures (\$45,000) may be requested in outright funds.

It should be noted that, under certain circumstances, the Endowment may offer total or partial matching support to an applicant requesting only outright support.

2. Cost Sharing

Cost sharing consists of the cash contributions made to the project by the applicant and third parties as well as third-party in-kind contributions, such as donated services and goods. Cost sharing includes gift money that will be raised to release federal matching funds. Normally, Endowment support will not exceed 80 percent of the project's total costs; the balance of the project costs are to be shared by nonfederal sources. Cost sharing in renewal applications is usually at least 10 percentage points higher than in an original proposal. Individual applicants need not show cost sharing in their applications unless they are requesting federal matching funds, in which case the gifts are normally shown as cost sharing. Individual applicants who receive grants only in outright funds are not expected to provide cost sharing.

3. Grant Period

The grant period encompasses the entire period for which Endowment support is requested in the current application. All project activities and the expenditure of project funds, that is, grant funds and

cost-sharing contributions, must occur during the grant period. Projects can include full- or part-time activities for periods of up to three years.

F. Appendices

The appendices should be limited to supplementary but essential materials. These materials should include concise résumés for major staff members and letters of commitment from outside participants and cooperating institutions.

G. Statement of History of Grants

Please complete the enclosed form with this heading.

H. Reviewers

On the List of Suggested Reviewers form, applicants are asked to provide the names and addresses of eight disinterested persons who can provide impartial evaluations of the proposal's merits. They should be either experts in the particular area of the application or on the proposed methodology, or they can be scholars whose reputation and broad knowledge lend weight to their judgments. Applicants may explain briefly, in the lines under each reviewer's address, the reviewer's appropriateness as an evaluator of the project. Applicants should not discuss their proposals with any of the individuals listed as potential reviewers.

Endowment staff will consult this list, along with other sources, in choosing reviewers for the proposal. Applicants are advised, however, that some potential reviewers are excluded from consideration because of federal rules governing conflict of interest. These exclusions apply to immediate relatives of project staff members, all employees of the applicant institution, and all others who can be deemed to benefit financially from the project if it is funded. The program staff also will avoid soliciting reviews from individuals who are associated with other proposals that are pending in the Interpretive Research Program.

The following pages include:

- Instructions for Completing the Application Cover Sheet
- The Application Cover Sheet
- Field of Project Categories and Codes

Please read the instructions before completing applicable questions. Please print or type.

Purpose: The National Endowment for the Humanities uses a single cover sheet for all of its programs. This cover sheet gathers information that is necessary in one of two ways:

(1) The information is necessary for efficient consideration of the application during the review process and in the administration of the grant if an award is made.

(2) The information is *required of the Endowment* in various reports to Congress, other federal agencies, and the public. The Endowment must provide reports that involve statistical information or descriptions that can be obtained quickly from the cover sheet. Information is recorded in a computer, which stores the data for subsequent compilation and reporting.

Please read the instructions for each question carefully. Answer each question by typing or printing your reply. Please verify your answers to be certain that they are correct and complete.

You will find it helpful to complete the cover sheet last, after all other parts of the application have been prepared.

Privacy Act: The following notice is furnished in compliance with the Privacy Act of 1974:

The information is solicited under the authority of the National Foundation on the Arts and Humanities Act of 1965, as amended, 20 U.S.C. 956. This information is needed to process the grant application and for statistical research and analysis of trends. The routine uses which may be made of this information are: general administration of the grant review process; statistical summaries; congressional oversight; and analysis of trends. Failure to provide any of the requested information will result in the delay or rejection of the application.

INSTRUCTIONS FOR COMPLETING THE APPLICATION COVER SHEET

The Office of Management and Budget requires federal agencies to supply information on the time needed to complete forms and also to invite comments on the paperwork burden. NEH estimates the average time to complete this application is 52 hours per response. This estimate includes the time for reviewing instructions; researching, gathering, and maintaining the information needed; and completing and reviewing the application. Please send any comments regarding the estimated completion time or any other aspect of this application, including suggestions for reducing the time to complete, to the Assistant Chairman for Operations, National Endowment for the Humanities, Washington, D.C. 20506; and to the Office of Management and Budget, Paperwork Reduction Project (3136-0067), Washington, D.C. 20503.

Block 1—Individual Applicant or Project Director

Item a. If the application is submitted through an institution or organization, enter the name and mailing address of the person who will carry out the project or be chiefly responsible for directing it. (Information about an institution is also requested in Blocks 2 and 11.) When an application is submitted by an individual, enter the name and address of the individual.

Item b. In the space provided, enter the number corresponding to the applicant's or project director's preferred form of address:

1—Mr.	3—Miss	5—Professor
2—Mrs.	4—Ms.	6—Dr.

Item c. Enter the social security number and date of birth of the applicant.

Item d. Enter the applicant's or project director's full telephone number with area code and extension. Whenever possible, one of the telephone numbers listed should be a number at which a message can be left.

Item e. If possible, indicate the code for the appropriate major field from the list of Field of Project Categories and Codes on the reverse side of the Application Cover Sheet.

Block 2—Type of Applicant

Check either (a) or (b).

Only an applicant applying as an unaffiliated individual should check the "individual" box. A project director affiliated with an institution must apply through that institution if the project will make use of the institution's resources, for example, the library, computer center, office space, clerical assistance, etc. If the project does not use such resources, the project director may apply as an individual; but in such cases the Endowment must receive a statement from the institution indicating awareness of the project director's submission of an application.

For those who checked (a) ONLY: Please indicate an institutional affiliation, if applicable, in Block 11a.

For those who checked (b) ONLY: Identify Type such as: business, religious, museum, historical society, government (state, local, etc.) public media (TV, radio, newspaper, etc.), educational (elementary/secondary, school district, 2-yr. college, 4-yr. college, etc.), library (public, research, etc.), center (advanced study, research, etc.). Identify Status as either Private Nonprofit or Unit of State or Local Government. Example: Type: Historical Society. Status: Private Nonprofit.

Block 3—Type of Application

Check appropriate type:

Item a. New—application for this project submitted to NEH for the first time.

Item b. Revision and Resubmission—a version of the application for this project was submitted to NEH previously but not funded.

Item c. Renewal—application for funding a new grant period for a project previously funded by NEH.

Item d. Supplement—application for additional funding to a current NEH grant.

Block 4—Program to which Application Is Being Made

This information is preprinted on your form. Pre-printed forms ensure that the applicant has the correct instructions for the specific program.

If application is being made under one of the Endowment's initiatives described in the guidelines of the Division of Research Programs, please indicate the number corresponding to the initiative in the space provided after Endowment Initiatives:

03M—Columbian Quincentenary

Block 5—Requested Grant Period

Grant periods begin on the first day of the month and end on the last day of the month. Project activities need not begin on the first day, but all project activities must take place within the requested grant period.

Block 6—Project Funding

Enter here the appropriate figures from the Project Budget that is part of your application.

Block 7—Field of Project

Indicate the category and code from the listing on the reverse side of the cover sheet to indicate the **specific** humanities field that best describes the content of the project.

Block 8—Descriptive Title of Project

Enter a brief title that clearly identifies the project and its humanities content. This title should be informative to a nonspecialist. NEH is obliged to be as clear as possible to the public about awards that it makes. The descriptive title will be used for this purpose whenever possible, but the Endowment staff may assign a different working title.

Block 9—Description of Project

Provide a brief description of the proposed project. Do not exceed the space provided.

Block 10—Will This Proposal Be Submitted to Another Government Agency or Private Entity for Funding?

This information is sought without prejudice to the application. NEH frequently cosponsors projects with other funding sources. If not applicable, indicate "N/A."

Block 11—Institutional Data

Item a. Indicate the name of the institution and the city and state of its official mailing address.

Item b. Enter the institution's employer identification number.

Item c. Indicate the name and title of the person who is authorized to submit the application on behalf of the institution or organization and to provide the certifications required in Block 12.

Item d. Indicate the name, mailing address, form of address (see instructions for Block 1b), and the telephone number of the person who will be responsible for the financial administration of the grant if the award is made. For example, at many universities the provost, vice president, president, or chancellor is the person "authorized" to submit an application (see item c), but the actual administration of the project—such as, negotiating the project budget, ensuring compliance with the terms and conditions of the award—is the responsibility of a grants or research officer. It is the latter person who should be listed here.

Block 12—Certification

The Endowment is required to obtain from all applicants certifications regarding federal debt status, debarment and suspension, and a drug-free workplace. Applicants requesting more than \$100,000 in grant funds must also certify regarding lobbying activities and may be required to submit a "Disclosure of Lobbying Activities" (Standard Form LLL). Institutional applicants are required to certify that they will comply with the nondiscrimination statutes. Because most of these certifications impose new responsibilities on successful applicants, the certifications and accompanying instructions that are found in the appendix of this brochure should be read before the application cover sheet is signed.

STATEMENT OF SIGNIFICANCE AND IMPACT OF PROJECT

National Endowment for the Humanities
BUDGET INSTRUCTIONS

Before developing a project budget, applicants should review those sections of the program guidelines and application instructions that discuss cost-sharing requirements, the different kinds of Endowment funding, limitations on the length of the grant period, and any restrictions on the types of costs that may appear in the project budget.

Requested Grant Period

Grant periods begin on the first day of the month and end on the last day of the month. All project activities must take place during the requested grant period.

Project Costs

The budget should include the project costs that will be charged to grant funds as well as those that will be supported by applicant or third-party cash and in-kind contributions.

All of the items listed, whether supported by grant funds or cost-sharing contributions, must be reasonable, necessary to accomplish project objectives, allowable in terms of the applicable federal cost principles, auditable, and incurred during the grant period. Charges to the project for items such as salaries, fringe benefits, travel, and contractual services must conform to the written policies and established practices of the applicant organization.

When indirect costs are charged to the project, care should be taken that expenses that are included in the organization's indirect cost pool (see Indirect Costs) are not charged to the project as direct costs.

Fringe Benefits

Fringe benefits may include contributions for social security, employee insurance, pension plans, etc. Only those benefits that are not included in an organization's indirect cost pool may be shown as direct costs.

Travel Costs

Less-than-first-class accommodations must be used and foreign travel must be undertaken on U.S. flag carriers when such services are available.

Equipment

Only when an applicant can demonstrate that the purchase of permanent equipment will be less expensive than rental may charges be made to the project for such purchases. Permanent equipment is defined as an item costing more than \$500 with an estimated useful life of more than two years.

Indirect Costs (Overhead)

These are costs that are incurred for common or joint objectives and therefore cannot be readily identified with a specific project or activity of an organization. Typical examples of indirect cost type items are the salaries of executive officers, the costs of operating and maintaining facilities, local telephone service, office supplies, and accounting and legal services.

Indirect costs are computed by applying a negotiated indirect cost rate to a distribution base (usually the direct costs of the project). Organizations that wish to include overhead charges in the budget but do not have a current federally negotiated indirect cost rate or have not submitted a pending indirect cost proposal to a federal agency may choose one of the following options:

1. The Endowment will not require the formal negotiation of an indirect cost rate, provided the charge for indirect costs does not exceed 10 percent of direct costs, less distorting items (e.g., capital expenditures, major subcontracts), up to a maximum charge of \$5,000. (Applicants who choose this option should understand that they must maintain documentation to support overhead charges claimed as part of project costs.)

2. If your organization wishes to use a rate higher than 10 percent or claim more than \$5,000 in indirect costs, an estimate of the indirect cost rate and the charges should be provided on the budget form. If the application is approved for funding, you will be instructed to contact the NEH Audit Office to develop an indirect cost proposal.

The three-column budget has been developed for the convenience of those applicants who wish to identify the project costs that will be charged to NEH funds and those that will be cost shared. FOR NEH PURPOSES, THE ONLY COLUMN THAT NEEDS TO BE COMPLETED IS COLUMN C. The method of cost computation should clearly indicate how the total charge for each budget item was determined. If more space is needed for any budget category, please follow the budget format on a separate sheet of paper.

When the requested grant period is eighteen months or longer, separate budgets for each twelve-month period of the project must be developed on duplicated copies of the budget form.

Provide the names and titles of principal project personnel. For support staff, include the title of each position and indicate in brackets the number of persons who will be employed in that capacity. For persons employed on an academic year basis, list separately any salary charge for work done outside the academic year.

Include in this amount third-party cash gifts that will be raised to release federal matching funds. (Consult the program guidelines for information on cost-sharing requirements.)

Occasionally, in-kind (noncash) contributions from third parties are included in a project budget as cost sharing; e.g., the value of services or equipment that is donated to the project free of charge. If this is the case, the total value of in-kind contributions should be indicated.

When a project will generate income that will be used during the grant period to support expenses listed in the budget, indicate the amount of income that will be expended on budgeted project activities.

³Total Project Funding should equal Total Project Costs.

STATEMENT OF HISTORY OF GRANTS

If the project has received previous support from any federal or nonfederal sources, including the Endowment, please list below the individual sources of these funds as well as the date and total dollar amount of each contribution to the project. If the project has had a long history of support, the sources and contributions may be grouped and summarized so that the list will not exceed one page.

THE HISTORY OF THE

It is a very common error to suppose that the history of a country is a mere list of names and dates. In fact, it is a story of the lives of the people who have lived in that country, and of the events which have shaped their lives. The history of a country is a story of the lives of the people who have lived in that country, and of the events which have shaped their lives.

GRANTEE RESPONSIBILITIES

If funding is approved by the Endowment, the applicant organization will be responsible for insuring that the grant is administered in accord with the following provisions:

—The grantee must have a financial management system that records separately within its general accounting system the receipt and disbursement of grant funds and cost-sharing contributions and that monitors the expenditure of these funds against the approved budget.

—All commitments and obligations of grant funds and cost-sharing contributions are to occur during the grant period.

—Project activities are to be carried out in accordance with the schedule provided in the approved application.

—Changes in the scope and objectives of the project may not be made without prior Endowment approval.

—The replacement of the project director, the codirector, or other professional staff members who are specifically named in the award notice requires prior Endowment approval.

—Adequate documentation of the time spent by all project personnel on grant activities must be maintained by the grantee.

—All procurement transactions are to be conducted in a manner that provides, to the maximum extent practical, open and free competition; for purchases in excess of \$10,000, any use of sole-source contracts must be fully justified and documented.

—Unless otherwise notified in writing, grantees must acknowledge Endowment support in all materials resulting from grant activities.

—If a grantee earns income from grant activities or products that result from grant activities, the Endowment reserves the right to recover a portion of the program income.

ELIGIBLE GIFTS AND DONORS

Only gifts of money, including the net proceeds from the sale of noncash gifts, that will be used to support budgeted project activities during the grant period are eligible to be matched with federal matching funds. The source, date of transfer, and amount of the gift or net proceeds from the sale of a noncash gift must be documented in the applicant's records.

Both restricted gifts (gifts that are given specifically in support of a project) and unrestricted gifts (gifts that may be used at the recipient's discretion) are eligible to be matched if they are donated directly to the applicant.

If a gift of money is given to an individual or organization associated with the project rather than directly to the applicant, that gift normally will not be deemed eligible to release federal matching funds. The only exception is if the donation is specifically in support of the project and control over the expenditure of these funds is transferred to the applicant.

Applicants should note that the following items are not eligible to be matched with federal funds: federally appropriated funds, deferred and noncash gifts, income earned from gifts after they are transferred to the applicant, and income received from any fees for participation in project activities.

Ineligible donors include the applicant who will carry out the project and any institution or individual who is involved in project activities and who will receive some sort of remuneration from project funds. To avoid any possibility of conflict of interest, a gift should not be used to release federal matching funds when there is the appearance that the donor might benefit in any way by giving a gift to a particular project.

APPENDIX

Instructions for the Certifications

General Requirements

The Endowment is required to obtain from all applicants certifications regarding federal debt status, debarment and suspension, and a drug-free workplace. Applicants requesting more than \$100,000 in grant funds must also certify regarding lobbying activities and may be required to submit a "Disclosure of Lobbying Activities" (Standard Form LLL). Institutional applicants are required to certify that they will comply with the nondiscrimination statutes.

By signing and submitting a proposal the individual applicant or the authorizing official of the applicant institution provides the applicable certifications. When a prospective applicant is unable to certify regarding the nondiscrimination statutes, a drug-free workplace, or lobbying, that person is not eligible to apply for funding from the Endowment. When an applicant is unable to certify regarding federal debt status or debarment and suspension, an explanation must be attached to the proposal. The explanation of why the certification cannot be submitted will be considered in connection with the Endowment's funding determination. Failure to furnish a certification or an explanation shall disqualify the applicant from receiving an award from the Endowment.

The certifications are material representations of fact upon which reliance will be placed when the Endowment determines to fund the application. If it is later determined that the applicant knowingly provided an erroneous certification or did not comply with the requirements, in addition to other remedies available to the federal government, the Endowment may seek judicial enforcement of the certification (nondiscrimination statutes); may terminate the award for cause or default (federal debt status and debarment and suspension); and may suspend payment, suspend or terminate the grant, or suspend or debar the grantee (drug-free workplace). Any person who fails to file a required certification regarding lobbying or submits an erroneous certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The applicant shall provide immediate written notice to the Endowment if at any time the applicant learns that its certifications were erroneous when

submitted or have become erroneous by reason of changed circumstances.

Nondiscrimination Statutes

The certification regarding the nondiscrimination statutes shall obligate the applicant for the period during which the federal financial assistance is extended. There are two exceptions. If any personal property is acquired with Endowment assistance, this certification shall obligate the applicant for the period during which it retains ownership or possession of that property. If any real property or structure is improved with Endowment support, this certification shall obligate the applicant or any transferee for as long as the property or structure is used for the grant or similar purposes. This certification is binding on the applicant, its successors, transferees, and assignees, and on the authorizing official whose signature appears on the application cover sheet for this proposal.

Grantees are also required to evaluate their policies and practices toward the handicapped and grantee organizations that employ fifteen or more persons must keep on file a list of the interested persons that were consulted and a description of the areas that were examined, the problems that were identified, and any modifications or remedial steps that were undertaken.

Federal Debt Status

Definitions of terms used in the certification:

Delinquent: Represents the failure to pay an obligation or debt by the date specified in the agency's initial written notification or applicable contractual agreement, unless other satisfactory payment arrangements have been made by that date, or if at any time thereafter, the debtor fails to satisfy the obligation under a payment agreement with the agency.

Federal Debt: The amount of money or property that has been determined by an appropriate agency official to be owed to the United States by any person, organization, or entity. Examples of debts include delinquent taxes, audit disallowances, guaranteed and direct student loans, housing loans, farm loans, business loans, Department of Education institutional loans, benefit overpayments, and other miscellaneous administrative debts.

Debarment and Suspension

The applicant agrees by submitting this proposal that should the proposal be funded by the Endowment, it shall not knowingly enter into any project-related transactions (as defined under "lower tier covered transactions") with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Endowment.

The applicant further agrees by submitting this proposal to include without modification the following clause in all lower tier covered transactions and in all solicitations for lower tier covered transactions:

(1) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

A grantee may rely on the certification of a prospective subrecipient that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A grantee may decide the method and frequency by which it determines the eligibility of its "principals."

Except when specifically authorized by the Endowment, if a grantee knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to the remedies available to the federal government, the Endowment may terminate this transaction for cause or default.

Definitions of terms used in the certification:

Covered Transaction: A covered transaction is either a primary covered transaction or a lower tier covered transaction.

Debarment: An action taken by a debarring official in accordance with 45 CFR Part 1169 to exclude a

person from participating in covered transactions. A person so excluded is "debarred."

Ineligible: Excluded from participation in federal nonprocurement programs pursuant to a determination of ineligibility under statutory, executive order, or regulatory authority, other than Executive Order 12549.

Lower Tier Covered Transaction: (a) Any transaction between a participant and a person other than a procurement contract for goods or services, regardless of type, under a primary covered transaction. (b) Any procurement contract for goods or services between a participant and a person, regardless of type, expected to equal or exceed the federal procurement small purchase threshold fixed at 10 U.S.C. 2304(g) and 41 U.S.C. 253(g) [currently \$25,000] under a primary covered transaction. (c) any procurement contract for goods or services between a participant and a person under a covered transaction, regardless of amount, under which that person will have a critical influence on or substantive control over that covered transaction. Such persons are project directors, principal investigators, and providers of federally-required audit services.

Participant: Any person who submits a proposal for, enters into, or reasonably may be expected to enter into a covered transaction. This term also includes any person who acts on behalf of or is authorized to commit a participant in a covered transaction as an agent or representative of another participant.

Person: Any individual, corporation, partnership, association, unit of government or legal entity, however organized, except foreign governments or foreign governmental entities, public international organizations, foreign government owned or controlled entities.

Primary Covered Transaction: This is normally any nonprocurement transaction between an agency and a person, regardless of type, including grants, cooperative agreements, scholarships, fellowships, contracts of assistance, loans, loan guarantees, subsidies, insurance, payments for specified use, donation agreements, and any other nonprocurement transactions between a federal agency and a person.

Principal: Officer, director, owner, partner, key employee, or other person within a participant with primary management or supervisory responsibilities; or a person who has critical influence on or substantive control over a covered transaction, whether or not employed by the participant.

Suspension: An action taken by a suspending official in accordance with these regulations that immediately excludes a person from participating in covered transactions for a temporary period, pending completion of an investigation and such legal, debarment, or Program Fraud Civil Remedies Act proceedings as may ensue.

Voluntarily Excluded: The status of nonparticipation or limited participation in covered transactions assumed by a person pursuant to the terms of a settlement.

Drug-Free Workplace

By signing and submitting the application the applicant agrees, among other things, to establish an ongoing drug-free awareness program; to publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace; and to give this statement to each employee to be engaged in the performance of the grant. For grants that have a performance period in excess of 30 days, the program and policy statement must be in place within thirty days after award.

A grantee will be considered in violation of the drug-free workplace requirements if the grantee falsely certifies, fails to carry out the requirements of the certification, or fails to make a good faith effort to maintain a drug-free workplace.

The applicant must either identify in the application proposal the place(s) where the grant activities will be carried out or must keep this information on file in its office so that it is available for federal inspection. Workplace identification shall include the actual address of buildings (or parts of buildings) or other sites where work under the grant will take place. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

Definitions of terms used in the certification:

Controlled Substance: A controlled substance in schedules I through V of the Controlled Substance Act (21 U.S.C. 812), and as further defined by regulation at 21 CFR 1308.11 - 1308.15.

Drug-free Workplace: A site for the performance of work done in connection with a specific grant at which employees of the grantee are prohibited from

engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

Employee: The employee of a grantee directly engaged in the performance of work under the grant, including all "direct charge" employees; all "indirect charge" employees, unless their impact or involvement is insignificant to the performance of the grant; and all temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll.

Grantee: A person who applies for or receives a grant directly from a federal agency.

Lobbying Activities

Federal agencies are required to obtain certifications and, under certain circumstances, disclosure statements on the lobbying activities of applicants who request grant funds in excess of \$100,000. The "Certification Regarding Lobbying Activities" applies only to the individual application for which Endowment funding is being sought. If nonfederal funds were used or will be used to support lobbying activities for this application by persons other than regularly employed officers or employees of the applicant institution, the OMB "Disclosure of Lobbying Activities" (Standard Form LLL) shall be completed and returned to the NEH Grants Office. This form will also be filed at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information previously filed.

Those who received a subgrant, contract, or sub-contract exceeding \$100,000 at any tier under an Endowment grant are required to file a certification and, when necessary, a disclosure form to the next tier above. All disclosure forms shall eventually be forwarded to the NEH Grants Office.

For the purpose of this certification a "regularly employed officer or employee of the applicant" is one who is employed by the applicant for at least 130 working days within one year immediately preceding the date of the submission that initiates Endowment consideration of the applicant for receipt of a grant or cooperative agreement.

Certifications
